C10301v2 Bachelor of Sport and Exercise Management

Award(s): Bachelor of Sport and Exercise Management (BSportExM)

UAC code: 606030 (Autumn semester)

CRICOS code: 080086D

Commonwealth-supported place?: Yes

Load credit points: 144 Course EFTSL: 3

Location: Kuring-gai campus

Overview

This course develops graduates who possess a sound knowledge of the biophysical, behavioural and sociocultural foundations of sport and exercise, combined with the management skills and knowledge increasingly necessary in sport and exercise professions.

As the sport and exercise industry has undergone a period of substantial growth, the need for professionals with management skills and qualifications has become increasingly important. Graduates are equipped with the professional knowledge and skills to operate in one of Australia's most dynamic industries.

Career options

Career options include athlete management, corporate health and fitness, fitness consultant, health promotion, sport development manager, sport event manager, sport marketing, sport policy, sport scientist, sport venue manager.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Non-current school leavers are strongly advised to submit a personal statement directly to UTS by 30 November 2013. Further information is available from:

www.uts.edu.au/future-students/undergraduate/essentialinformation/applying

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Mathematics and any two units of English.

Credit recognition

After admission, students may apply for credit recognition in subjects in which they consider themselves eligible. Equivalence of subject matter is the main criterion for credit recognition in a subject successfully completed at another institution.

Course duration and attendance

The course is taught on a full-time basis. The normal time for completion is three years. Students are required to attend some evening classes as part of their program of study.

This course is currently offered at Kuring-gai campus only.

Course structure

Students must complete 144 credit points comprising 24 subjects, made up of 20 core subjects and four elective subjects.

Industrial training/professional practice

The course has an extensive internship program.

Course completion requirements

Bachelor of Arts in International Studies (BA)

UAC code: 609080 (Autumn semester)

CRICOS code: 080084F

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5

Location: Kuring-gai campus

Overview

The Bachelor of Sport and Exercise Science Bachelor of Arts in International Studies is offered jointly by UTS: Health and UTS: International Studies. The degree integrates human movement studies with a major in the language and culture of another country.

The course provides students with a strong understanding of the processes and mechanisms underlying sport and exercise science, and with the knowledge and skills necessary to manage and plan sport and exercise activities in health, rehabilitation, leisure, event and education contexts.

Students who complete this course with the Health and Physical Education major (HPE) are eligible for direct entry into the Bachelor of Teaching in Secondary Education (C08002) (see page 521) offered by UTS: Education. This course is formally accredited with the NSW Institute of Teachers and provides HPE students with the opportunity to complete two degrees.

Career options

Career options include exercise therapy and teaching of personal development, fitness and corporate health, facility management, health, physical education and outdoor education, sport coaching, sport development, sport management, and sports science and team conditioning. Career options are enhanced by international experience, making students more marketable to prospective employers.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Sport and Exercise Science (C10300) (see page 295). There is a range of entry levels to the various language and culture programs. Students are admitted to the international studies program with no guarantee of entry to a specific major, although every effort is made to meet students' preferences.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Assumed knowledge

There are no prior language requirements for the international studies program (see page 90).

Credit recognition

For credit recognition, see the Bachelor of Sport and Exercise Science (C10300) (see page 295).

Course duration and attendance

The course is offered on a five-year, full-time basis. Students spend two semesters of study at a university or other higher education institution in the country of their major.

Course structure

Students must complete 240 credit points of study, comprising 144 credit points relating to human movement and 96 credit points relating to international studies. For full details of the Bachelor of Sport and Exercise Science component of the combined degree, refer to the Bachelor of Sport and Exercise Science (C10300) (see page 295). The Bachelor of Arts in International Studies requires undergraduates to study a region or country major over a minimum of three years. The Bachelor of Arts in International Studies is not offered as a separate degree, but is completed only in combination with the professional degree program.

Overseas study

Students spend their fourth year of study at a university overseas.

Industrial training/professional practice

This course has a professional internship component that includes a minimum of six weeks' work experience.

Career options

Career options include corporate health and fitness manager, events manager, exercise therapist, health and fitness consultant, sport coach, sport development officer, sport manager, sport marketing coordinator or sporting facility manager. Career options are enhanced by international experience, making students more marketable to prospective employers.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Sport and Exercise Management (C10301) (see page 297). There is a range of entry levels to the various language and culture programs. Students are admitted to the international studies program with no guarantee of entry to a specific major, although every effort is made to meet students' preferences.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

There are no prior language requirements for the international studies program (see page 90).

Credit recognition

For credit recognition, see the Bachelor of Sport and Exercise Management (C10301) (see page 297).

Course duration and attendance

The course is offered as a full-time program over five years. Students spend two semesters of study at a university or other higher education institution in the country of their major. The international studies component of the course is mainly offered at City campus.

Course structure

Students must complete 240 credit points of study, comprising 144 credit points relating to management in sport and exercise and 96 credit points relating to international studies. For full details of the Bachelor of Sport and Exercise Management component of the combined degree, refer to the Bachelor of Sport and Exercise Management (C10301) (see page 297). The Bachelor of Arts in International Studies requires undergraduates to study a region or country major over a minimum of three years. The Bachelor of Arts in International Studies is not offered as a separate degree, but is completed only in combination with the professional degree program.

Overseas study

Students spend their fourth year of study at a university overseas.

Industrial training/professional practice

This course has a professional internship component that includes a minimum of six weeks' work experience.

C10304v1 Bachelor of Design in **Integrated Product Design**

Award(s): Bachelor of Design in Integrated Product Design (BDesign)

UAC code: 602050 (Autumn semester)

CRICOS code: 077331M

Commonwealth-supported place?: Yes

Load credit points: 144 Course EFTSL: 3 Location: City campus

Overview

Integrated product design expands on the traditional field of industrial design to reflect the changed realities of the globalised design profession. The course offers a practice-based approach to learning through the integration of digital and analogue technologies across the broad field of integrated product design, as well as the potential for specialisation within highly contemporary and innovative integrated product design practices.

With a strong emphasis on creativity and technology, graduates move seamlessly from the design of material objects to the design of associated services together with the skills to maintain a specialist role within an interdisciplinary team. Structured around design studios, this dynamic course allows specialisations such as interaction design, smart object design, interactive product design, system design. The design studio integrates practice-orientated learning around specific projects.

Course aims

The course aims to support and foster a creative and explorative attitude toward the design process. It equips its graduates with the ability to effectively function on the international stage with ease and success, with the communication skills that allow them to operate across cultures, languages and location.

The course takes an experimental and hybrid approach to the integration of networked digital technologies into the design of products and systems. Students gain an integrated approach and understanding of how to conceptualise, visualise and realise products, services and/or systems as a design professional.

Innovation and experimentation is underpinned by theoretical, historical and contextual studies to facilitate students' development in both the conceptual and technical design skills required to work within the broader integrated product design field, and its specialist areas.

Throughout each stage, the course requires students to develop an understanding of their own design language and theoretical position in relation to historic and contemporary contexts.

Career options

Career options include corporate or in-house designer, design consultant, production manager, industrial designer, interaction designer, designer of smart objects, interactive product designer, system designer, furniture, product or accessories designer, design communication professional, design researcher, commercialisation professional.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

This course is offered on a three-year, full-time basis.

Overview

Integrated product design expands on the traditional field of industrial design to reflect the changed realities of the globalised design profession. The course offers a practice-based approach to learning through the integration of digital and analogue technologies across the broad field of integrated product design, as well as the potential for specialisation within highly contemporary and innovative integrated product design practices.

The combined degree provides additional practical skills, in particular skills that make students aware of the international contexts of design, by providing them with the opportunity to acquire knowledge of a language and culture other than English.

With a strong emphasis on creativity and technology, graduates move seamlessly from the design of material objects to the design of associated services together with the skills to maintain a specialist role within an interdisciplinary team.

Structured around design studios, this dynamic course allows specialisations like interaction design, smart object design, interactive product design, and system design. The design studio integrates practice-orientated learning around specific projects.

The international experience enhances career options, making students more marketable to prospective employers.

Course aims

The course aims to support and foster a creative and explorative attitude toward the design process. It equips its graduates with the ability to effectively function on the international stage with ease and success, with the communication skills that allow them to operate across cultures, languages and location.

The course takes an experimental and hybrid approach to the integration of networked digital technologies into the design of products and systems. Students form an integrated approach and understanding of how to conceptualise, visualise and realise products, services and/or systems as a design professional.

Innovation and experimentation is underpinned by theoretical, historical and contextual studies to facilitate students' development in both the conceptual and technical design skills required to work within the broader integrated product design field, and its specialist areas.

Throughout each stage, the course requires students to develop an understanding of their own design language and theoretical position in relation to historic and contemporary contexts.

A further two years of study introduce and consolidate the learning of a language and culture other than English.

Career options

Career options include corporate or in-house designer, design consultant, production manager, industrial designer, interaction designer, designer of smart objects, interactive product designer, system designer, furniture, product or accessories designer, design communication professional, design researcher, commercialisation professional.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C10306v1 Bachelor of Design in Fashion and Textiles

Award(s): Bachelor of Design in Fashion and Textiles (BDesign)

UAC code: 602040 (Autumn semester)

CRICOS code: 077334G

Commonwealth-supported place?: Yes

Load credit points: 144 Course EFTSL: 3 Location: City campus

Overview

The Bachelor of Design in Fashion and Textiles has been designed to enable students to create pathways of learning as they progress through the degree with a flexible and diverse approach to learning. Emphasis throughout this practice-based course is placed on value, innovation, creativity and responsible practice. Students should develop flexibility and confidence in working in and across the diverse environments that constitute contemporary practice.

The course centres around design studios which integrate practiceorientated learning around specific projects, and parallels the process that professionals undertake in industry. Professional practice is embedded in all fashion studios and builds on contemporary industry practice within both local and global markets. Projects are developed through both individual and group work, to simulate design team environments.

Course aims

The course is designed to provide students with an outlook and ambition that extends beyond the university, cultivating a collaborative and global vision of design. Central to the course is the integration of theory and practice in relation to fashion and textile design. Students are expected to develop an understanding of the formation and application of their own individual design language and theoretical position in relation to historical and contemporary

The first year introduces design principles and challenges design thinking. In the second year students have the opportunity to diversify according to their area of interest and strength in areas including innovation in material research, types of technologies, engaging with digital design, methods of construction, approaches to either flat patternmaking or drape.

The fashion studio and professional practice subjects in third-year have been designed to extend students' understanding of global fashion and to provide students with a choice of design projects and areas of specialisation.

Career options

Career options include buyer, fashion editor, fashion or textile designer, illustrator or stylist. Some students start their own business, while others work within an established company. Graduates may also continue studies at postgraduate level.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

C10308v1 Bachelor of Design in **Visual Communication**

Award(s): Bachelor of Design in Visual Communication (BDesign)

UAC code: 602070 (Autumn semester)

CRICOS code: 077339C

Commonwealth-supported place?: Yes

Load credit points: 144 Course EFTSL: 3 Location: City campus

Overview

The Bachelor of Design in Visual Communication offers a practicebased approach to learning visual communication. Throughout the course, the creation of new design solutions is driven by rigorous and critical exploration of methods, materiality and technology, and understanding the influence of globalisation, digitisation, complexity and interactivity.

The course centres around design studios which integrate practiceorientated learning around specific projects, and parallel the process that professionals undertake in industry.

The course is structured to allow students to focus, particularly in its second half, on areas of specialisation. Throughout all stages, the course requires students to develop an understanding of their own individual design language and theoretical position in relationship to historic and contemporary contexts.

Course aims

The course aims to support and foster a creative and explorative attitude toward the design process where research and practice are consolidated in design outcomes. It cultivates a collaborative and global vision of design. Through a variety of interdisciplinary subjects, industry projects and international studios, students develop the flexibility and confidence to work in the divergent and novel environments of contemporary visual communication practice.

Throughout the degree students progress through studies and skills development in the area of form, content, context and concept. First year introduces the key formal concerns of visual communication, including image, typography, composition and hierarchy. Second-year subjects engage more closely with content and the interdependencies of form and content. A contextual understanding of design as an outwardly focused activity is developed in third year, with closer studies of audience, society, ethics and industry.

Career options

Career options include design roles in graphic design, publishing, advertising, animation, film, television, exhibitions, government agencies, not-for-profit and corporate sectors.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C10310v1 Bachelor of Property Economics

Award(s): Bachelor of Property Economics (BPropEc) CRICOS code: 079553C Commonwealth-supported place?: Yes Load credit points: 144 Course EFTSL: 3 Location: City campus

Overview

12cp

The Bachelor of Property Economics is an applied degree that prepares students for a career in the dynamic global property industry. It produces highly sought-after property professionals ready to enter the workforce with qualifications fully recognised by professional and industry bodies.

Progressively more advanced subject content and assessment tasks develop students' abilities to analyse and synthesise knowledge, solve problems using critical thinking and independent judgment, and communicate knowledge and ideas clearly and coherently.

Understanding the ethical responsibilities of property professionals and demonstrating the ability to work in teams as well as independently are essential preparation for the professional workplace.

Assessment tasks entailing project-based learning, using digital information technologies, and applying theoretical concepts to real world problems, ensure that students develop adaptability, initiative, and decision-making ability.

Course aims

This course develops a broad base of knowledge of many aspects of the property industry, including central concepts of law, economics, finance, and valuation, and related fields of property management, construction, development, urban planning, and accounting, providing students with a broad and coherent understanding of property, alongside a deeper understanding of valuation and the legal, economic, and financial concepts that underpin valuation.

Career options

Career options include property valuer, property and asset manager, property market analyst, property sales and acquisitions, property developer, funds manager, and corporate real estate adviser.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

UTS: Design, Architecture and Building may consider applications based on the results of the Special Tertiary Admissions Test (STAT) if students lack academic qualifications but have extensive professional experience. The STAT is conducted through the Universities Admissions Centre.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Mathematics and any two units of English.

Credit recognition

Students with prior academic or industrial experience are considered for credit recognition and may be given the opportunity to tailor their program of study in line with subjects completed previously at other institutions.

Course duration and attendance

The course is offered on a three-year, full-time or equivalent parttime basis.

Course structure

The course comprises a total of 144 credit points.

Industrial training/professional practice

In addition to attending classes, students are required to gain practical experience in appropriate professional or industrial organisations. Full-time students undertake practical studies as part of the program included in core subjects.

They are also required to gain approved professional experience in the final two full-time years of their programs. Part-time students are required to enrol each year, except Year 1, in the professional/industrial experience subject and to supply details of the experience gained.

Course completion requirements

STM90820 Core subjects (Property Economics) CBK90242 Sub-major/Electives (DAB) 120cp 24cp Total 144cp

Honours

Students who achieve a minimum of a 70 per cent weighted average mark in their first two levels of study may be invited to undertake the honours program. This is taken as specialised subjects, focusing on property research and analysis, an honours research proposal and a thesis.

Professional recognition

Australian Property Institute (API); Royal Institution of Chartered Surveyors (RICS); Singapore Institute of Surveyors and Valuers (SISV)

Overview

Creative writing at UTS is a practice- and disciplinary-based program focusing on narrative, poetics, reading and literary theory. This degree develops creative writing across several genres, fosters independent and professional writing skills via workshop and lecture study, and engages critically with the broader cultural context in which creative writing is produced and read.

Students gain practical experience and theoretical engagement in the discipline of contemporary creative writing. They apply their skills across a number of key genres and narrative forms. An emphasis on critical skills leading towards the development of independent writing projects prepares students for professional practice.

Career options

Career options include editors, publishers, scriptwriters, literary agents, communication coordinators, arts and cultural administrators, copywriters, novelists, feature writers, publications officers, freelance writers, book marketing coordinators.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Any two units of English and computer literacy.

External articulation

The Faculty of Arts and Social Sciences has established credit recognition packages with the following institution for the course

INSEARCH UTS: Diploma of Communication.

Course duration and attendance

The course is offered on a three-year, full-time basis.

Course structure

Students must complete 144 credit points consisting of a 48-creditpoint core program, a 48-credit-point major, a 24-credit-point submajor and 24 credit points of electives.

Industrial training/professional practice

Students write in diverse forms and genres, and can elect to undertake a professional placement during their course.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Any two units of English and computer literacy. There are no prior language requirements for the international studies program (see page 90).

External articulation

The Faculty of Arts and Social Sciences has established credit recognition packages with the following institution for the course

INSEARCH UTS: Diploma of Communication.

Course duration and attendance

The course is offered on a five-year, full-time basis. Students spend two semesters of study at a university or other higher education institution in the country of their major.

Course structure

Students must complete 240 credit points, comprising 144 credit points in the communication component and 96 credit points in the international studies component. The Bachelor of Arts in International Studies requires undergraduates to study a region or country major over a minimum of three years. The Bachelor of Arts in International Studies is not offered as a separate degree, but is completed only in combination with the professional degree program.

Overseas study

Students spend their fourth year of study at a university overseas.

Industrial training/professional practice

Students write intensively throughout the course with workshops, writing projects and have an opportunity to be involved in the UTSWriters' Anthology. Students can also elect to undertake a professional experience placement.

CRICOS code: 079559G

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5 Location: City campus

Note(s)

This is a new course in 2014.

Overview

This course is offered jointly by UTS: Law and UTS: Communication. The course aims to assist students to develop practical experience of and theoretical engagement in the discipline of contemporary creative writing and the intersection of law and creativity. Students are prepared for a broad range of careers, including professional and legal practice, through an emphasis on critical skills to develop independent writing and foundational law studies.

The program provides full-time study for students wishing to obtain a professional legal qualification that satisfies the academic requirements for admission as a lawyer together with the study of creative writing as a professional practice.

Students learn a range of key genres and forms, including narrative writing, creative non-fiction, poetry and poetics, and screenwriting. Students also study the 'written word' – one of the most important tools of the legal profession - and the combination of law and creative writing equips students to become effective advocates who can provide innovative and thoughtful solutions to complex problems.

Career options

Career options include media lawyer, intellectual property lawyer, solicitor, barrister, editor, publisher, scriptwriter, literary agent, communication coordinator, copywriter, novelist, feature writer, publications officer, freelance writer.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

HSC English and computer literacy.

Course duration and attendance

The course is offered on a five-year, full-time basis. Students are required to attend approximately 17 hours of seminars and lectures a week, and may be required to attend evening classes for the law component.

Course structure

The course comprises 240 credit points and allows students to graduate with the separate degrees of Bachelor of Arts in Communication (Creative Writing) and Bachelor of Laws. The study components for course completion are as follows.

The law component of 144 credit points is made up of:

- 108 credit points of compulsory core law subjects
- 30 credit points of law options, and
- a 6-credit-point legal theory option.

The communication component of 96 credit points is made up of:

- 48 credit points of compulsory subjects, and
- 48 credit points of subjects from the Creative Writing major.

Industrial training/professional practice

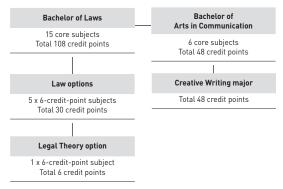

To practise as a lawyer in NSW, students need to successfully complete an accredited legal academic qualification (e.g. Bachelor of Laws) and an accredited course of practical legal training (PLT), which UTS offers through its PLT program.

Students enrolled in this course may complete their practical legal training by undertaking a postgraduate course in PLT, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Spring semester

The Bachelor of Laws may be awarded with first or second class honours, which does not require an additional honours year. Honours candidates must complete the research thesis within the law option component. The rules concerning the Bachelor of Laws with honours can be found in undergraduate course information (see page 99).

Honours

The Bachelor of Arts (Honours) in Communication (C09009) (see page 113) is offered on a one-year, full-time basis.

Professional recognition

This course satisfies the requirements for admission to the Supreme Court of NSW as a lawyer, provided students complete a practical legal training program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5

overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

HSC English and computer literacy. There are no prior language requirements for the international studies program (see page 90).

Course duration and attendance

The course is offered on a five-year, full-time basis. Students spend two semesters of study at a university or other higher education institution in the country of their major.

Course structure

Students must complete 240 credit points, comprising 144 credit points in the communication component and 96 credit points in the international studies component. The Bachelor of Arts in International Studies requires undergraduates to study a region or country major over a minimum of three years. The Bachelor of Arts in International Studies is not offered as a separate degree, but is completed only in combination with the professional degree program.

Overseas study

Note(s)

This is a new course in 2014.

Overview

This course aims to develop digital communications practitioners/ lawyers who can produce high quality outcomes in complex collaborative digital environments, especially social media contexts. It examines a communications environment where diverse media converge, mobile and social platforms are ubiquitous, and success for individuals and organisations depends largely on their capacity to creatively adapt to the challenges of continuous transformation.

The course provides full-time study for students wishing to obtain a professional legal qualification that satisfies the academic requirements for admission as a lawyer together with the study of creative writing as a professional practice.

The course develops a broad range of capabilities for professional practice in information and law. It is particularly relevant for imaginative, synthetic and analytical thinking and communication, as well as practical skills in digital communication across diverse technological platforms and environments. Students learn to be technologically literate, culturally sophisticated, innovative and resourceful leaders with legal knowledge and skills for the rapidly evolving digital communications industries.

Career options

Career options include specialist social media lawyer, media lawyer, intellectual property lawyer, solicitor, social media manager, barrister, digital and social media coordinator, digital consultant, communications officer, digital channels strategist, marketing technologist, legal adviser within a government department, lawyer in corporate and commercial sector, librarian, media researcher, project manager, web designer, and other diverse roles particularly in legal and business contexts.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Assumed knowledge

HSC English and computer literacy.

Course duration and attendance

The course is offered on a five-year, full-time basis. Students are required to attend approximately 17 hours of seminars and lectures a week, and may be required to attend evening classes for the law component.

Course structure

The course comprises 240 credit points and allows students to graduate with the separate degrees of Bachelor of Arts in Communication (Digital and Social Media) and Bachelor of Laws. The study components for course completion are as follows.

The law component of 144 credit points is made up of:

- 108 credit points of compulsory core law subjects
- 30 credit points of law options, and
- a 6-credit-point legal theory option.

The communication component of 96 credit points is made up of:

- 48 credit points of compulsory subjects, and
- 48 credit points of subjects from the Digital and Social Media

Industrial training/professional practice

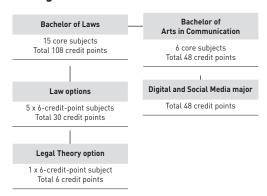

To practise as a lawyer in NSW, students need to successfully complete an accredited legal academic qualification (e.g. Bachelor of Laws) and an accredited course of practical legal training (PLT), which UTS offers through its PLT program.

Students enrolled in this course may complete their practical legal training by undertaking a postgraduate course in PLT, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Levels of award

Select 24 credit points of options

The Bachelor of Laws may be awarded with first or second class honours, which does not require an additional honours year. Honours candidates must complete the research thesis within the law option component. The rules concerning the Bachelor of Laws with honours can be found in undergraduate course information (see page 99).

Honours

The Bachelor of Arts (Honours) in Communication (C09009) (see page 113) is offered on a one-year, full-time basis.

Professional recognition

This course satisfies the requirements for admission to the Supreme Court of NSW as a lawyer, provided students complete a practical legal training program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Overview

Cultural Studies at UTS answers the need from industry, particularly the cultural and creative sectors, for researchers who can understand, analyse and transform the ways that individuals, communities and societies behave, interact, and respond to change. This degree combines training in the theories and methodologies of contemporary cultural research with case studies in the creative and cultural industries in which many graduates will work.

 $This \, course \, focuses \, on \, the \, development \, of \, new \, critical, \, methodological \,$ and creative ways for understanding contemporary society. It aims to produce graduates with a set of research skills and cultural knowledge that can be applied in a wide variety of roles within the communication sector. Studies focus on practical and applicable skills in digital and archival research, cultural analysis and critique, intercultural communication and creative thinking with collaborative teamwork.

Career options

Career options include cultural researcher, communication strategist, cultural development officer, community engagement coordinator, creative enterprise manager, grants development officer, media and communications researcher/analyst, cultural activist, market researcher.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Note(s)

8cp

This is a new course in 2014.

Overview

This course is offered jointly by UTS: Law and UTS: Communication. The course aims to develop new critical, methodological and creative ways to understand contemporary society, together with the study of law, which has a critical relationship to society and culture.

The course provides full-time study for students wishing to obtain a professional legal qualification that satisfies the academic requirements for admission as a lawyer together with the study of cultural studies as a professional practice.

Students in this course obtain a set of research skills and cultural knowledge that can be applied in a wide variety of roles within the legal and communications sectors. Studies focus on practical and applicable skills in digital and archival research, cultural analysis and critique, intercultural communication and creative thinking with collaborative teamwork. Students also learn to think creatively to deliver innovative cultural products and analysis as solutions to cultural and social problems.

Career options

Career options include lawyer, solicitor, barrister, cultural researcher, communication strategist, cultural development officer, community engagement coordinator, creative enterprise manager, grants development officer, media and communication researcher/analyst, cultural activist, market researcher.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

UTS: Handbook 2014

Undergraduate courses

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

HSC English and computer literacy.

Course duration and attendance

The course is offered on a five-year, full-time basis. Students are required to attend approximately 17 hours of seminars and lectures a week, and may be required to attend evening classes for the law component.

Course structure

The course comprises 240 credit points and allows students to graduate with the separate degrees of Bachelor of Arts in Communication (Cultural Studies) and Bachelor of Laws. The study components for course completion are as follows.

The law component of 144 credit points is made up of:

- 108 credit points of compulsory core law subjects
- 30 credit points of law options, and
- a 6-credit-point legal theory option.

The communication component of 96 credit points is made up of:

- 48 credit points of compulsory subjects, and
- 48 credit points of subjects from the Cultural Studies major.

Industrial training/professional practice

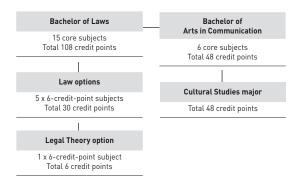

To practise as a lawyer in NSW, students need to successfully complete an accredited legal academic qualification (e.g. Bachelor of Laws) and an accredited course of practical legal training (PLT), which UTS offers through its PLT program.

Students enrolled in this course may complete their practical legal training by undertaking a postgraduate course in PLT, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Levels of award

The Bachelor of Laws may be awarded with first or second class honours, which does not require an additional honours year. Honours candidates must complete the research thesis within the law option component. The rules concerning the Bachelor of Laws with honours can be found in undergraduate course information (see page 99).

Honours

The Bachelor of Arts (Honours) in Communication (C09009) (see page 113) is offered on a one-year, full-time basis.

Professional recognition

This course satisfies the requirements for admission to the Supreme Court of NSW as a lawyer, provided students complete a practical legal training program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

C10320v1 Bachelor of Property Economics Bachelor of Arts in International Studies

Award(s): Bachelor of Property Economics (BPropEc) Bachelor of Arts in International Studies (BA Int St) CRICOS code: 079556M Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5 Location: City campus

Overview

The Bachelor of Property Economics is an applied degree that prepares students for a career in the dynamic global property industry. It produces highly sought-after property professionals ready to enter the workforce with qualifications fully recognised by professional and industry bodies.

The combined degree program in property economics and international studies provides students specialising in property economics with additional practical skills by providing the opportunity to acquire knowledge and understanding of a language and culture other than English.

Progressively more advanced subject content and assessment tasks develop students' abilities to analyse and synthesise knowledge, solve problems using critical thinking and independent judgment, and communicate knowledge and ideas clearly and coherently.

Understanding the ethical responsibilities of property professionals and demonstrating the ability to work in teams as well as independently are essential preparation for the professional workplace.

Assessment tasks entailing project-based learning, using digital information technologies, and applying theoretical concepts to real world problems, ensure that students develop adaptability, initiative, and decision-making ability.

In addition, students completing the dual degree have the opportunity to develop their international knowledge further, learn to adapt to a wider variety of global contexts, and learn to work and communicate with a more diverse array of people.

Course aims

This course develops a broad base of knowledge of many aspects of the property industry, including central concepts of law, economics, finance, and valuation, and related fields of property management, construction, development, urban planning, and accounting, providing students with a broad and coherent understanding of property, alongside a deeper understanding of valuation and the legal, economic, and financial concepts that underpin valuation. It also develops perspectives and understandings that enable graduates to meet the demands of an internationalised professional environment.

Career options

Career options include property valuer, property and asset manager, property market analyst, property sales and acquisitions, property developer, funds manager, and corporate real estate adviser.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Property Economics (C10310).

There is a range of entry levels to the various language and culture programs. Students are admitted to the international studies program with no guarantee of entry to a specific major, although every effort is made to meet students' preferences.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Assumed knowledge

Mathematics and any two units of English.

Credit recognition

Students with prior academic or industrial experience are considered for credit recognition and may be given the opportunity to tailor their program of study in line with subjects completed previously at other institutions.

Course duration and attendance

The combined program is offered on a five-year, full-time basis. Students spend two semesters of study at a university or other higher education institution in the country of their major.

Course structure

Students are required to complete 240 credit points of study, comprising 144 credit points in property economics and 96 credit points in international studies.

The Bachelor of Arts in International Studies requires undergraduates to study a region or country major over a minimum of three years. The Bachelor of Arts in International Studies is not offered as a separate degree, but is completed only in combination with the professional degree program.

Overseas study

Students spend their fourth year of study at a university overseas.

Industrial training/professional practice

In addition to attending classes, students are required to gain practical experience in appropriate professional or industrial organisations. Full-time students undertake practical studies as part of the program included in core subjects.

They are also required to gain approved professional experience in the final two full-time years of their programs. Part-time students are required to enrol each year, except Year 1, in the professional/industrial experience subject and to supply details of the experience gained.

Course completion requirements

STM90820 Core subjects (Property Economics)	120ср
	1
CBK90005 Country major choice	96ср
CBK90242 Sub-major/Electives (DAB)	24cp
	Total 240cp

Honours

Students who achieve a minimum of a credit weighted average mark in their first two levels of study may be invited to undertake the honours program. The honours program is taken as specialised subjects, focusing on property research and analysis, an honours research proposal and a thesis.

Professional recognition

Australian Property Institute (API); Royal Institution of Chartered Surveyors (RICS); Singapore Institute of Surveyors and Valuers (SISV)

C10321v1 Bachelor of Design in Fashion and Textiles Bachelor of Creative Intelligence and Innovation

Award(s): Bachelor of Design in Fashion and Textiles (BDesign) Bachelor of Creative Intelligence and Innovation (BCIInn) UAC code: 609540 (Autumn semester)

CRICOS code: 079751G

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5 Location: City campus

Overview

The Bachelor of Design in Fashion and Textiles has been designed to enable students to create pathways of learning as they progress through the degree with a flexible and diverse approach to learning. Emphasis throughout this practice-based course is placed on value, innovation, creativity and responsible practice. Students should develop flexibility and confidence in working in and across the diverse environments that constitute contemporary practice.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The course centres around design studios which integrate practice-orientated learning around specific projects, and parallels the process that professionals undertake in industry. Professional practice is embedded in all fashion studios and builds on contemporary industry practice within both local and global markets. Projects are developed through both individual and group work, to simulate design team environments.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include buyer, fashion editor, fashion or textile designer, illustrator or stylist. Some students start their own business, while others work within an established company. Graduates may also continue studies at postgraduate level.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Design in Fashion and Textiles.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a four-year, full-time or part-time equivalent basis.

Course structure

Students must complete 240 credit points, comprising 144 credit points in fashion and textiles and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

C10322v1 Bachelor of Design in Interior and Spatial Design Bachelor of Creative Intelligence and Innovation

Award(s): Bachelor of Design in Interior and Spatial Design (BDesign) Bachelor of Creative Intelligence and Innovation (BCIInn)

UAC code: 609550 (Autumn semester)

CRICOS code: 079752G

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5 Location: City campus

Overview

With a strong emphasis on creativity and technology, the Bachelor of Design in Interior and Spatial Design is the first university program of its kind in Australia. While interior design is an established profession, spatial design encompasses a range of connected practices that engage directly and creatively with space, from designing an exhibition to art directing a performance.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects

and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The course equips graduates with critical thinking, spatial intelligence, creativity and the skills to engage across the expanded field of interior and spatial design, to take up leading roles in industry. Uniquely, this course emphasises digital and analogue technologies of representation and fabrication, internationalisation and design practice.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

Through their study, students develop spatial intelligence and excellence in design practice. The program fosters a creative and explorative attitude toward the design process, underpinned by a reflective and critical engagement. In doing so, students generate a cohesive design approach where research and practice are consolidated in design outcomes.

The course cultivates a collaborative and global vision of design through a variety of interdisciplinary subjects, industry projects and international studios. Students develop the flexibility and confidence to work in the divergent and novel environments of contemporary practice.

The course has:

- an emphasis on creative, innovative spatial practice and international networks
- practice-oriented and research-integrated learning around specific projects
- engagement with innovative and creative technologies
- an emphasis on emerging design practices, and
- close links with creative practitioners.

Students are expected to develop an understanding of their individual design language and theoretical position in relation to historic and contemporary contexts.

Career options

Career options include commercial and residential interior design, interactive and responsive environment design, museum and exhibition design, production design for film and television, theatre and performance design, and visual and spatial branding.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Course EFTSL: 5

Overview

Location: City campus

Integrated product design expands on the traditional field of industrial design to reflect the changed realities of the globalised design profession. The course offers a practice-based approach to learning through the integration of digital and analogue technologies across the broad field of integrated product design, as well as the potential for specialisation within highly contemporary and innovative integrated product design practices.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

With a strong emphasis on creativity and technology, graduates move seamlessly from the design of material objects to the design of associated services together with the skills to maintain a specialist role within an interdisciplinary team. Structured around design studios, this dynamic course allows specialisations such as interaction design, smart object design, interactive product design, system design. The design studio integrates practice-orientated learning around specific projects.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking,

6cp

invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

The course aims to support and foster a creative and explorative attitude toward the design process. It equips its graduates with the ability to effectively function on the international stage with ease and success, with the communication skills that allow them to operate across cultures, languages and location.

The course takes an experimental and hybrid approach to the integration of networked digital technologies into the design of products and systems. Students gain an integrated approach and understanding of how to conceptualise, visualise and realise products, services and/or systems as a design professional.

Innovation and experimentation is underpinned by theoretical, historical and contextual studies to facilitate students' development in both the conceptual and technical design skills required to work within the broader integrated product design field, and its specialist areas.

Throughout each stage, the course requires students to develop an understanding of their own design language and theoretical position in relation to historic and contemporary contexts.

Career options

Career options include corporate or in-house designer, design consultant, production manager, industrial designer, interaction designer, designer of smart objects, interactive product designer, system designer, furniture, product or accessories designer, design communication professional, design researcher, commercialisation professional.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Overview

The Bachelor of Design in Visual Communication offers a practice-based approach to learning visual communication. Throughout the course, the creation of new design solutions is driven by rigorous and critical exploration of methods, materiality and technology, and understanding the influence of globalisation, digitisation, complexity and interactivity.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The course centres around design studios which integrate practiceorientated learning around specific projects, and parallel the process that professionals undertake in industry. The course is structured to allow students to focus, particularly in its second half, on areas of specialisation. Throughout all stages, the course requires students to develop an understanding of their own individual design language and theoretical position in relationship to historic and contemporary contexts.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

The course aims to support and foster a creative and explorative attitude toward the design process where research and practice are consolidated in design outcomes. It cultivates a collaborative and global vision of design. Through a variety of interdisciplinary subjects, industry projects and international studios, students develop the flexibility and confidence to work in the divergent and novel environments of contemporary visual communication practice.

Throughout the degree students progress through studies and skills development in the area of form, content, context and concept. First year introduces the key formal concerns of visual communication, including image, typography, composition and hierarchy. Second-year subjects engage more closely with content and the interdependencies of form and content. A contextual understanding of design as an outwardly focused activity is developed in third year, with closer studies of audience, society, ethics and industry.

Career options

Career options include design roles in graphic design, publishing, advertising, animation, film, television, exhibitions, government agencies, not-for-profit and corporate sectors.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Design in Visual Communication.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Course duration and attendance

The course is offered on a four-year, full-time basis.

Course structure

Students must complete 240 credit points, comprising 144 credit points in visual communication and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Note(s)

The Bachelor of Design in Architecture by itself does not lead to professional recognition as an architect. To become a professional architect, students must complete this degree followed by the Master of Architecture (C04235) (see page 404) (an additional two years of full-time study or equivalent).

Overview

The Bachelor of Design in Architecture is the first of two degrees needed to become an architect. Students wishing to qualify for professional recognition as architects must also complete the Master of Architecture (C04235) (see page 404). UTS architecture courses provide the skills and knowledge necessary to practise in the architectural profession and to be a future leader in the design of the built environment.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The Bachelor of Design in Architecture provides students with a rich education oriented towards international practice and design experimentation. Teaching is hands-on and undertaken in teams using the most innovative digital design and fabrication technologies available to the architectural profession in dedicated studios and workshops. UTS students have the benefit of learning from a cohesive team who are passionate about architecture and engage with the discipline as practitioners, researchers, educators and critics.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

This degree provides a liberal introduction to the study of architecture as a discipline. Students gain a critical and ethical awareness of architecture as a discipline with much to offer in the face of many of today's most pressing societal challenges. It equips students to join other design fields or related disciplines, and it prepares students for the Master of Architecture degree.

Career options

Career options include architect (after completion of the Master of Architecture), urban designer, landscape architect, administrator, policy maker, researcher, educator, or journalist.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Design in Architecture.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Award(s): Bachelor of Business (BBus) Bachelor of Creative Intelligence and Innovation (BCIInn) UAC code: 609530 (Autumn semester) CRICOS code: 079756C Commonwealth-supported place?: Yes Load credit points: 240 Course EFTSL: 5

Overview

The Bachelor of Business offers students a sound background in all areas of business through common core subjects, in addition to indepth knowledge in one or more chosen areas of interest.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This course provides an understanding of important aspects of business and offers a wide choice of majors and sub-majors. A wide variety of international exchange options are available.

By focusing on the high-level conceptual thinking and problem solving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include jobs in accounting, banking, economics, finance, financial services, human resource management, international business, management, marketing, marketing communication, sport or tourism management.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

CRICOS code: 079757B

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5

Overview

This course offers a sound education in all aspects of computing and information technology for students who intend to make a career in the profession.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This course adopts a practice-based approach to IT education and the course content is a mix of theory and practice. As well as gaining strong technical skills in IT, students gain skills in business analysis, problem solving, teamwork and communication. Employers look for graduates with industry experience and students are exposed to real IT problems.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

The course aims to produce graduates who are able to apply, in the context of any organisation, the knowledge and skills required of:

- information systems professionals in business units who integrate packaged systems rather than develop systems from first principles
- information technology professionals who develop systems from first principles

- network specialists who build, maintain and administer complex network systems, or
- computing specialists for technical research careers.

Career options

72cp

72cp

Career options include business analyst, IT project manager, network specialist, software developer, systems analyst or web developer.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission requirements are the same as the Bachelor of Science in Information Technology Diploma in Information Technology Professional Practice (C10152) (see page 199).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Mathematics and any two units of English.

Mathematics Extension 1 and English Advanced are recommended.

External articulation

Students who gain entry through the UTS INSEARCH pathway are eligible for 48 credit points of credit recognition.

Students who have completed a relevant diploma at TAFE NSW may be eligible for at least 24 credit points of credit recognition.

Credit recognition

Information technology component: Students who have previously undertaken study at a university or other recognised tertiary education institution may be eligible for some academic credit for their prior study if the subjects previously completed are deemed by the Faculty of Engineering and Information Technology to be equivalent to subjects in the course.

The prior study must have been completed before commencement of this course, but no earlier than three years before commencement. Students must be able to demonstrate that their knowledge is current.

Credit recognition is not normally granted in this course for study completed at a private college except where UTS has an external articulation agreement with the college. TAFE IT diplomas and advanced diplomas completed within three years of enrolment may be granted some credit recognition. For further details see:

www.uts.edu.au/future-students/information-technology/essential-information/it-undergraduate-credit-recognition

There are no exemptions granted for the networking subjects 31270, 31277 and 31283 without the successful completion of the challenge test for each of these subjects. A challenge test is granted at enrolment time to students who have completed the CCNA curriculum (or CCNP) at a university and/or TAFE diploma level where the awarding institution is a CISCO Networking Academy. These challenge tests are always held in the week before the commencement of semester.

Course duration and attendance

The course is completed in four years of full-time or eight years of part-time study.

Course structure

Students must complete 240 credit points, comprising 48 credit points of core IT subjects, 48 credit points of one compulsory IT major, 48 credit points of electives and 96 credit points in creative intelligence and innovation.

The 48 credit points of electives can be a combination of a second IT major, or two sub-majors, or one sub-major and four electives, or eight electives to broaden the student's knowledge of information technology and other disciplines.

The creative intelligence and innovation component consists of 96 credit points. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

Industrial training is available as a separate course. Students enrol into the Diploma in Information Technology Professional Practice (C20049) (see page 350) once they have secured suitable full-time employment in the IT industry. This incorporates a minimum of nine months' full-time paid work experience with four supporting subjects at UTS. Full-time students normally undertake industrial training after completing Year 2.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Levels of award

The Bachelor of Science in Information Technology component may be awarded with a distinction, credit or pass.

Honours

Students interested in research and who excel in their studies are eligible to undertake one additional full-time year of study in the Bachelor of Science (Honours) in Information Technology (C09019) (see page 114). The honours year is also available on a part-time basis over two years.

Transfer between UTS courses

Students in the Bachelor of Science in Information Technology (C10148) (see page 197) or Bachelor of Science in Information Technology Diploma of IT Professional Practice (C10152) (see page 199) can apply to transfer into this course after completing the first year of their current course. Students in this combined degree may apply to transfer to the single degree, Bachelor of Science in Information Technology.

Professional recognition

Graduates are eligible for professional-level membership of the Australian Computer Society.

Course EFTSL: 5

Overview

The Bachelor of Sport and Exercise Science meets the demand for professionals able to provide physical activity services to all sectors of the community.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The course provides students with a strong understanding of the processes and mechanisms underlying sport and exercise science, and the knowledge and skills necessary to manage and plan sport and exercise activities in health, rehabilitation, leisure, event and education contexts.

Students who complete this course with the Health and Physical Education major (HPE) are eligible for direct entry into the Bachelor of Teaching in Secondary Education (C08002) (see page 521) offered by UTS: Education. This course is formally accredited with the NSW Institute of Teachers and provides HPE students with the opportunity to complete two degrees.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include sport and exercise science; corporate health and wellbeing; strength and conditioning; personal training; physiotherapy (pathway); exercise rehabilitation; sports coaching; teaching; health and physical education (HPE); outdoor education; and facility management.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Sport and Exercise Science (C10300) (see page 295).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a four-year, full-time basis.

Course structure

Students must complete at least 144 credit points over 24 subjects in the sport and exercise component of the course. Students choose four electives, appropriate to their chosen career, to complement the core subjects in the degree. Students studying to be a physical education teacher must take the performance studies subjects as electives. The creative intelligence and innovation component consists of 96 credit points. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

The course has an extensive internship program.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Note(s)

This course is not offered to international students.

Overview

A midwife is a health professional who has completed a program of study and may apply to register as a midwife with the Nursing and Midwifery Board of Australia. The Bachelor of Midwifery incorporates midwifery theory, science and clinical practice in a range of health facilities. Graduates of the course are competent midwives who have the skills, knowledge and confidence to practise midwifery according to the international definition of the role and scope of practice of the midwife.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This course was the first Bachelor of Midwifery to be introduced in New South Wales. The course aims to produce informed, reflective, caring and compassionate midwives who demonstrate competencies related to professional responsibility, interpersonal processes and the exercise of clinical judgment. Graduates are capable of providing woman-centred care in both hospitals and community settings. They practise reflective, evidence-based midwifery encompassing primary health care principles as well as emotional and social aspects of birth. They promote culturally sensitive care for women from indigenous and culturally and linguistically diverse communities. The course prepares students to identify and analyse the knowledge, skills and attitudes that continue to develop them as midwives and lifelong learners. This includes meeting the challenges of contemporary midwifery practice and maternity service provision in Australia and internationally.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and

entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of

Career options

Career options include being a registered midwife in both hospital and community settings, and in both metropolitan and rural areas. Career progression opportunities include midwifery education and management, consultancy roles, e.g. lactation consultant and independent practice.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Midwifery.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a four-year, full-time or seven-year, parttime basis.

Course structure

Students must gain a minimum of 144 credit points to complete the Bachelor of Midwifery and 96 credit points in the Bachelor of Creative Intelligence and Innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional

Full-time students study four subjects a semester incorporating midwifery theory, science and clinical practice

Industrial training/professional practice

This course includes extensive midwifery practice, which is a compulsory component. Students undertake midwifery professional experience in an allocated area health service facility. Clinical placements occur in blocks each semester, and are in addition to time spent in the midwifery clinical practice laboratories that simulate the clinical environment. The placements involve morning, evening and possibly night shifts. Over the duration of the course, students are also required to follow 20 women throughout their pregnancy, birth and the period after birth. This requires students to be on-call to attend the labour and birth. Students in the final year of their program undertake a prolonged period of clinical experience with much of their time spent in a clinical environment. Students also have the opportunity to complete a rural and remote placement.

All midwifery students must adhere to the requirements in the Ministry of Health policy directive, 'PD2011_005 Occupational Assessment, Screening and Vaccination Against Specified Infectious Diseases', prior to commencement of any clinical practice placements. The policy can be viewed at:

www.health.nsw.gov.au/policies/PD/2011/PD2011_005.html

The policy should be read in full as it outlines students' obligation for screening and immunisation against certain infectious diseases prior to commencing their clinical placement. Students are asked to provide evidence of their immunity or vaccination status, and screening for tuberculosis (TB) status may also be required prior to or at the time of commencement of the first clinical placement. Students should be aware that if they do not meet the requirements of the policy they cannot commence the placement and as a result are not able to complete the course.

Students are also required to undertake a National Criminal Record Check and obtain a National Police Certificate. Further information is available at:

 $www.health.nsw.gov.au/jobs/student_clearance/index.asp$

In the full-time program, students commence midwifery professional experience in the clinical setting in first year and this continues into second and third year. In the part-time program, midwifery professional experience in the clinical setting occurs in the second, fourth and fifth years of the course.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

C10330v1 Bachelor of Science Bachelor of Creative Intelligence and Innovation

 $Award(s): Bachelor\ of\ Science\ in\ (name\ of\ Science\ major)\ (BSc) \leftarrow br$ /—Bachelor of Creative Intelligence and Innovation (BCIInn)

UAC code: 609585 (Autumn semester)

CRICOS code: 079759M

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5

Overview

In the science component of this combined degree, students may select any one of 12 different specialised programs leading to the award of a science degree naming the chosen discipline, or students may select a range of science subjects to tailor their study according to their interests.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The flexibility of this course allows students to either specialise in a specific professional area or to develop skills and knowledge in a range of scientific disciplines. All majors aim to produce professional scientists with a thorough grounding in theory and highly adaptable and practical scientific, experimental and computational skills relevant to the discipline chosen.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Graduates are highly versatile as they can work in almost any industry such as biotechnology, biomedical science, medical science, environmental management and forensics, mathematics, statistical modelling, applied chemistry, applied physics, nanotechnology and material science. Graduates could be employed to analyse traffic flow, calculate the optimum distribution of branches for major banks, set rates of insurance premiums, analyse the consumer demand for products, be part of a medical team working on groundbreaking research, determine the effectiveness of new drugs, evaluate the environmental impact of pollution or provide advice on the stock

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

2-unit Mathematics; any two units of English.

At least two units of science relevant to the individual discipline chosen is recommended; HSC Mathematics Extension 1 is recommended for those majoring in mathematics/statistics.

Course duration and attendance

Students can complete the course in four years of full-time study. Full-time attendance involves approximately 24 hours each week on campus. Students may also be able to complete the course part time, usually at the rate of two subjects a semester (a 50 per cent load), taking eight years to complete. Part-time students are required to attend some sessions in daytime hours.

Course structure

The creative intelligence and innovation component consists of 96 credit points. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Design and Analysis of Experiments Advanced Calculus

This course explores the history, contemporary issues, theories and challenges of media and culture in society. Students develop sophisticated production skills in video, sound and new media, and enhance their creative innovation in these areas. Students are

in today's world.

encouraged to evolve as a creative director and producer of media projects, as well as develop technical proficiency specifically in one media area. By the time of graduation, students should have a professional portfolio of creative production work.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of

Career options

Career options include arts and cultural administrators, cinematographers, directors, documentary makers, editors, film producers, freelance media artists multimedia designers, new media producers, producers, production managers, program commissioning editors, radio producers, scriptwriters and sound designers.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Arts in Communication (Media Arts and Production).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a four-year, full-time basis.

Course structure

Students must complete 240 credit points, comprising 144 credit points in the communication component and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

As part of the Bachelor of Arts in Communication (Media Arts and Production), students undertake production projects each semester. They can elect to participate in professional placement and are encouraged to develop their portfolio and publicly display their works throughout their study through events such as the biennial UTS Golden Eye Awards and other festivals and competitions.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Overview

The critical and theoretical approach offered in this course develops ethical and responsible communication professionals. This course provides students with interdisciplinary knowledge of public communication processes and industries, and their social, economic and political contexts with specialised expertise in public relations and/or advertising.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This course has a focus on professional communication careers including public relations and advertising. Students explore the communication contexts for these practices - cultural, social and political. Students develop their professional skills in campaign design and production, copywriting, media liaison and writing, research and evaluation, sponsorship and event management. Assignments provide material for a portfolio after graduation.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include advertising account executives, advertising copywriters, communication strategists, community relations managers, marketing communication specialists, media liaison officers, media researchers, political media advisers, public relations consultants, publicity officers and special events coordinators.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Arts in Communication (Public Communication).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C10334v1 Bachelor of Arts in Communication (Social Inquiry) Bachelor of Creative Intelligence and Innovation

Award(s): Bachelor of Arts in Communication (Social Inquiry) (BA) Bachelor of Creative Intelligence and Innovation (BCIInn)

UAC code: 609520 (Autumn semester)

CRICOS code: 079762E

Commonwealth-supported place?: Yes

Load credit points: 240 Course EFTSL: 5

Overview

Social inquiry is where social and political theory and practices of research and communication converge. This cross-disciplinary course investigates society, explores current issues, and questions implications of change and progress in the global community. Students undertake professional studies as well as social, cultural and communication theory and practice so they can ask questions, research issues, develop advocacy skills and effectively develop communication strategies.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This is a cross-disciplinary course in which students combine social, political, historical and philosophical perspectives on what makes us members of society. Is change good, bad or both? Students learn how to understand social issues and how to think through ways of making a difference; how to research, communicate and plan contributions to national and international debates. The course equips students with the knowledge and skills to be involved in diverse organisations that want to make changes.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include community development workers, community project managers, international aid workers, local and community historians, media researchers, policy analysts, policy officers, political advisers, politicians, social researchers, trade union officials, social welfare officers, and change agents in a range of social, cultural, historical and political arenas.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Arts in Communication (Social Inquiry).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a four-year, full-time basis.

Course structure

Students must complete 240 credit points, comprising 144 credit points in the communication component and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

As part of the Bachelor of Arts in Communication (Social Inquiry), students can elect to undertake a professional experience project with a community, corporate, non-government or government organisation. There are opportunities for parliamentary placement.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Course EFTSL: 5

Overview

Journalism education at UTS is based on the principle that professional journalism is founded on the public's right to know. This degree develops professional skills across all media and critically engages with the intellectual, ethical and political foundations of journalism.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

The course is designed to meet the essential practical skills and theoretical knowledge needed for a career in journalism. Students gain a crucial understanding of the role that journalists play in creating a democratic public sphere, providing a forum for debate and giving voice to diverse communities. The course equips students with advanced research, writing, reporting and analytical skills for print, television, video, radio, audio and online media; and knowledge of the intellectual, ethical and political foundations of journalism.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include reporters, producers, publishers, editors, subeditors, feature and freelance journalists, investigative journalists, media researchers, and strategists in the print, broadcast and online media.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission to the combined degree is on merit according to the admissions policy for the Bachelor of Arts in Communication (Journalism).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a four-year, full-time basis.

Course structure

Students must complete 240 credit points, comprising 144 credit points in the communication component and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

As part of the Bachelor of Arts in Communication (Journalism), students take part in relevant and applied journalism tasks throughout the course and can elect to undertake a professional placement with a media organisation.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Course EFTSL: 5

Overview

This course has been specifically designed to respond to the new demands created by the increasing convergence of information, media and communication, design, and the creative arts. The course uses a 'learning through making' approach which is creative, collaborative and critical. The broad range of skills and knowledge needed for creative information practice is reflected in the portfolio students develop throughout the course.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

Students create a portfolio of products including blogs, podcasts, websites, databases as well as audience and user analyses. The degree also provides students with an opportunity to develop a secondary specialisation to complement core studies and to undertake a professional placement.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of

Overview

Creative writing at UTS is a practice- and disciplinary-based program focusing on narrative, poetics, reading and literary theory. This degree develops creative writing across several genres, fosters independent and professional writing skills via workshop and lecture study, and engages critically with the broader cultural context in which creative writing is produced and read.

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

Students gain practical experience and theoretical engagement in the discipline of contemporary creative writing. They apply their skills across a number of key genres and narrative forms. An emphasis on critical skills leading towards the development of independent writing projects prepares students for professional practice.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Career options

Career options include: editors, publishers, scriptwriters, literary agents, communication coordinators, arts and cultural administrators, copywriters, novelists, feature writers, publications officers, freelance writers, book marketing coordinators.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Overview

This course is for enterprising individuals who wish to develop the ability to turn ideas into action. It gives students the skills, perspectives and strategies to bring ideas to reality. Within this course, creativity is viewed as the driver of innovation, realised through the processes of design. Students are able to generate and test ideas within diverse disciplinary contexts and gauge the value of those ideas through hands-on experimental practice, rigorous processes of interpretation

Taking a trans-disciplinary approach, the Bachelor of Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

Students gain an in-depth understanding of legal challenges and concerns. This combined degree equips graduates to provide innovative and thoughtful solutions to complex challenges needed to bring a great idea to fruition.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of

Career options

Career options include entrepreneur, speculative start-up consultant, entrepreneurial lawyer, commercial lawyer, corporate lawyer, barrister, creative enterprise manager, solicitor, product development and lifecycle manager, market researcher, strategic analyst, brand development manager.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

12cp

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Assumed knowledge

Proficiency in English and computer literacy.

Course duration and attendance

The course duration is four years of full-time study. The law component requires attendance of 10-15 hours of lectures a week and timetable constraints may require attendance at both daytime and evening classes

Course structure

The course comprises a total of 240 credit points. The study components for course completion are as follows.

The law component of 144 credit points is made up of:

- 108 credit points of compulsory core law subjects
- 30 credit points of law options, and
- 6 credit points of legal theory options.

The creative intelligence and innovation component consists of 96 credit points. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

To practise as a lawyer in NSW, students need to successfully complete an accredited legal academic qualification (e.g. Bachelor of Laws) and an accredited course of practical legal training (PLT), which UTS offers through its PLT program.

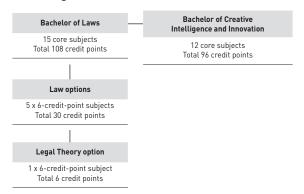

Students enrolled in this course may complete their practical legal training by undertaking a postgraduate course in PLT, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Professional recognition

Envisioning Futures

This course satisfies the requirements for admission to the Supreme Court of NSW as a lawyer, provided students undertake the optional Practical Legal Training (PLT) program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519) at the completion of the course.

Award(s): Bachelor of Engineering (in name of Engineering major) (BE) Bachelor of Creative Intelligence and Innovation (BCIInn)

UAC code: 609560 (Autumn semester)

CRICOS code: 079766A

Commonwealth-supported place?: Yes

Load credit points: 264 Course EFTSL: 5.5

Overview

This course is a comprehensive preparation for careers in the professional practice of engineering. Students learn to deal with complex systems and manage large-scale projects using the most appropriate emerging technologies.

Taking a trans-disciplinary approach, Creative Intelligence and Innovation utilises multiple perspectives from diverse fields, integrating a range of industry experiences, real-world projects and self-initiated proposals, equipping graduates to address the wicked problems, complex challenges and untapped opportunities in today's world.

This course adopts a practice-based approach to engineering education and the course content is a mix of theory and practice. As well as gaining strong technical skills in engineering, students gain skills in business analysis, problem solving, teamwork and communication. Employers look for graduates with industry experience and, in this course, students are exposed to real engineering problems in their coursework as well as completing 12 weeks' work experience. Interaction between work experience and academic curriculum is very strong.

By focusing on the high-level conceptual thinking and problemsolving practices that lead to the development of innovative, creative and entrepreneurial outcomes, students of the combined degree also gain leading edge capabilities that are highly valued in the globalised world, including dealing with critical and creative thinking, invention, complexity, innovation, future scenario building and entrepreneurship, and the ability to work on their own, across and between other disciplines. These creative intelligence competencies enable graduates to navigate across a rapidly accelerating world of change.

Course aims

The course aims to equip graduates with the skills and attributes needed for professional practice and leadership. It is based on the themes of academic development, personal development and professional formation. It provides sound foundations in engineering theory, technical expertise and knowledge of professional practice, while also developing academic literacy, advocacy skills and social awareness so that graduates become lifelong learners and effective citizens in many different capacities. The concept has been strongly endorsed in wide-ranging industry consultations.

Career options

Career options depend on the major chosen.

By being creative thinkers, initiators of new ideas, scenario planners, global strategists, open network designers or sustainable futures innovators within their chosen field of study, graduates maximise the potential of their chosen profession, making them highly sought after graduates with the ability to identify and develop solutions to some of the most complex issues that face their disciplines and society.

Admission requirements

Applicants must have completed an Australian Year 12 qualification, Australian Qualifications Framework Diploma, or equivalent Australian or overseas qualification at the required level.

Admission requirements are the same as the Bachelor of Engineering Bachelor of Arts in International Studies (C10063) (see page 150).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Mathematics Extension 1; Physics; and English Standard.

English Advanced is recommended.

External articulation

Students who gain entry through the UTS INSEARCH pathway are eligible for $48\ \rm credit$ points of credit recognition.

Credit recognition

Engineering component: Students who have previously undertaken study at a university or other recognised tertiary education institution may be eligible for some academic credit for their prior study if the subjects previously completed are deemed by the Faculty of Engineering and Information Technology to be equivalent to subjects in the course.

The prior study must have been completed before commencement of this course, but no earlier than 10 years before commencement. Students must be able to demonstrate that their knowledge is current.

Credit recognition is not normally granted in this course for study completed at a private college except where UTS has an external articulation agreement with the college. Completed TAFE diplomas and advanced diplomas may be granted some credit recognition.

Course duration and attendance

The course is offered on a five-year, full-time basis.

Course structure

Students must complete 264 credit points, comprising 48 credit points of engineering core subjects, 120 credit points of engineering major and 96 credit points in creative intelligence and innovation. The creative intelligence and innovation subjects are undertaken in accelerated form within July and Summer sessions during the first three years of study, and through one full year of study after completion of the professional degree. The Bachelor of Creative Intelligence and Innovation is not offered as a separate degree, but is completed only in combination with the professional degree program.

Industrial training/professional practice

This course is not available with the Diploma in Engineering Practice.

Students graduating with a Bachelor of Engineering without the Diploma in Engineering Practice are required to obtain the equivalent of at least 12 weeks' exposure to professional engineering practice, preferably outside the university environment. For further details, refer to 48100 Professional Practice.

Within the final year of the Bachelor of Creative Intelligence and Innovation, students can undertake between 6 and 12 credit points of internship (work experience) that relates to innovation within their research, career development, or core degree specialisations. For students undertaking 12 credit points of internship, international internships may be negotiated.

Levels of award

The Bachelor of Engineering may be awarded with first or second class honours for meritorious performance in the course as a whole.

Transfer between UTS courses

Students in the Bachelor of Engineering Diploma in Engineering Practice (C10061) (see page 142), Bachelor of Engineering (C10067) (see page 155), or Bachelor of Engineering Science (C10066) (see page 152) can apply to transfer into this course after completing the first year of their current course.

Local students in this course may apply to transfer to the single degree, the Bachelor of Engineering Diploma in Engineering Practice (C10061) (see page 142).

Professional recognition

The Bachelor of Engineering is accredited by Engineers Australia (under the Washington Accord the degree is internationally recognised by countries including the UK, USA, Hong Kong China, Malaysia, Korea, Japan, Ireland, New Zealand, Canada, Chinese Taipei, Russia, Singapore, South Africa and Turkey).

C20049v1 Diploma in Information Technology Professional Practice

Award(s): Diploma in Information Technology Professional Practice (DipInfTechProfPrac)

CRICOS code: 062709E

Commonwealth-supported place?: Yes

Load credit points: 12 Course EFTSL: 0.25 Location: City campus

Overview

The Diploma in Information Technology Professional Practice is not a separate course in its own right but is taken in conjunction with UTS: Information Technology's undergraduate bachelor programs.

Students must obtain suitable employment and work for a minimum of nine months full time and must undertake the academic subjects related to their industrial training. International students can work full-time for the duration of the diploma.

The diploma is extremely beneficial for students relating their final year of coursework to the practical needs of the IT industry. This experience is invaluable when applying for graduate career positions.

Course aims

The course aims to develop students' technical and generic work skills in a workplace environment. It also enables students to develop lifelong learning skills and gain a better understanding of the relationship between theory and practice.

Career options

For career options, refer to the main degree undertaken. The diploma increases students' employability by providing at least nine months' work experience before graduation. Many students continue working with their industrial training employer and finish their studies part time.

This course is normally available to students who are currently enrolled in the Bachelor of Science in Information Technology (C10148) (see page 197), Bachelor of Science in Information Technology Bachelor of Arts in International Studies (C10239) (see page 245), Bachelor of Business Bachelor of Science in Information Technology (C10219) (see page 231), Bachelor of Science in Information Technology Bachelor of Laws (C10245) (see page 262), Bachelor of Mathematics and Computing (C10158) (see page 205), Bachelor of Science in Games Development (C10229) (see page 242), Graduate Diploma

of Interactive Multimedia (C07078) (see page 466) and Master of Interactive Multimedia (C04158) (see page 385).

Students must have progressed to a particular stage of their program of study and completed certain subject requirements before being admitted concurrently to the Diploma in Information Technology Professional Practice. Students who have completed all subjects in their course may still enrol in the diploma, but cannot graduate from their course until they finish the diploma.

Non-UTS students who hold an ACS Foundation work integrated learning scholarship may also apply for the Diploma in Information Technology Professional Practice.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

- Application closing dates are: 25 February 2013 (for Autumn semester 2013)
- 29 July 2013 (for Spring semester 2013).

Local students

Students must complete the Diploma in Information Technology Professional Practice direct application form available at:

www.uts.edu.au/future-students/find-a-course/courses/c20049

International students

Students must complete the international student undergraduate application form available from UTS International at:

www.uts.edu.au/international/prospective/studying/apply

Course duration and attendance

Students are required to obtain approved, full-time employment within the IT industry for a minimum of nine months and complete two semesters of academic study.

Students are required to notify the faculty of any changes to their circumstances that affect their industrial training, including notification of the start and finish dates of their industrial training.

Course structure

In addition to undertaking industrial training, students are required to complete 12 credit points comprising the two industrial training subjects below.

Course completion requirements

31136	Preparation for and Review of IT Experience	6ср
31137	IT Experience 1	0ср

POSTGRADUATE COURSEWORK COURSES

C04006v6 Master of Project Management

Award(s): Master of Project Management (MPM) UAC code: 940103 (Autumn semester, Spring semester)

CRICOS code: 001099J

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

With close industry contact, the course is delivered through block workshops designed to emulate project environments, giving students the opportunity to directly develop their ability to manage real projects. The program is rigorous, and is globally recognised for its tradition of excellence. The UTS program was the first Australian program to be accredited by the Project Management Institute's (PMI) Global Accreditation Centre. The foundation subjects are compatible with the structures used by the PMI and Australian Institute of Project Management (AIPM) to certify practitioners.

This program provides practice-based knowledge, skills and tools for the delivery of different types and sizes of projects and programs across all industry sectors, underpinned by theory and research. At the forefront of industry trends, the UTS program incorporates project complexity, program management, governance, reflective practice and leadership.

Drawing on areas of excellence from across UTS, students may choose a sub-major in business, IT, engineering or construction (from 2013), or undertake a pure project management postgraduate degree.

Course aims

Successful graduates of the course can:

- select and critically apply relevant theory to practice
- develop and apply appropriate project management methodologies to suit different project and organisational contexts
- demonstrate application of reflective practice
- communicate in a variety of forms across culturally diverse project and organisational contexts
- demonstrate the capacity to take a leadership role in project, program and portfolio management
- demonstrate advanced-level skills in managing relationships between key stakeholders in a variety of contexts both in Australia and internationally
- exhibit an understanding of the application of ethical practice to project governance in a variety of settings both in Australia and internationally
- select and apply creative problem-solving skills to all phases of the project life cycle
- apply critical thinking, analytical and research skills to a range of project and program management contexts
- understand, select from and apply a range of systems thinking approaches to a variety of project and organisational contexts.

Career options

The course is highly regarded by industry as providing in-demand, 'professionally excellent' graduates. Its focus on leadership, program management and governance increases the employability of graduates at senior levels in many local and international industries, including banking and finance, construction and engineering, event management, government, health and IT.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants also require six months industry experience if they have not completed the Graduate Certificate in Project Management (C11005) (see page 475).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Exemptions of up to 24 credit points may be given for equivalent prior learning. Applicants with a four-year degree in a related field of study may be given up to 24 credit points of exemptions.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis. Because the intensive workshops are widely spaced throughout the year, many students choose to accelerate the part-time master's program and complete it within two years.

Course structure

Students choose 72 credit points from a list of compulsory and elective subjects.

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Project Management (C11005) (see page 475), the Graduate Diploma in Project Management (C07004) (see page 455) and the Master of Project Management. Each stage is self-contained and can be undertaken through part-time or full-time study.

The graduate diploma is offered as an exit point for students who do not wish to go on to complete the master's degree but who otherwise finish with 48 credit points. Direct entry to the graduate diploma is not available.

Articulation from the graduate certificate to the Master of Project Management is allowed with the approval of the course director.

Professional recognition

This program is accredited by the Project Management Institute's (PMI) Global Accreditation Centre and the Royal Institute of Chartered Surveyors (RICS). It is endorsed by the Australian Institute of Project Management (AIPM), which is a member of the International Project Management Association (IPMA).

Overview

This course provides students with a thorough understanding of the economic, sociological, environmental and other theoretical and practical knowledge underpinning the governance in urban management and urban development. It has a strong focus on sustainable urban development.

With an engaged and practical approach, this course focuses on urban planning and development processes, sustainability and creative development control, and enhances knowledge and skills in urban management, property development, urban design and environmental policy.

Property development and planning students study a common first year, which develops a mutual understanding of how to balance private and public interests in urban development.

Course aims

Graduates of this course understand the nature and methods of planning and urban management and the interdependency of various urban policy fields, agencies and institutions which enable sound urban outcomes.

They can responsibly participate in planning debates, apply sound and appropriate urban design principles, communicate at a superior level and constructively reflect on planning methods and practice.

Graduates also recognise and develop ethical, just and professional methodological approaches and practices.

Career options

Skills in community planning, development control, infrastructure management, planning and environmental law, and strategic planning open up careers in government departments and agencies, local government, major development companies and private consulting firms.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

An appropriate first degree can include the Graduate Diploma in Planning (C07002) (see page 454), or a bachelor's degree in planning, architecture, geography, economics, property economics, commerce, law, engineering or building. Other bachelor's degrees may also be considered.

Work experience is considered relevant if it includes the holding of a responsible position related to the planning or administration of land or design, financing, regulation, construction or management of buildings or infrastructure.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis.

All lectures, seminars, workshops and site visits are held during four full-time weeks spread through the year. This facilitates interaction and teamwork, and meets the needs of busy professionals and those living outside Sydney.

In the part-time program, students attend 10 week-long sessions in the first two-and-a-half years and the equivalent of two weeks in the last half year.

Full-time students attend six week-long sessions in each year of the two years of the program in conjunction with part-time students. Between attendance weeks they may attend additional classes and seminars.

Course structure

The course requires the completion of 72 credit points.

C04018v5 Master of Business Administration

Award(s): Master of Business Administration (MBA) CRICOS code: 025004A Commonwealth-supported place?: No Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The UTS MBA is distinguished from the competition by its practical, vocational orientation and by the open architecture of the course design. All MBA subjects are approved by an industry board that insists on 'relevance to workplace' as a pre-eminent subject design principle. The MBA provides knowledge and skills that are essential for superior management performance.

The course provides unparalleled program flexibility. Students design their MBA to match their employment aspirations. A wide range of specialist skills is also introduced through a choice of majors and submajors. The teaching staff are drawn from among the finest researchers and university educators around the world, keeping students abreast of current trends and focusing on the global picture.

Course aims

- General management skills develop expertise in strategic thinking, critical analysis, developing and implementing business plans, decision-making under uncertainty, understanding organisational dynamics, motivating others, effective communication, leadership and promoting change in dynamic environments.
- Functional skills develop competency in a number of key disciplines including accounting, finance, marketing and human resources management.
- Specialist skills are introduced in areas such as international marketing, human resource management, management in the public, private and international spheres, tourism, sport, arts management, engineering management and information technology.

Career options

The MBA is the most recognised and most transportable postgraduate degree. Students in the MBA know that to realise their full career potential, additional managerial skills and credentials are essential. Personal investment in a demanding MBA program that is recognised for both intellectual rigour and practical application of knowledge will accelerate students' career progression or introduce new career pathways.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants also require:

- a minimum grade point average (GPA) of 2.75 out of 4 with less than 10 per cent fail grades, or
- a Graduate Management Admission Test (GMAT) overall minimum score of 550, or
- a minimum of at least four years' relevant work experience.

Applicants with a relevant graduate certificate must have completed it with at least a credit average. Applicants applying with a GMAT, should achieve an overall minimum score of 550 with verbal 25, quantitative 35 and AWA 4.0.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of 10 subject exemptions in the MBA, of which four core subjects may be approved from prior undergraduate study.

Further information is available at: www.gsb.uts.edu.au/student/rpl

Course duration and attendance

The MBA is normally completed in two years of full-time or four years of part-time study. Completion time may be accelerated by undertaking subjects in intensive mode during Summer session. Classes for core subjects are held during the day as well as in the

Course structure

The course comprises 96 credit points, made up of eight compulsory core subjects (totalling 48 credit points) and eight elective subjects (totalling 48 credit points).

Electives can be taken in one of three ways: as one major (48 credit points), as two sub-majors (24 credit points each), or as one sub-major (24 credit points) plus 24 credit points of mixed electives.

Articulation with UTS courses

While the MBA is offered as a stand-alone qualification, it is also part of an articulated program of study comprising the Graduate Certificate in Business Administration (C11008) (see page 476), the Graduate Diploma in Business Administration (C06009) (see page 439), and the Master of Business Administration (MBA). This enables students who satisfactorily complete the Graduate Certificate in Business Administration or the Graduate Diploma in Business Administration to apply for entry to the MBA.

Where a student articulates from one level of study to another, only one testamur is issued.

Professional recognition

CPA Australia; Institute of Chartered Accountants in Australia (ICAA); Australian Human Resources Institute; Institute of Public Accountants (IPA)

The MBA with Professional Accounting major meets the formal academic requirements for associate membership of CPA Australia and the ICAA. In order to meet the educational requirements for membership of CPA Australia and the ICAA, students undertaking the Professional Accounting major must also complete an introductory law subject. Students who have not previously completed an undergraduate law subject by examination must study 79708 Contemporary Business Law in place of 21844 Managing Work and People.

Students completing this degree with a major in human resource management are eligible to apply to the Australian Human Resources Institute (AHRI) for the professional member (MAHRI) status.

Students completing this degree with a major in finance are eligible to apply for associate membership at the Financial Services Institute of Australasia (FINSIA) and are also eligible to apply for Certified Finance and Treasury Professional at the Finance and Treasury Association (FTA).

C04031v6 Executive Master of Business Administration

Award(s): Executive Master of Business Administration (MBA)

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Note(s)

This course is under review. The next intake is for a revised program in Spring semester 2014.

This course is not offered to international students.

Overview

The Executive MBA is designed as a general management qualification for ambitious individuals with considerable work experience who are looking to further develop their business and strategic leadership skills. The overarching goal of the course is to produce graduates who can operate a business function, unit or organisation by building students' capabilities in technical, professional and interpersonal skills

The Executive MBA curriculum is strongly experientially oriented and provides students with decision-making experiences that emulate the real world of business. The requirements of professional bodies; recent research and scholarship data on successful graduates; information from employers and advisory committees; and industry groups have informed the attributes and learning goals. The course is structured in such a way that students can choose to progress through the degree in a group. The cohort model is designed to foster a sense of union, facilitate networking and encourage cooperative relationships with a focus on leadership and group dynamics.

Course aims

The aim of the Executive MBA degree is to develop students' business acumen through an enhanced capacity for integrity, judgment and intuition. Executive MBA students develop advanced competency in a number of key disciplines including accounting, economics, finance, marketing and strategic management. The learning goals of the degree are designed to meet the needs of today's rapidly changing enterprises including areas such as electronic business, finance, banking, corporate accounting, marketing, operations management, employment relations, management in the public, private and international spheres, information technology, engineering, and event, tourism, sport, arts and leisure management. The focus is on developing specific skills including the ability to integrate accounting, finance, marketing and management skills for progressive solutions and sound management decisions; capacity for analysing and synthesizing complex information and knowledge for tactical and strategic business decisions; effective leadership and teamwork skills; and designing innovative business models and strategies that adhere to the principles of responsible corporate governance and social responsibility.

Career options

Career options include senior general management roles in business or business unit manager, business planning, business strategist, and general management consultant.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants also require five years' relevant work experience or a UTS Graduate Certificate in Executive Business Administration (C11208) (see page 509), with a credit average. Applicants may be required to attend an interview as part of the admission process.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students in the Executive MBA are not granted exemptions for any prior studies.

Course duration and attendance

The course is expected to be completed in two years of part-time study. Teaching is conducted in sequential eight-week blocks. The first and last (capstone) subjects are taught in residence.

Course structure

The course comprises 96 credit points, made up of nine core subjects and three elective subjects (all subjects are 8 credit points each). Students in this course are taught separately from other graduate students. Two core subjects are studied in 'residence mode', and the elective subjects include a study tour of leading European or North American business schools and industry visits (restricted numbers and conditions apply).

C04037v5 Master of Business in Accounting Information Systems

Award(s): Master of Business in Accounting Information Systems (MBus) CRICOS code: 009461J

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Business in Accounting Information Systems is the 'flagship' course in business/enterprise systems and business intelligence related education at UTS. The course equips students with a broad range of skills ranging from essentials in financial accounting, finance and management accounting, to best practises in enterprise information management, project management and business intelligence, with an integrative, cross-functional, business process integration capstone subject rounding off the course. The

course addresses many conceptual issues, but it presents them in a very practical, hands-on setting to maximise the work-readiness of graduates. It presents accounting as an information management function supporting all other business functions.

The course develops competencies in accounting software packages, ranging from small business accounting packages (e.g. MYOB) to large integrated enterprise resource planning systems (e.g. SAP ERP). The course acknowledges the fact that ERP systems and BI solutions have significantly changed the way accounting is done in organisations and is designed to provide the necessary skills to graduates that are greatly needed in all forms of enterprises, including commercial, government and not-for profit industries.

Career options

Career options include senior positions in accounting and information management in all forms of enterprises, including commercial, government and not-for profit industries. Typical job profiles include systems accountant, management accountant, financial controller, IS auditor, forensic accountant, business analyst, financial or IS project manager, trainer/educator in (accounting) systems, business intelligence manager, data and reporting specialist/manager and enterprise risk manager/consultant.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions based on credit recognition, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in one-and-a-half years of full-time or three years of part-time study.

Course structure

The course totals 72 credit points of study, made up of 12 compulsory core subjects.

Course completion requirements

STM90709 Core subjects (Accounting Information Systems) 72cp Total 72cp

Course program

A typical full-time program is provided below, showing a suggested study sequence for students undertaking the course full time for Autumn semester commencement. Most of the subjects are offered in both Autumn and Spring semesters.

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Accounting Information Systems (C11017) (see page 477) and the Master of Business in Accounting Information Systems.

Professional recognition

The Master of Business in Accounting Information Systems is not recognised by CPA Australia as meeting the membership entry requirements for applicants who do not have a recognised undergraduate degree. Such applicants should enrol in the MBA (Professional Accounting major) (C04018) (see page 355). However, applicants with a recognised undergraduate degree can include CPA Australia accredited postgraduate subjects in their Master of Business in Accounting Information Systems program in order to meet the accounting studies requirements for CPA Australia membership. It is recommended that applicants obtain an assessment from CPA Australia of the subjects they are required to complete before enrolling in their program and then discuss this assessment with the course coordinator.

Assessment forms are available from the CPA Australia website, under Membership, at:

www.cpaaustralia.com.au

or contact:

NSW Office of CPA Australia telephone +61 2 9375 6200

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Finance (C11027) (see page 479), the Graduate Diploma in Finance (C07021) (see page 458) and the Master of Business in Finance.

Professional recognition

The Master of Business in Finance covers a broad range of the specialist knowledge areas required to be ASIC RG146 registered. Completion of the Master of Business in Finance meets the education requirements of membership at the level of Certified Finance and Treasury Professional (CFTP). It also meets the educational requirements at the level of Senior Associate (SA Fin), in conjunction with work experience, at the Financial Services Institute of Australasia (FINSIA). The Master of Business in Finance has also been awarded postgraduate partnership status by CFA Institute (USA). The degree's curriculum is closely tied to global professional practice and is well suited to students preparing to sit for CFA® (Chartered Financial Analyst®) program examinations.

C04052v4 Master of Quantitative Finance

Award(s): Master of Quantitative Finance (MQF)

CRICOS code: 079972F

 ${\tt Commonwealth-supported\ place?:\ No}$

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Quantitative Finance provides the full gamut of specialised quantitative finance skills and development of professional competency required to be a quantitative finance specialist performing at the cutting edge of the discipline.

Participants have the opportunity to see the application of quantitative finance to advanced financial instruments, an integrated approach to risk management and how to implement quantitative finance strategies.

Course aims

The Quantitative Finance program provides the opportunity to acquire the detailed specialised knowledge and the professional competency required to work as a quantitative finance analyst in the modern finance industry.

Career options

Career options for graduates include positions as quantitative analysts, risk management analysts, quantitative structures, quantitative developers, forecasters, traders, investment analysts and financial engineers across investment banks, trading banks, hedge funds, investment management companies, consulting companies, energy and mining companies, regulatory bodies and government organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in finance or have a strong mathematical background. Entry to the course is at the discretion of the course director.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four core subjects may be approved from prior undergraduate study.

C04085v2 Master of Engineering Management

Award(s): Master of Engineering Management (MEM) Commonwealth-supported place?: No Load credit points: 48 Course EFTSL: 1

Notels

Location: Hong Kong

This course is only offered offshore. It is available in Hong Kong. The language of tuition is Modern Standard Chinese.

It is the Chinese language version of the Master of Engineering Management (C04094) (see page 366). It is offered through the Hong Kong Management Association.

Overview

The Master of Engineering Management (MEM) is the ideal course for engineers, technical specialists and others wishing to expand their managerial skills within a technology-based organisation. The MEM has been specifically designed to emphasise the interface between technology and management.

The MEM program provides an opportunity for engineers who are seeking a career in engineering management to undertake a formal course of relevant study at master's level. It may also be of benefit to current engineering managers to undertake formal study and gain recognition of their knowledge and experience.

Career options

Engineering and applied science jobs are becoming increasingly multidisciplinary. Knowledge and skills in technical management gained from completing the MEM can assist in obtaining a high-quality engineering or engineering management position.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course duration is two years of part-time study if two subjects are taken per teaching period. This time can be reduced if additional subjects are studied in the January to March semester. The program is structured for weekend and distance mode attendance.

Course structure

The course requires 48 credit points of study. A minimum of 36 credit points (the six subjects listed below) must be completed from the list of MEM core subjects. The remaining 12 credit points are completed from two postgraduate subjects offered at Wuhan University in China.

Course completion requirements

CRICOS code: 017900B

Commonwealth-supported place?: No

Load credit points: 60 Course EFTSL: 1.25

Location: City campus

Overview

This course provides an opportunity at master's level for professionally qualified engineers to extend in depth and breadth the knowledge and skills gained from their undergraduate studies. Each program must be designed to enhance technological knowledge pertaining to one or more fields of engineering. The completion of subjects and project work at advanced level is central to this requirement.

Students may choose a program of study that deepens the body of knowledge acquired in their first degree as well as expands knowledge boundaries into policy and engineering management areas. The

program of study is usually framed within a postgraduate program major and supervised by an experienced academic in that field. Students also have the option of not electing a major.

Career options

Students who have a basic engineering undergraduate degree are able to enhance their ability and knowledge through master's-level courses in their respective majors, enabling them to gain and hold employment in their respective engineering fields.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If applicants are not graduates from the UTS Bachelor of Engineering Diploma in Engineering Practice, they must have an engineering degree from a recognised tertiary institution as well as two years' relevant work experience.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University's policy on credit recognition:

www.gsu.uts.edu.au/policies/credit-recognition.html

Students may be eligible for credit recognition based on previous postgraduate award study. Subjects undertaken as part of an undergraduate degree, irrespective of their level of study, are not normally considered for credit recognition.

Students who have completed postgraduate subjects as part of a postgraduate degree may be eligible for credit recognition of up to 12 credit points (two subjects) towards an engineering master's degree.

Students who have previously completed subjects at UTS that are part of the postgraduate degree to which they are admitted, may be eligible for credit recognition of up to 18 credit points (three subjects) towards an engineering masters' degree.

Students who have previously completed subjects as part of a UTS Engineering graduate certificate may be eligible for credit recognition of up to 24 credit points (four subjects) towards equivalent subjects in an engineering master's degree.

Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

The course may be completed in one-and-a-half years on a full-time basis or two to three years on a part-time basis.

Classes are usually held in standard mode (weekly attendance) or in block mode (attend classes only two or three times during the semester). Some subjects may be available in distance mode.

Course structure

Candidates complete coursework subjects and a major individual project, totalling 60 credit points of study. The project component is typically undertaken after completing one semester's worth of coursework.

Some postgraduate program majors may require students to complete a number of prescribed subjects with or without opportunity for electives. Subjects are selected from postgraduate programs offered by the Faculty of Engineering and Information Technology.

The graduate project must be supervised by a principal supervisor who is a member or adjunct member of academic staff of the Faculty of Engineering and Information Technology.

A major is granted if four subjects (24 credit points) are completed within a particular postgraduate program major, together with an approved graduate project (18-30 credit points) in the major.

Course completion requirements

CBK90443 Major choice	24cp
CBK90230 Elective	6cp
Select 30 credit points from the following options: STM90080 Project + two electives STM90081 Project + one elective STM90082 Project	30cp 30cp 30cp 30cp Total 60cp

Course program

The tables below give details of each major: for each major there are three tables. The first lists the compulsory subjects and allowable option choices for the major. The next two tables show the subjects typically offered in Autumn and Spring semesters. Where an elective is specified, the subject is to be chosen from postgraduate subjects offered within the Faculty of Engineering and Information Technology, as listed in the elective option. Some subjects are offered in weekly mode, others in block mode, and others in distance mode or a combination of modes.

Articulation with UTS courses

This course offers opportunities for articulation from a graduate certificate or graduate diploma to a master's-level award.

Transfer between UTS courses

Applications for admission by internal transfer of candidature from a graduate certificate may be considered following completion of subjects totalling at least 18 credit points at a level of performance deemed by the Faculty Board in Engineering and Information Technology to be satisfactory evidence of an ability to undertake master's candidature (typically 60 per cent average).

Other information

Further information is available from:

Building 1 Student Centre

telephone 1300 ask UTS (1300 275 887)

or +61 2 9514 1222

C04094v5 Master of Engineering Management

Award(s): Master of Engineering Management (MEM)

UAC code: 940337 (Autumn semester, Spring semester), 940344 (distance)

(Autumn semester, Spring semester)

CRICOS code: 008685A

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

This course is also offered offshore. It is available in Hong Kong. The language of tuition is English.

Overview

The Master of Engineering Management (MEM) is the ideal course for engineers, technical specialists and others wishing to expand their managerial skills within a technology-based organisation. The MEM has been specifically designed to emphasise the interface between technology and management.

The MEM program provides an opportunity for engineers and others who are seeking a career in engineering management to undertake a formal course of relevant study at a master's level. It may also be of benefit to current engineering managers to undertake formal study and gain recognition of their knowledge and experience.

Career options

Engineering and applied science jobs are becoming increasingly multidisciplinary. Knowledge and skills in technical management gained from completing the MEM can assist in obtaining a high-quality engineering or engineering management position.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University's policy on credit recognition:

www.gsu.uts.edu.au/policies/credit-recognition.html

Students may be eligible for credit recognition based on previous postgraduate award study. Subjects undertaken as part of an undergraduate degree, irrespective of their level of study, are not normally considered for credit recognition.

Students who have completed postgraduate subjects as part of a postgraduate degree may be eligible for credit recognition of up to 12 credit points (two subjects) towards an engineering master's degree.

Students who have previously completed subjects at UTS that are part of the postgraduate degree to which they are admitted, may be eligible for credit recognition of up to 18 credit points (three subjects) towards an engineering masters'degree.

Students who have previously completed subjects as part of a UTS Engineering graduate certificate may be eligible for credit recognition of up to 24 credit points (four subjects) towards equivalent subjects in an engineering master's degree.

Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

The course duration is two years if two subjects are taken per semester. The course can also be completed in one year of full-time study if four subjects per semester are completed. The program is structured for evening attendance or distance mode. Extra intensive classes may be held during Summer session for selected subjects.

Students who want to undertake the course in distance mode may have to follow a restricted course structure as not all subjects are offered in distance mode.

Course structure

The course requires 48 credit points of study. A minimum of 36 credit points (six subjects) must be completed from the list of MEM core subjects. Elective subjects are to be chosen from postgraduate subjects offered within the Faculty of Engineering and Information Technology; some subjects may require prior approval based on access conditions.

Further study at UTS

The Master of Business Administration (C04018) (see page 355) (Technology Management major) may be entered directly after completion of this course. With suitable choice of subjects from the MEM, exemptions may be granted for up to eight subjects in the MBA.

Overview

12cp

The flexible structure of this course allows recently graduated engineers and technical specialists to deepen the knowledge and skills gained in their first degree while expanding their managerial and policy knowledge.

Students may choose a program of study that deepens the body of knowledge acquired in their first degree as well as expands knowledge boundaries into policy and engineering management areas. The program of study is usually framed within a postgraduate program major and supervised by an experienced academic in that field. Students also have the option of not electing a major.

Career options

Students who have a basic engineering undergraduate degree are able to enhance their ability and knowledge through master's-level courses in their respective majors, enabling them to gain and hold employment in their respective engineering fields.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in engineering or another technological/applied science field.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University's policy on credit recognition:

www.gsu.uts.edu.au/policies/credit-recognition.html

Students may be eligible for credit recognition based on previous postgraduate award study. Subjects undertaken as part of an undergraduate degree, irrespective of their level of study, are not normally considered for credit recognition.

Students who have completed postgraduate subjects as part of a postgraduate degree may be eligible for credit recognition of up to 12 credit points (two subjects) towards an engineering master's degree.

Students who have previously completed subjects at UTS that are part of the postgraduate degree to which they are admitted, may be eligible for credit recognition of up to 18 credit points (three subjects) towards an engineering masters' degree.

Students who have previously completed subjects as part of a UTS Engineering graduate certificate may be eligible for credit recognition of up to 24 credit points (four subjects) towards equivalent subjects in an engineering master's degree.

Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

The course requires one year of full-time or two years of part-time study.

Subjects are offered as three-hour weekly sessions in block mode. Some subjects may be available in distance mode. Subjects offered by distance mode require similar hours but at the convenience of the student.

Course structure

Students must complete eight postgraduate subjects (totalling 48 credit points) offered by UTS: Engineering. Students wishing to have a major noted on their academic transcript must complete subjects as specified under that major.

Course completion requirements

CBK90330 Major choice	48cp
·	Total 48cp

Course program

The tables below give details of each major: for each major there are three tables. The first lists the compulsory subjects and allowable option choices for the major. The next two tables show the subjects typically offered in Autumn and Spring semesters. Where an elective is specified, the subject is to be chosen from postgraduate subjects offered within the Faculty of Engineering and Information Technology, as listed in the elective option. Some subjects are offered in weekly mode, others in block mode, and others in distance mode or a combination of modes.

C04098v3 Master of Environmental Engineering Management

Award(s): Master of Environmental Engineering Management (MEEM) UAC code: 940335 (Autumn semester, Spring semester), 940342 (distance) (Autumn semester, Spring semester)

CRICOS code: 027917K

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1

Location: City campus or distance

Overview

This course is designed to enable engineers and other technical specialists to take a leadership role in the field of environmental engineering.

The course combines a set of key subjects that contain information on the nature of environmental problems together with engineering techniques for their solution. This is supplemented by management and policy subjects to empower the engineer, or technical specialist, to lead multidisciplinary teams working in the field of environmental engineering.

Career options

Career options include positions in government agencies or private corporations, or as consultants.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in engineering or another technological/applied science field. Candidates without a degree, but with suitable experience, may enrol in the Graduate Certificate in Environmental Engineering Management (C11051) (see page 486) and later transfer to the Master of Environmental Engineering Management with full credit for completed subjects.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University's policy on credit recognition:

www.gsu.uts.edu.au/policies/credit-recognition.html

Students may be eligible for credit recognition based on previous postgraduate award study. Subjects undertaken as part of an undergraduate degree, irrespective of their level of study, are not normally considered for credit recognition.

Students who have completed postgraduate subjects as part of a postgraduate degree may be eligible for credit recognition of up to 12 credit points (two subjects) towards an engineering master's degree.

Students who have previously completed subjects at UTS that are part of the postgraduate degree to which they are admitted, may be eligible for credit recognition of up to 18 credit points (three subjects) towards an engineering masters' degree.

Students who have previously completed subjects as part of a UTS Engineering graduate certificate may be eligible for credit recognition of up to 24 credit points (four subjects) towards equivalent subjects in an engineering master's degree.

Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

Most students taking two subjects a semester require two years to complete this degree. The course is also available to fee-paying overseas students on a full-time basis, taking one year to complete.

Subjects are offered as three-hour weekly sessions or in block mode. Some subjects may be available in distance mode. Each subject usually requires three hours of class attendance per week. Subjects offered by distance mode require similar hours but at the convenience of the student.

Students who want to undertake the course in distance mode may have to follow a restricted course structure as not all subjects are offered in distance mode.

Course structure

Students are required to complete 48 credit points of study, comprising 36 credit points from the core subjects and 12 credit points from 49001, 49002, 49003 or 49108.

C04102v2 Master of Engineering Management Master of Business Administration

CRICOS code: 030558B

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Note(s)

This course is only offered to international students.

However, other students can complete the same course of study by enrolling in the Master of Engineering Management (C04094) (see page 366) and then the Master of Business Administration (C04018) (see page 355) (Technology Management major (MAJ08938)).

Overview 3 4 1

The Faculty of Engineering and Information Technology together with the Faculty of Business have developed a suite of master's degrees that provide all the advantages of a generalist Master of Business Administration and a focused engineering management program.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Credit recognition

Once students have completed the Master of Engineering Management they need to submit an application for credit recognition, exempting up to eight subjects (48 credit points) towards the Master of Business Administration (Technology Management major). The faculty does not grant credit recognition based on work experience.

Course duration and attendance

The course can be completed in two years of full-time study, comprising one year each for the Master of Engineering Management and the Master of Business Administration (Technology Management major). It is also available part time. Attendance is available in weekly, block and/or distance modes.

Course structure

To complete the Master of Engineering Management, students must complete six compulsory subjects (totalling 36 credit points) and two elective subjects (totalling 12 credit points) chosen from the list $% \left(1\right) =\left(1\right) \left(1\right) \left($ of MEM electives.

To complete the Master of Business Administration (Technology Management major), students must complete six compulsory subjects (totalling 36 credit points) and two elective subjects (totalling 12 credit points) chosen from those available in the Technology Management

C04106v5 Master of Arts in Journalism

Award(s): Master of Arts in Journalism (MA)

UAC code: 940500 (Autumn semester, Spring semester)

CRICOS code: 006820D

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Arts in Journalism is part of an articulated program of study for people who want to start a journalism career and for experienced journalists wanting to broaden their skills and professional technological expertise and refresh the intellectual basis of their practice.

This is the only program of its kind in Sydney, where the Australian media is increasingly concentrating. The journalism staff at UTS has a record of excellence in professional practice reflected in media contacts. In addition, the course has close links with the Australian Centre for Independent Journalism, which provides a professional setting for student work.

Course aims

Graduates of the program:

- have strong research and reporting skills and a knowledge and critical understanding of the media
- are equipped with the necessary skills to either enter professional practice in the media or continue practice with additional skills and intellectual depth
- strive to promote the important role of professional and ethical journalism in the service of the public, and
- have an understanding of the role of the media in local, regional, national and global contexts.

Career options

Career options include reporter or editor in local, corporate, national and international print and broadcast media organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed the Graduate Certificate in Journalism (C11058) (see page 489) or the Graduate Diploma in Journalism (C06037) (see page 441) are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is one-and-a-half years of full-time or two-and-a-half years of part-time study.

Course structure

The course totals 72 credit points of study, made up of 48 credit points of core subjects and 24 credit points of elective subjects.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

Course completion requirements

C04109v7 Master of Arts in Creative Writing

Award(s): Master of Arts in Creative Writing (MA) UAC code: 940512 (Autumn semester, Spring semester)

CRICOS code: 032331E

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Arts in Creative Writing is designed for experienced writers who want to further develop their theoretical knowledge and skills. Students learn valuable skills and work towards developing a major project under the guidance of an academic faculty member with expertise in creative writing.

Students study one genre in depth or explore a range of genres and media.

Course aims

Graduates of this course develop:

- general and specific skills in writing across a range of genres
- an ability to develop and critically revise their own work
- an understanding of the relationships of writing practice and publication across a range of media and contemporary cultural forms
- a critical knowledge of cultural and aesthetic debates, and
- an ability to think creatively and critically about, and contribute to, developments in cultural industries.

Career options

Career options include advertising, computing, creative writing, freelance writing and editing, journalism, media research, publishing or scriptwriting, and editing in community organisations or government departments.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements. To be eligible to articulate into the Master of Arts in Creative Writing (C04109) from the Graduate Certificate in Screenwriting (C11066) (see page 490), or the Graduate Certificate in Editing and Publishing (C11071) (see page 490), or the Graduate Diploma in Creative Writing (C06041) (see page 442), students must complete at least two postgraduate writing subjects with a distinction grade or higher.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

8cp

8cp

All applicants are required to:

- explain what writing experience they have
- · list their publications, if any
- attach one example of their creative writing
- supply written references from people who are familiar with their ability and potential (if the applicant does not have academic or professional qualifications).

Credit recognition

Students who have successfully completed one of the graduate certificates or the graduate diploma in the articulated program and who are admitted to this course are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or equivalent part-time basis.

Course structure

The course comprises 72 credit points, made up of five core subjects and three electives.

Students may select subjects beyond the lists of elective subjects with the approval of the graduate adviser. Not all subjects are available

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

CRICOS code: 040694M

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Note(s)

8ср

This course offers a mid-year intake for local and international students.

Overview

This is a comprehensive course in health services management and aims to expand students' knowledge and future career opportunities. The course develops students' knowledge and skills, which leads to an enhanced capacity to manage health services in a diverse range of health settings.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Students can focus on health services management or complete a major in:

- Planning
- Clinical Leadership, or
- Health Research.

The Planning major provides a blend of subjects to assist graduates in planning and evaluating health services, understanding health needs, and managing change in a dynamic and complex environment.

The Clinical Leadership major provides a blend of subjects to assist graduates in maximising the efficiency, effectiveness, and safety of health services as well as ensuring that governance, quality, and risk mitigation frameworks contribute to excellence in health care delivery.

The Health Research major provides a blend of health services management, research coursework and independent study subjects to assist graduates in undertaking health services research and those who wish to be considered for admission to a doctoral program.

Course aims

This course is designed to prepare new, aspiring and middle health service planners and managers to assume a leadership role in the strategic and operational management of a wide range of health services and facilities. The content aims to develop skills in managing people, resources, systems, and processes within health services to meet the changing needs of communities, clinicians, governments and organisations.

Career options

Career options include positions as managers and/or planners in health authorities, hospitals, primary and community care, aged care services, and other healthcare facilities in the public, private, not-forprofit, government, and non-government health sectors.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

This evidence may include extensive relevant work experience in a health or human services field.

Applicants must have at least one year's full-time equivalent experience in a medium to large organisation, preferably in the health or human services area. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.

Applicants who do not have an undergraduate degree but who have extensive relevant work experience in a health or human services field and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional

Course duration and attendance

The course duration is one-and-a-half years of full-time or three years of part-time study.

Subjects are offered via on-campus study. Part-time students usually study two subjects a semester.

Course structure

Students must complete a total of 72 credit points, choosing one of three majors (in Planning, Clinical Leadership, or Health Research) or a no-major option to complete the course. In all options, with the exception of the Health Research major, students choose two electives from the list of electives provided within each choice block. Students who wish to undertake an elective subject that is not listed should seek advice from UTS: Health.

C04143v6 Master of Laws

Award(s): Master of Laws (LLM)

UAC code: 940401 (Autumn semester, Spring semester)

CRICOS code: 001125A

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The UTS Master of Laws (LLM) caters to the changing demands of the legal profession. Providing the opportunity for law graduates to specialise in particular areas that are relevant to their area of legal practice, the UTS LLM is vocationally relevant and intellectually rewarding.

Close interaction between the legal profession and UTS: Law guarantees a close match between a first-class education and a marketable postgraduate legal qualification. Classes are taught by a mix of practising professionals, full-time academic staff and international visiting academics, and opportunities for cross-institutional study, both inside and outside Australia, are encouraged.

Career options

Specialisation and development of expertise leads to careers in a range of sought-after specialist vocations in the practice of law.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

A relevant, appropriate first degree is the Bachelor of Laws with honours, or the Juris Doctor, or a Bachelor of Laws or LPAB Diploma in Law together with a graduate certificate in the discipline of law, or equivalent or higher qualification. Students with a Bachelor of Laws from a non-common law country may be required to complete 78234 Common Law Legal Traditions. Students who have graduated with a Shari'a law degree are not eligible to apply for this course. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed the Master of Law and Legal Practice, the Master of Dispute Resolution (C04145) (see page 382) or the Master of International Law (C04149) (no longer offered) at UTS, or equivalent postgraduate law studies at a recognised tertiary institution, may, in line with UTS: Law policy, apply for a maximum of one quarter of the credit-point value of the course in exemptions.

Students who have successfully completed the Juris Doctor (C04236) (see page 405) at UTS and have completed 6 credit point Master of Laws equivalent subjects within the Juris Doctor may apply for these subjects to be credited towards the Master of Laws, up to a maximum of 12 credit points.

Solicitors with current specialist accreditation from the Law Society of NSW may apply for 6 unspecified credit points of exemption within this course.

Course duration and attendance

The course can be completed in a minimum of one year of full-time or two years of part-time study. Subjects may also be available in Summer session, allowing accelerated progression.

Course structure

Students in this course undertake eight 6-credit-point postgraduate subjects (totalling 48 credit points).

Students may choose to undertake one or two majors, by completing at least four subjects (24 credit points) within the area of the major. Students may also choose not to major in a particular area and instead choose eight subjects (48 credit points) from across the major areas.

As part of this course, students must complete the subject 78101 Postgraduate Legal Research. This subject can be included in any of the majors or choiceblocks. Students from a non-common law background are also required to enrol in the subject 78234 Common Law Legal Traditions.

Refer to the course entry in the *UTS: Handbook 2013* for the previous course structure. For a current listing of subjects in each course refer to the study package directory.

Course completion requirements

Select 48 credit points from the following options:	48cp
MAJ09390 Corporate and Commercial Law	24cp
MAJ09392 International Law	24cp

Award(s): Master of Dispute Resolution (MDR)

UAC code: 940402 (Autumn semester, Spring semester)

CRICOS code: 027886A

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The UTS Dispute Resolution program, a first in Australia, focuses on the wide range of non-adversarial dispute resolution processes. The subjects available accommodate distinct streams that include commerce, family, community and court-annexed programs.

Dispute resolution at UTS is focused on experiential learning involving a fusion of critical and reflective thinking paradigms with the application of theory in practical, work-based contexts.

The mixture of experience-based learning and formal lectures by professional practitioners give students a hands-on understanding of the full range of dispute resolution processes, from negotiation through the consensual processes to decisional theory.

Career options

Career options include arbitrator, manager, negotiator and professionals in a wide range of areas such as health and education, government and industrial relations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one year of full-time or two years of part-time study.

The core introductory subject is offered in intensive block mode over several days of attendance at the beginning of semester. The other subjects are taught in intensive block mode over several full days of lectures, workshops and seminars.

Course structure

The course requires completion of a core introductory subject (6 credit points) plus a further seven subjects (42 credit points).

Subjects are regularly timetabled but not all subjects listed are offered in any one semester. Timetabled subjects are offered subject to sufficient student interest. The current timetable can be found at: http://timetable.uts.edu.au

C04147v5 Master of Legal Studies

Award(s): Master of Legal Studies (MLS)

UAC code: 940406 (Autumn semester, Spring semester, Summer session)

CRICOS code: 021717M

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

The Master of Legal Studies is not a professional legal qualification. Applicants seeking to be admitted to practice should refer to the Juris Doctor (C04236) (see page 405) or the Bachelor of Laws (C10124) (see page 182). Students may apply for some subjects undertaken within the Master of Legal Studies to be credited towards these degrees.

Overview

The UTS: Law Legal Studies program meets the growing market need for non-law graduates working in the public and private sectors to have a thorough understanding of the legal and regulatory framework in which they operate. This includes an understanding of foundational legal concepts such as contract law and tort law, methods of legal research and theory, as well as the opportunity to develop expertise in specialist legal areas such as compliance and intellectual property law.

The Master of Legal Studies attracts students from a wide variety of backgrounds interested in expanding their skills to include an understanding of the legal framework, including professionals from the insurance, human resources, banking and finance industries, managers and administrators, and HSC legal studies teachers.

Career options

The program particularly benefits accountants and auditors, business development managers, compliance managers, engineers and architects, financial advisers and planners, IT professionals, law enforcement officers, paralegals, policy officers in the public, private and non-profit sectors, property developers, and public sector managers and administrators (especially those who work in Department of Foreign Affairs and Trade, Department of Communications, Information Technology and the Arts, the Attorney-General's Department and Treasury).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

An applicant's bachelor's degree must be in a discipline other than law. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one year of full-time or two years of part-time study. Subjects may also be available in Summer session, allowing accelerated progression.

The course features a variety of attendance patterns, including intensive block attendance and weekly on-campus evening classes.

Course structure

The course requires completion of core subjects (30 credit points), including two compulsory introductory subjects and a choice of two further foundation subjects, plus a further three option subjects (18 credit points). (Refer to the course entry in the *UTS*: *Handbook* 2013 for the pre-2014 course structure. For a current listing of subjects in each course, refer to the study package directory).

Core subjects are timetabled in Autumn and Spring semesters and option subjects are regularly timetabled but not all option subjects listed are offered in any one semester. Timetabled subjects are offered subject to sufficient student interest. The current timetable can be found at:

http://timetable.uts.edu.au

Course completion requirements

STM90689 Core subjects (Legal Studies) 30cp CBK90588 Options 18cp Total 48cp

Articulation with UTS courses

Subjects undertaken within the Graduate Diploma in Legal Studies (C07074) (see page 465) are recognised within the Master of Legal Studies. Students enrolled in the graduate diploma may apply to internally transfer to the master's program. Candidates are not awarded the graduate diploma but subjects undertaken are applied towards the master's.

Subjects undertaken within the Juris Doctor (C04236) (see page 405) are recognised within the Master of Legal Studies. Students enrolled in the Juris Doctor may apply to internally transfer to the master's program. Candidates are not awarded the Juris Doctor but subjects undertaken are applied towards the master's.

C04157v8 Master of Information Technology

Award(s): Master of Information Technology (MInfTech) UAC code: 940601 (Autumn semester, Spring semester)

CRICOS code: 040691C

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

This course is designed to enable students to achieve a comprehensive and greater understanding of information technology in specialised technical or management areas. The wide range of specialisations allow students to tailor the course to satisfy their career development needs.

It is essential to keep IT knowledge and skills up-to-date. This course provides students with an enhanced understanding of the

business context and technical developments shaping contemporary information and communications technology (ICT), and equips them to meet the challenges of working in the IT industry.

Course aims

The course provides students with an understanding of the advanced concepts of information technology in a commercial environment so they can contribute to the development of IT solutions in their organisation.

Career options

Career options include a wide variety of positions in the IT industry, including business intelligence expert, e-business developer, games developer, information systems manager, IT project manager, movie animator, software architect, software quality / testing specialist and systems analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course an equivalent degree can be from any discipline (as applicants for this program may apply as a non-IT graduate or an IT graduate).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Applicants with a recognised bachelor's degree in computing or information technology (or equivalent) may apply for credit recognition equivalent to the 24-credit-point Graduate Certificate in Information Technology (C11142) (see page 499).

Course duration and attendance

The course duration is one-and-a-half years of full-time or three years of part-time study.

Course structure

This course totals 72 credit points, comprising eight core subjects and 18-24 credit points of electives selected from a defined list. The number of electives depends on whether students choose a 6-credit-point or 12-credit-point research project.

Students articulating from pre-2008 version(s) of the Graduate Certificate or Graduate Diploma in Information Technology are typically eligible for advanced standing of 24 credit points equivalent to the subjects in STM90695 (thus requiring 48 credit points to complete the course).

CRICOS code: 029620M

 ${\tt Commonwealth-supported\ place?:\ No}$

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

This course is designed for students from a wide variety of disciplines who may or may not already be working in areas of multimedia. For this reason it contains a considerable number of elective subjects to enable students to gain new areas of knowledge or broaden existing areas.

While this program is managed by the Faculty of Engineering and Information Technology, it is a joint program between the Faculty of Engineering and Information Technology, the Faculty of Arts and Social Sciences, and a number of other teaching faculties.

The program is designed to educate the innovators and future leaders of the various professions working in multimedia. Graduates acquire the fundamentals in multimedia, underpinning an up-to-date, flexible set of production skills in their own specialised area.

Course aims

A defining characteristic of multimedia education at UTS is the integration of theory and practice in all of the relevant disciplines and professions. The course aims to develop students' professional skills for direct application in the workplace, while providing a solid overview and understanding of the social, historical and industrial role of multimedia communication technologies. Graduates are prepared for a career in a rapidly growing and changing industry.

Career options

Career options include positions in digital media, the mobile web, information architecture, interaction design, new media, web design, web development and web project management. Various events are organised throughout the year to showcase student work and give students the opportunity to speak with industry professionals, including recruiters.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Unless applicants have an honours degree, or equivalent, they require:

- a three-year bachelor's degree (or equivalent), plus either two years of relevant professional experience or a credit average or better in a Graduate Certificate or Graduate Diploma in Interactive Multimedia, or
- outstanding professional experience at a senior level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Given the interdisciplinary focus and teamwork emphasis of this course, credit recognition and subject exemptions are not normally granted for other postgraduate study or work experience.

Course duration and attendance

The course can normally be completed in one-and-a-half years of full-time or three years of part-time study.

Course structure

This course comprises 72 credit points of study, made up of six core subjects, four elective subjects and a digital media project.

Industrial training/professional practice

Industrial training is available to both local and international students as a separate work-based learning course. Students can enrol into the Diploma in Information Technology Professional Practice (C20049) (see page 350) after completing a minimum of four core subjects. Students can be assisted in finding an internship, or may wish to have current relevant industry work experience recognised.

Overview

This course is intended for computing science, information technology or engineering graduates, with or without networking experience, who wish to learn or extend their knowledge of networking and networking technologies. As students come from a variety of backgrounds, there is a degree of subject choice in the program to meet individual needs.

The internetworking program provides practical, hands-on learning experience using resources provided by Cisco Systems for internetworking, including routing, switching, security, wireless and VoIP. Advanced electives in internetworking are available. The program covers all aspects of the organisational use of networks: design, implementation, security, management, end systems and

This course allows students to develop multiple skills across the internetworking field, according to interest and elective choices, for example, switching and routing, systems and network management and analysis, network security, mobility, and web services development.

Course aims

This program aims to:

- meet the needs of industry for networking specialists
- target a number of industry-based certifications: CCNA (Cisco Certified Network Associate) and CCNP (Cisco Certified Network Professional), Cisco Wireless LAN Support Specialist and Cisco Certified Security Professional
- retrain IT professionals wishing to move into networking and internetworking
- provide a thorough and practical grounding in networking, network design, network administration and network management
- provide a solid foundation for the writing of networked applications using Unix, Java and WWW technologies, and
- meet students' needs by allowing specialisation through project work and subject choice.

Career options

Career options include applications developer, client server architect, network administrator, network architect, network designer, network integrator, network systems programmer, programmer analyst, security architect, system support analyst or a role in data communications.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications are preferred in computing science, information technology, computer engineering, telecommunications, or a related discipline.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Two years' experience in networking or in another position in the IT industry is desirable. Applicants without work experience are also

Credit recognition

Exemptions are granted only for subjects at the graduate certificate level. There are no exemptions granted for the networking subjects 32524 and 32521 without the successful completion of the challenge test for each of the above. A challenge test is required even for holders of a CCNA or CCNP certification and those who have passed the CCNA curriculum in TAFE Certificate IV and/or Diploma. These challenge tests are always held in the week prior to the commencement of classes.

Course duration and attendance

The course duration is one-and-a-half years of full-time or three years of part-time study.

Course structure

This course totals 72 credit points of study, including 48 credit points for completion of the graduate diploma, plus a further 24 credit points of elective subjects, comprising either optional research methodologies and project subjects or elective coursework subjects. In some circumstances, it may be possible to choose two electives from outside the list, provided they are approved by the course coordinator.

Where applicable, project topics should be relevant to students' professional career goals and should be an area of current research interest in their area of study.

Note(s)

This course is not offered to international students.

Overview

This course focuses on the role of technology in the strategic leadership of organisations. It provides a well-balanced selection of subjects, drawn from advanced information technology and business domains, in an integrated program that is relevant to the current and future demands of the IT industry and business organisations.

IT professionals who have aspirations to senior IT roles and/or business leadership positions in organisations benefit from this course. Graduates are able to contribute constructively to the effective utilisation of information technology with respect to the strategic leadership of an organisation. IT managers who already have significant levels of experience are challenged by this course and gain new perspectives on the effective leadership of organisations in the digital era.

Course aims

The course aims to develop:

- the professional skills necessary for successfully undertaking strategic leadership roles in a variety of organisational contexts,
- a conceptual and analytical understanding of an organisation's needs in a dynamic and challenging global knowledge economy.

Career options

Graduates can be employed in the full range of organisations - private, public and community sector organisations. Graduates can prepare to take on business leadership roles with the view to gaining executive level appointments in these organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Appropriate qualifications are the successful completion of the Graduate Diploma in Information Technology Management (C06060) (see page 444), or the successful completion of the Graduate Certificate in Information Technology Management (C11138) (see page 498) with passes in all subjects and at least a credit average over the entire course. Alternatively applicants require a recognised bachelor's degree (or equivalent) in an appropriate discipline such as information technology or commerce and a minimum of five years' professional work experience in the IT industry, plus some supervisory experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a three-year, part-time basis.

Course structure

Students complete 72 credit points of study, made up of seven core subjects, a research project and electives.

Overview

The Master of Arts in Information and Knowledge Management is part of an articulated program designed for people who need to provide and manage information services and/or manage and use information and knowledge effectively within organisations.

Graduates of the program have an understanding of the relationship between individuals and information and knowledge practices; contemporary issues, trends, innovations and forces for change in information practice; and ethical practice and the ability to operate with integrity, rigour, self-reliance and cooperation in professional contexts.

Course aims

6ср

6ср

6ср

Graduates of the program have:

- demonstrated sophisticated information handling skills appropriate for professional practice in diverse environments
- an understanding of how to achieve organisational objectives by creating, sharing and using knowledge
- an understanding of contemporary issues, trends, innovations and forces for change in information and knowledge practices, as well as the broader political, policy and technological contexts
- an understanding of ethical practice and the ability to operate with integrity, rigour, self-reliance and cooperation in professional contexts
- demonstrated creative, critical, reflective problem-solving capabilities in the context of their professional roles and a commitment to lifelong learning, and
- demonstrated capabilities in planning and implementing a project.

Career options

Career options include corporate information manager, database designer, electronic information systems manager, information content developer, information designer, knowledge manager, librarian, media researcher, network manager, research officer or records manager.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed one of the graduate diplomas in the articulated program and who are admitted to this course are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or equivalent part-time basis.

Course structure

This course requires completion of 72 credit points. Students choose one of three streams: Information Management, Knowledge Management or Records Management. Students choose subjects from a specified list of electives. Students can choose an elective subject beyond the specified list only with the approval of the graduate

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Diploma in Information Management (C07107) (see page 468), the Graduate Diploma in Knowledge Management (C07105) (not offered in 2013) and the Master of Arts in Information and Knowledge Management.

Professional recognition

Graduates are eligible for professional membership of the Australian Library and Information Association (ALIA).

Other information

Further information is available from the UTS Student Centre on: telephone 1300 ask UTS (1300 275 887)

or +61 2 9514 1222

C04207v2 Master of Engineering Studies Master of Engineering Management

CRICOS code: 047834C Commonwealth-supported place?: No Load credit points: 96 Course EFTSL: 2 Location: City campus

Note(s)

This course is only offered to international students.

Overview

This program allows students to complete the Master of Engineering Studies (MEStud) and the Master of Engineering Management (MEM) in two years of full-time study.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

No work experience is required.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5

overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Once students have completed the Master of Engineering Management they need to submit an application for credit recognition for two subjects from the Master of Engineering Studies. Students can, therefore, complete the combined program by completing only 84 credit points (14 subjects). The faculty does not grant credit recognition based on work experience.

Course duration and attendance

The course can be completed in two years of full-time study, comprising one year for the Master of Engineering Studies and one year for the Master of Engineering Management. The course is also available part time.

Attendance in subjects is available in weekly, block and/or distance modes.

Course structure

To complete the Master of Engineering Studies (MEStud), students must complete eight postgraduate subjects (48 credit points) offered by UTS: Engineering.

To complete the Master of Engineering Management (MEM), students must complete six core subjects (36 credit points) and two elective subjects (12 credit points) as specified under that course, however, two MEM subjects may be exempted based on subjects undertaken in the MEStud. Elective subjects are chosen from postgraduate subjects offered within UTS: Engineering.

Course completion requirements

STM90547 MEM stream 48cp CBK90330 Major choice 48cp Total 96cp

Course program

The typical course program comprises the following:

- Year 1: MEStud component (as per C04097) (see page 367)
- Year 2: MEM component (as per C04094) (see page 366).

Overview

This course is designed to enable students to achieve a comprehensive and greater understanding of information technology in specialised technical or management areas. The wide range of specialisations allows students to tailor the course to satisfy their career development needs. The extended master's allows students to study in greater depth in their chosen field.

It is essential to keep IT knowledge and skills up-to-date. This course provides students with an enhanced understanding of the business context and technical developments shaping contemporary information and communications technology (ICT) and equips them to meet the challenges of working in the IT industry.

Course aims

The course provides students with an understanding of the advanced concepts of information technology in a commercial environment so they can contribute to the development of IT solutions in their organisation.

Career options

Career options include a wide variety of positions in the IT industry, including business intelligence expert, e-business developer, games developer, information systems manager, IT project manager, movie animator, software architect, software quality / testing specialist, and systems analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course an equivalent degree can be from any discipline (as applicants for this program may apply as a non-IT graduate or an IT graduate).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Applicants with a recognised bachelor's degree in computing or information technology (or equivalent) may apply for credit recognition equivalent to the 24-credit-point Graduate Certificate in Information Technology (C11142) (see page 499).

Course duration and attendance

The course duration is two years of full-time or four years of part-time study.

Course structure

The course comprises 96 credit points, made up of eight core subjects and 42-48 credit points of electives selected from a defined list. The number of electives depends on whether students choose a 6-credit-point or 12-credit-point research project.

Students articulating from pre-2008 version(s) of the Graduate Certificate or Graduate Diploma in Information Technology are typically eligible for advanced standing of 24 credit points equivalent to the subjects in STM90695 (requiring 72 credit points to complete the course).

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

This course is intended for computing science, information technology or engineering graduates, with or without networking experience, who wish to learn or extend their knowledge of networking and networking technologies. As students come from a variety of backgrounds, there is a degree of subject choice in the program to meet individual needs.

The internetworking program provides students with a practical, hands-on learning experience using resources provided by Cisco Systems for internetworking including routing, switching, security, wireless and VoIP. Advanced electives in internetworking are available. The program covers all aspects of the organisational use of networks: design, implementation, security, management, end systems and applications.

This course allows students to develop multiple skills across the internetworking field, according to interest and elective choices, for example, switching and routing, systems and network management and analysis, network security, mobility and web services development.

The course allows students wishing to prepare for CCNP to complete these subjects over 18 months, rather than 12 months, meeting the prerequisite requirements more effectively. Additionally, it provides research-oriented students with the opportunity to complete a larger thesis.

With the extended program, students can pursue interests in project management and software engineering. Relevant electives in business studies and law are also options for those students who wish to multiskill across disciplines.

Course aims

This program aims to:

- meet the needs of industry for networking specialists
- target a number of industry-based certifications: CCNA (Cisco Certified Network Associate), CCNP (Cisco Certified Network Professional), Cisco Wireless LAN Support Specialist, and Cisco Certified Security Professional
- retrain IT professionals wishing to move into networking and internetworking
- provide a thorough and practical grounding in networking, network design, network administration and network management
- provide a solid foundation for the writing of networked applications using Unix, Java and WWW technologies, and
- meet students' needs by allowing specialisation through project work and subject choice.

Career options

Career options include applications developer, client server architect, data communications, network administrator, network architect, network designer, network integrator, network systems programmer, programmer analyst, security architect and system support analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications are preferred in computing science, information technology, computer engineering, telecommunications, or a related discipline.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Two years' experience in networking or in another position in the IT industry is desirable. Applicants without work experience are also considered.

Credit recognition

Exemptions are granted only for subjects at the graduate certificate level. There are no exemptions granted for the networking subjects 32524 and 32521 without the successful completion of the challenge test for each of the above. A challenge test is required even for holders of a CCNA or CCNP certification and those who have passed the CCNA curriculum in TAFE Certificate IV and/or Diploma. These challenge tests are always held in the week prior to the commencement of classes.

Course duration and attendance

The course duration is two years of full-time or four years of parttime study.

Course structure

The course totals 96 credit points of study, including 48 credit points for completion of the graduate diploma, plus a further 48 credit points of options, comprising either optional research methodologies and project subjects or elective coursework subjects. Within the course there is the option of choosing 24 credit points of subjects from outside the internetworking program, provided they are approved by the course coordinator.

Where applicable, project topics should be relevant to students' professional career goals and should be an area of current research interest in their area of study.

Course completion requirements

Course program

A typical full-time program for students commencing in Autumn semester is shown below.

Students can enrol in 32521 WANs and VLANs as either a core subject or an elective. However, as this subject has a prerequisite of 32524 LANS and Routing it cannot be taken during the first semester of study. Full-time students are advised to enrol in 32144 Technology Research Preparation in their first semester.

Note: Subjects listed as options may not be offered if there is insufficient demand or a lack of necessary resources.

C04226v4 Master of Business in Operations and Supply Chain Management

Award(s): Master of Business in Operations and Supply Chain

Management (MBus) CRICOS code: 055273J

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

New technology, particularly in the area of information, new management approaches and the pressure of global competition, has placed a premium on those who have a broad understanding of how to plan and manage complex business processes. The Master of Business in Operations and Supply Chain Management is designed for those who wish to gain significant insight and skills in these areas.

The course is designed to cater for the needs of those employed in all sectors of business.

Course aims

The course provides professionals with advanced value chain management skills and the knowledge to enhance their understanding of the nature and contribution of the operations management, supply chain management and procurement functions at a professional level.

Career options

Career options include positions in operations management, service operations management, supply chain management and strategic procurement.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583

overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in one-and-a-half years of full-time or three years of part-time study.

Course structure

The course totals 72 credit points and consists of a combination of core and elective subjects.

Course completion requirements

Select 72 credit points from the following options:	72cp

C04227v3 Master of Business in Human Resource Management

Award(s): Master of Business in Human Resource Management (MBus) CRICOS code: 055274G

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Business in Human Resource Management provides students with the in-depth knowledge and skills necessary to contribute at a senior level to their organisation's human resources and industrial relations functions.

The course is designed primarily for individuals who are currently employed, or show the potential for employment, at senior policy-making levels in the fields of human resource management, industrial relations, occupational health and affirmative action.

Course aims

The course aims to provide leading-edge conceptual and practical understandings of human resource management in complex and unfamiliar workplace situations in order to facilitate management decision-making.

Career options

Career options include positions in change management and general management, human resources, and organisational training and development.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Load credit points: 72 Course EFTSL: 1.5

Location: Kuring-gai campus

Note(s)

This course also has a mid-year intake.

The Nurse Practitioner major (MAJ06214) is not offered in 2014 for new admissions.

Overview

This course is designed to provide registered nurses with the specialist skills and knowledge required for advanced practice. Students undertake one of four majors and a sub-major chosen from a wide range of specialty areas.

Students can customise their program to meet personal learning needs or workplace requirements. Majors and sub-majors can be combined in a variety of ways to achieve either generalist or highly specialised skills in addition to leadership expertise.

Students choose one of the following majors: Advanced Nursing Practice, Nurse Practitioner, Health Research (domestic students only), Education, Management.

Students complete a sub-major from the following specialty areas: acute care nursing, anaesthetics and recovery room nursing, child and family health nursing, children's nursing, clinical management,

clinical teaching, critical care nursing, diabetes education and management, mental health nursing, neonatal nursing, neuroscience nursing, and perioperative nursing.

Elective subjects planned within the course give students the opportunity to explore areas of interest in addition to their selected

Course aims

This course aims to:

- develop students' careers as advanced clinicians, managers, educators or nurse practitioners
- extend and enhance existing skills
- build confidence and leadership skills
- provide academic experience and qualification.

Career options

Career options include advanced practice (e.g. clinical nurse specialist or consultant), nursing management, nursing education or nurse practitioner positions in both clinical and community health settings.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence $of\,general\,and\,profess \bar{i}onal\,\bar{q}ualifications\,that\,demonstrates\,potential$ to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

International applicants must be a registered nurse in their own country or place of residence and hold a current Authority to Practise.

Local applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience. Students' current nursing registration will be confirmed via the

National Register of Practitioners at: www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx Students should ensure that details of their registration are up-to-

date on this register. Applicants to the Master of Nursing in Health Research must have completed four subjects (24 credit points) at the postgraduate level (excluding the core subjects in the Health Research major).

Applicants to the Nurse Practitioner major need to demonstrate the following additional requirements:

- current registration as a nurse in Australia
- length and depth of experience: a minimum of five years, fulltime equivalent (FTE) experience as a registered nurse, including three years FTE as a registered nurse in a specialty area and one year FTE at an advanced practice level in the relevant specialty area of practice
- requisite education or equivalent in a specialty field as entry to the Nurse Practitioner program: Bachelor of Nursing or equivalent and a postgraduate qualification in a specialty field that has prepared the student for advanced practice (either as a prerequisite or integrated into the master's degree)
- required professional activity: active involvement in professional organisations and contribution to the ongoing development of the profession
- confirmed support for the applicant to complete all professional experience requirements of the course.

For further information on additional requirements, contact the course coordinator.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis.

Course structure

Students must complete a total of 72 credit points (12 subjects) comprising one major, which also includes a choice of one sub-major.

Course completion requirements

The Master of Business in Management provides knowledge, skills and conceptual frameworks to enable students to identify and resolve complex issues that will characterise the working environments of senior managers in the future. Students acquire the conceptual and analytical skills necessary for successful management performance in a range of contexts, including the business, public and non-profit sectors, and a variety of professional settings.

The course provides students with knowledge and experiences to enhance their professional skills and understanding of the management of people, resources and organisational processes. An innovative, flexible structure provides students with maximum choice in selecting subjects and programs of study tailored to meet their personal and professional needs.

Course aims

The Master of Business in Management is designed to meet the needs of individuals, client organisations and professional bodies for management education.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in one-and-a-half years of full-time or three years of part-time study.

Course structure

The course totals 72 credit points and consists of a combination of core and elective subjects.

Overview

UTS is a leading provider of language and literacy education and e-learning courses, with academics who are published authors and internationally recognised experts in these fields. This course may be completed as a general Master of Arts degree or as a Master of Arts with a major in e-learning or applied linguistics.

The Master of Arts in e-Learning provides students with the capacity to enhance learning in their diverse workplaces through new technologies, and to discover the possibilities for innovative learning. Students study e-learning models, theories, technologies and design, with electives available in the areas of digital media, graphics, imagery and information.

The Master of Arts in Applied Linguistics is designed to enable language educators and other professionals to gain a firm theoretical grounding in applied linguistics and explore its relevance to their professional practice. The course integrates theory and practice and is an internationally recognised qualification.

The Master of Arts (no specified major) contains a core of two subjects and allows students to choose a further six subjects in an area of their choice. Students may, for example, choose to specialise in the area of training and human resource development. Students wishing to study offshore (e.g. Hong Kong) should apply for the offshore equivalent course, the Master of Arts in Training and Human Resource Development (C04249) (see page 424).

Course aims

The Master of Arts in e-Learning aims to assist students to develop an understanding of the structures, functions and dynamics of a variety of e-learning systems, both locally and internationally, and become familiar, as learners, designers and teachers, with a range of e-learning environments in different disciplines, designed for different educational purposes and with different underlying values.

The Master of Arts in Applied Linguistics aims to provide a rigorous theoretical grounding in applied linguistics relevant to the needs of language educators and other professional groups; develop students' understanding of the linguistic dimensions of cultural diversity, globalisation and social change; and develop skills in the application of linguistic theory to a range of professional practice.

The Master of Arts (no specified major) aims to provide students with opportunities to relate new knowledge and skills to their own practice. The core subjects and electives are designed to promote the notion of the reflective practitioner, i.e. educate participants to critically examine and learn from their own professional experience and that of others.

Career options

Career options are dependent on the major chosen.

Master of Arts in e-Learning: graduates work in e-learning roles in community education, corporate, community and education settings, human resource development, knowledge management, learning and development and primary, secondary or tertiary education.

Master of Arts in Applied Linguistics: graduates work in educational consultancy, management and leadership, research and teaching roles in the fields of TESOL, adult basic education or linguistics.

Master of Arts (no specified major): graduates work in a wide variety of areas, providing leadership in work-based learning in a variety of national and international contexts.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Local students

Local applicants apply through the Universities Admissions Centre.

International students

International students apply through UTS International.

Course duration and attendance

The course can be completed in one year of full-time or two years of part-time study, depending on subject choice. Subjects are offered in weekly, block or distance mode.

Attendance is dependent on students' chosen major and electives. The e-Learning major requires attendance at City campus. The Applied Linguistics major and the general Master of Arts are offered in a choice of distance or face-to-face mode. Not all electives within this course are offered by distance. Students may only complete this course by distance if they select electives which are offered by distance.

This course is available for mid-year entry for full-fee-paying students in the following areas:

- Master of Arts
- Master of Arts in Applied Linguistics
- Master of Arts in Applied Linguistics (distance).

Course structure

Students must complete a total of 48 credit points. Students completing the e-learning or applied linguistics major are required to complete specified core subjects and additional electives. Students not completing a major are required to complete two core subjects and six electives.

Course completion requirements

Overview

UTS is a leading university provider of adult, teacher and general education courses in Australia with many academics recognised as leaders in this field. This course is designed to meet the specific educational needs of those wanting to be at the forefront of learning and development in educational, vocational, organisational or community settings.

The Adult Education major introduces students to an in-depth study of adult learning practice and traditions, approaches to program planning, adult development psychology, and education policy

The Indigenous Studies major is for students wanting to be at the forefront of learning and change in Indigenous education and development.

Students who select the no specified major choose a variety of subjects to form a program of study that suits their professional development needs. Given the faculty's strengths in adult and school education, students are provided with distinct opportunities to study learning and education across many educational sectors.

 $The Organisational \ and \ Workplace \ Learning \ major \ is \ ideally \ suited \ for$ people working in learning and development units, human resource management, vocational and workplace policy, organisational learning areas and those who are responsible for leading and facilitating formal and informal learning in the workplace.

The Popular Education and Social Change major is designed to meet the specific educational needs of those wanting to be at the forefront of learning in areas of social change and social movements of various kinds. It is ideally suited for people who are working with others in campaigning, organising, advocacy and activism.

Students across all majors, select electives from a wide variety of areas including educational leadership, policy, e-learning, human resource development, curriculum, communication management, assessment, program development, and many others.

Course aims

The course aims to develop a wide range of expertise, depending on the major selected. The expertise, knowledge and skills covered in this degree are:

- expertise in understanding, planning and managing learning
- locating one's practice in historical and contemporary contexts
- new and more advanced knowledge in designing, implementing and evaluating educational programs
- examining contemporary ideas and practices in social movements, new media and story making and social change, and
- examining contemporary ideas and practices in professional and organisational learning and changes in work.

Career options

Career options vary depending on the major selected, but include a diverse range of educational, policymaking, campaign organising and leadership roles such as community and health education, e-learning, higher education, human resource development, indigenous development, membership-based organisations, non-government, organisational learning and development, religious education, social movement and vocational education and training.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Students majoring in Indigenous Studies apply by direct application.

Local students

Local applicants apply through the Universities Admissions Centre.

International students

International students apply through UTS International. International applicants should check the course program to determine which majors are offered in full-time mode.

Course duration and attendance

The course can be completed in one year of full-time or two years of part-time study, depending on subject choices.

The mode of delivery of electives may vary, with subjects offered in weekly, block or distance mode. Students are able to take a combination of modes. Students taking the Indigenous Studies major are able to complete their core subjects by block mode.

Note: not all electives within this course are offered by distance and/or block. Students may only complete this course by distance/block if they select electives which are offered in those modes.

Course structure

Students must complete a total of 48 credit points.

Students completing the course with a specified major are required to complete six core subjects and two electives.

Students completing the course without a specified major are required to complete two core subjects and six electives.

C04235v2 Master of Architecture

Award(s): Master of Architecture (MArch)

UAC code: 940110 (PDFP) (Autumn semester, Spring semester), 940120

(CSP) (Autumn semester) CRICOS code: 061397B

Commonwealth-supported place?: Yes

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The Master of Architecture is a focused, professional degree and is required to become a practising architect. It is the second of two degrees, undertaken after the successful completion of the Bachelor of Design in Architecture (C10004) (see page 129) or equivalent.

This course is an innovative and flexible professional degree. Through a non-sequential structure, which allows students to select from a range of core and elective subjects, it gives students choice regarding their professional specialisation that can best serve them in their future careers. Architectural design subjects enhance a critical understanding of architecture as both a discipline with an existing body of knowledge and a set of practices that continuously challenge and add to that body of knowledge. Research is undertaken as a preliminary to design decision-making, during design and in reflection on design development. Architectural practice subjects prepare students for expanded practice in emerging media and markets, contemporary business practice and global economies and within challenging social, environmental, political and regulatory contexts. Students who complete a Master of Architecture and subsequent practical experience are eligible to become registered architects.

Course aims

The course aims to produce graduates who are able to:

- work collaboratively in local and international architectural practices of differing scale, structure and operation
- be strategic and enterprising practice leaders
- critically analyse, evaluate, question and engage in informed argument
- communicate ideas effectively
- extend knowledge and understanding through research skills and to transfer this creatively through the design process
- put forward accurate and persuasive architectural proposals, and
- apply ethical, environmental, cultural, aesthetic and technological considerations in architectural practice.

Career options

Career options include architect, designer or urban designer.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

From 2016, applicants with a UTS recognised bachelor's degree must have either: (i) completed it with a WAM of 65 or above, or (ii) completed it with a WAM below 64.99 and have submitted evidence of potential to pursue graduate studies. Applicants relying primarily on a UTS recognised bachelor's degree with a WAM below 60 will not be eligible for admission to the Master of Architecture.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of $\bar{4}$.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Applications

Students applying from other institutions, or UTS Bachelor of Design in Architecture graduates not proceeding directly to this course, must apply through UAC. Students from other institutions must also submit a portfolio of their architectural projects from previous studies.

Course duration and attendance

The course is offered on a two-year, full-time or part-time equivalent basis.

Course structure

This course comprises 96 credit points, made up of 24 credit points of core architectural practice subjects, 48 credit points of architectural design subjects and 24 credit points of electives.

C04236v3 Juris Doctor

Award(s): Juris Doctor (JD)

UAC code: 940422 (FT) (Autumn semester, Spring semester, Summer session), 940423 (PT) (Autumn semester, Spring semester, Summer session

CRICOS code: 060932C

Commonwealth-supported place?: No

Load credit points: 144 Course EFTSL: 3 Location: City campus

Overview

The Juris Doctor (JD) is a graduate law degree that builds on the established reputation of UTS: Law to provide high-calibre, graduatelevel education in the theory and practice of the law. It is specifically designed for graduates of disciplines other than law. The Juris Doctor qualifies as an Australian Qualifications Framework level 9 master's degree. The flexible nature of the JD allows students to work while they study and to tailor their workload to suit professional and personal commitments.

The JD offers an alternative pathway to practise as a lawyer for graduates who have successfully completed a first degree. In a globalised environment, the JD is internationally recognised as a graduate-level law qualification. UTS: Law integrates flexible learning options, including day and night classes, block intensive classes and online learning.

Career options

Career options include, but are not limited to, lawyer within a private firm, government department or community law centre, regulatory affairs and policy adviser in the public or private sector or legal specialisation related to students' previous degree or enhanced career options within an existing professional sphere.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course the equivalent qualification required is a bachelor's degree in a discipline other than law or a law qualification from an overseas jurisdiction. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Credit recognition

Bachelor of Laws or combined Bachelor of Laws (or equivalent) students who transfer to the Juris Doctor can receive credit for no more than half of the subjects within the Juris Doctor based on subjects completed within their undergraduate law studies. This equates to a maximum of 72 credit points.

Course duration and attendance

The standard course can be completed in three years of full-time or five years of part-time study. There are three intakes a year (in Summer, Autumn and Spring).

Students who commence in Summer session complete the introductory core law subject 70102 Foundations of Law before the start of Autumn semester, thereby accelerating their progression and completing an essential introductory area of law before the commencement of their remaining academic program.

Course structure

The course comprises a total of 144 credit points. The study components for course completion are as follows:

- 108 credit points of compulsory core law subjects (15 subjects),
- 30 credit points of law options (five subjects), and
- a 6-credit-point legal theory option (one subject).

Refer to the course entry in the UTS: Handbook 2013 for the pre-2014 course structure.

Refer to the course entry in the UTS: Handbook 2011 (Spring) for students admitted to the Juris Doctor before Summer session 2012.

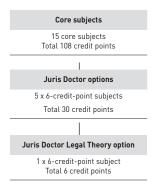

Industrial training/professional practice

To practise as a lawyer in NSW, students need to successfully complete an accredited legal qualification and an accredited course of practical legal training (PLT), such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Course completion requirements

Course program

The introductory core law subject, 70102 Foundations of Law, and select core subjects may also be timetabled in Summer session.

Students in the standard full-time program enrol in between 24 and 26credit points in Autumn and Spring semesters. Optional subjects are regularly timetabled but not all options are offered in any one semester. Optional subjects are timetabled subject to sufficient student interest. http://timetable.uts.edu.au

The standard full-time and part-time programs are shown below.

Levels of award

The Juris Doctor may be awarded with honours. An additional year of study is not required. To qualify for honours, a student must complete 77740 Research Paper within CBK90920 Options (JD). The rules governing the Juris Doctor with honours (current and pre-2013) can be found in postgraduate course information (see page 101). See coursework research on the UTS: Law website for information on how to apply to enrol.

Articulation with UTS courses

Students who successfully complete the Juris Doctor at UTS and have completed Master of Laws (C04143) (see page 382) equivalent subjects within the Juris Doctor, may apply for these subjects to be credited towards the Master of Laws (C04143) (see page 382).

Transfer between UTS courses

Subjects undertaken within the Juris Doctor are recognised within the Master of Legal Studies (C04147) (see page 383) and the Graduate Diploma in Legal Studies (C07074) (see page 465). Students enrolled in the Juris Doctor may apply to internally transfer to the master's or graduate diploma. Candidates are not awarded the Juris Doctor but subjects undertaken are applied towards the master's or graduate diploma.

Professional recognition

This course satisfies the requirements for admission as a lawyer to the Supreme Court of NSW, provided students undertake a PLT program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

C04237v2 Master of Professional Accounting Extended

Award(s): Master of Professional Accounting (MProfAcc) CRICOS code: 061286J

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The Master of Professional Accounting Extended is designed to provide non-accounting graduates with the necessary skills and knowledge required for a career in professional accounting. The completion of the course satisfies the academic requirements for entry to the professional programs of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

The Master of Professional Accounting Extended provides the ideal academic foundation to pursue a career in accounting. The course provides the necessary knowledge, understanding and expertise necessary for employment in the accounting profession. Further, the professional recognition of the course by CPA Australia and ICAA provides students with internationally recognised qualifications that enhance both their employment and promotion opportunities.

Course aims

30cp

The course aims to provide local and international graduates with the requisite knowledge in accounting and the role accounting plays in providing information products supporting all areas of business activity. In addition to providing a professionally recognised qualification, the course comprises a mix of accounting, finance, legal,

CBK90920 Options (JD)

communication and economics subjects that collectively provide a range of essential business skills and knowledge that are necessary for employment in today's dynamic business environment.

Career options

Career options include management-level positions in industry or government, as well as not-for-profit organisations. With the CPA and ICAA qualification being recognised internationally, the prospect for overseas employment is also enhanced.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions based on credit recognition, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in two years of full-time or four years of part-time study.

Classes are offered over three teaching periods each year (namely Autumn and Spring semesters, and Summer session). Not all subjects are available in Summer session.

In most cases, subjects are offered on the basis of one three-hour lecture per week, over a 13-week period, however, certain subjects may be delivered in intensive mode and be completed over a shorter time period.

Course structure

The Master of Professional Accounting Extended comprises 96 credit points, made up of 13 core subjects (totalling 78 credit points), plus three elective subjects (totalling 18 credit points).

Course completion requirements

C04238v3 Master of Professional Accounting

Award(s): Master of Professional Accounting (MProfAcc)

CRICOS code: 061285K

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Professional Accounting is designed to provide graduates with little or no accounting exposure with the necessary skills and knowledge required for a career in professional accounting. The course satisfies the academic requirements for entry to the professional programs of CPA Australia and the Institute of Chartered Accountants in Australia (ICAA).

This course provides the ideal academic foundation to pursue a career in accounting, with the subjects providing the necessary knowledge, understanding and expertise necessary for employment in the accounting profession. Further, the professional recognition of the course by CPA Australia and ICAA provides students with internationally recognised qualifications that enhance both their employment and promotion opportunities.

Course aims

The course aims to provide local and international graduates with the requisite knowledge in accounting and the role accounting plays in providing information to support business activities. In addition to providing a professionally recognised qualification, the course comprises a mix of accounting, finance, legal and economics subjects which collectively provide a range of essential business skills and knowledge that are necessary for employment in today's dynamic business environment.

Career options

Career options include management-level positions in industry or government, as well as not-for-profit organisations. With the CPA Australia and ICAA qualification being recognised internationally, the prospect for overseas employment is also enhanced.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions based on credit recognition, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in one-and-a-half years of full-time or three years of part-time study.

Classes are offered over three teaching periods each year (namely Autumn and Spring semesters, and Summer session). Not all subjects are available in Summer session.

In most cases, subjects are offered on the basis of one three-hour lecture per week, over a 13-week period, however, certain subjects may be delivered in intensive mode and be completed over a shorter time period.

Course structure

The course totals 72 credit points, made up of 12 core subjects.

C04239v2 Master of Management

Award(s): Master of Management in (name of Management major)

CRICOS code: 064653M (three semesters)
Commonwealth-supported place?: Yes

Load credit points: 72 Course EFTSL: 1.5

Location: City and Kuring-gai campuses

Note(s)

The Community and Not-for-Profit Management stream is only available to students as a commonwealth-supported place.

Overview

This course provides students with an opportunity to develop skills and knowledge leading to a career in the ever-expanding experience economy and its key sectors. The core of the Master of Management has been designed to provide a business underpinning to a series of industry sector-focused majors in arts, events, sport and tourism.

In practical terms the course recognises and embraces the general notion that professionals in this new economy need to understand and plan for the experience rendered to their clients. The majors allow students to specialise and to develop a depth of understanding of management issues, challenges and approaches within a particular sector of the experience economy. The Community and Not-for-Profit Management stream develops critical and analytical skills for people working in non-profit and community organisations. Students have the opportunity to apply research skills to a project focusing on a specific aspect of community and not-for-profit management.

The Master of Management and its four industry-focused majors provide a unique suite of offerings at the postgraduate level. Sydney is the largest tourist gateway in Australia (accounting for more than two-thirds of international tourists), a major sporting hub, the home of Australia's hallmark arts companies and an international events destination. UTS is consequently in a unique position to capitalise and position itself within the growing experience economy with this course and its associated majors.

The course provides a combination of intellectual rigour with the development of a range of significant general management skills. Coupled with these is a strong practical orientation to the specialist industry sectors associated with the course's majors which provides students with opportunities to gain exposure to and experience within their specialist industry sector.

The graduate student body in the school is culturally diverse. Both domestic and international students come from a range of cultural and ethnic backgrounds. Class engagement and participation recognises and embraces this diversity. A number of the school's staff have experience in international teaching in China, Malaysia, Cambodia, Thailand, Singapore, the United Kingdom and Europe, and are thus able to bring a global perspective to the international environment in which they engage.

The well-developed industry focus of the course, the strong connections to the Sydney market, the opportunities for professional engagement and a global outlook in classroom interactions are all significant markers of this program.

The Community and Not-for-Profit Management stream provides an opportunity to study at a professional level those factors contributing to the effective management of non-profit organisations. Students develop an understanding of this 'third sector' and its social and economic context, and are introduced to ways of thinking systematically about non-profit organisations and their management. Students also gain knowledge of the range of non-profit organisations, their structure and distinguishing features.

Course aims

6ср

6ср

The aim of the course is to prepare forward-thinking, work-ready graduates with the business, management and interpersonal skills to function effectively as professionals within their selected industry sector of the arts, events, tourism, sport or community and not-for-profit organisations.

Career options

The course provides for a wide range of career opportunities within each of the four industry sectors linked to its specialist majors.

In Arts Management, graduates may pursue careers in such fields as:

- · cultural policy
- marketing performing arts
- cultural venue management
- arts and cultural development management
- gallery and museum management
- dance, theatre and popular music.

In Event Management, graduates may pursue careers in such fields as:

- event planning and development
- conference management
- event marketing
- exhibition management
- corporate event management
- festival and special event management
- place management.

In Sport Management, graduates may pursue careers in such fields as:

- sport marketing
- sport event management
- venue and facility management
- sports development
- sports administration
- operations management.

6ср

6ср

6ср

6cp

6ср

6ср

6ср

In Tourism Management, graduates may pursue careers in such fields as:

- tourist attraction management
- tour wholesaling and operations
- tourism marketing
- tourism research
- tourism planning and development
- hotel development, marketing and management
- airline and transportation management
- ecotourism operations and management.

In Community and Not-for-Profit Management, career options include managing non-government or non-profit organisations, working in the field of corporate social responsibility, or in government particularly in roles that work with community or not-for-profit organisations such as:

- social and community welfare
- environment advocacy
- arts and culture
- fundraising
- education
- international aid and development
- professional associations and unions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four compulsory subjects may be approved from prior undergraduate study. Compulsory subjects, in this context, include core subjects plus the required subjects to complete a specific major.

Course duration and attendance

The course duration is one-and-a-half years, full time; or three years, part time.

The Community and Not-for-Profit Management stream is taught in flexible mode, including three intensive workshops of five days each, self-managed learning packages and learning partnerships to develop peer-supported networks.

Course structure

The course comprises 72 credit points, made up of five core subjects (30 credit points) and seven elective subjects (42 credit points) comprising a major in either tourism, arts, sports or event management. Within each major there are five compulsory subjects that must be completed for a student to be credited with that major. The remaining two elective subjects may be selected from subjects offered in other majors, or students may elect to do an industry-based research project or professional internship placement.

The Community and Not-for-Profit Management stream comprises 72 credit points of study, made up of eight core subjects (48 credit points) and four elective subjects (24 credit points).

Course completion requirements

C04240v1 Master of Advanced Architecture

Award(s): Master of Advanced Architecture in (name of specialisation)

(MAdvArch)

UAC code: 940114 (Autumn semester, Spring semester)

CRICOS code: 065866A

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Advanced Architecture is a post-professional coursework degree leading to either one of two qualifications: the Master of Advanced Architecture in Urban Design or the Master of Advanced Architecture in Design Technologies.

The Design Technologies specialisation focuses on computationally driven architectural design and its expansion into digital manufacturing, prototyping, and materials technologies, as well as the realisation of responsive environments. This degree is an evolution of UTS's Master of Digital Architecture.

The Urban Design specialisation addresses the intersecting challenges of social and political change, environmental degradation and globalisation through the design of the urban fabric, including infrastructure, buildings and open spaces.

Project-based learning is a core focus of the course with projects adapted from practice situations as vehicles for advancing the professional practice of architecture and urban design. Relevant and challenging projects faced by industry are tested as vehicles in an academic setting.

The course has a strong element of internationalisation through the inclusion of intensive master classes and a global field studio that sees key international urban designers, architects and theorists teach into the course each year.

The Master of Advanced Architecture combines subjects in research and theory, with the development of advanced design and technical skills. The two qualifications share an emphasis on project-based coursework through which students learn to apply digital techniques to spatial research and design at the scale of the city or the architectural project.

Subjects include spatial research, demonstration projects oriented towards industry and competition subjects ensure strong integration between urbanism, architecture and new technologies at the cutting edge of design. This provides a breadth of exposure and responsibility unique in Australian architectural education.

Course aims

The Master of Advanced Architecture in Design Technologies equips architecture professionals with the research and design skills to effectively develop and lead the architecture profession locally and internationally in the emerging disciplinary field of architecture, computation and digital manufacturing. Its content is based on the close relationship between new technologies for architectural design related to analysis, synthesis, prototyping, implementation and management of our built environment and the challenges of producing socially and environmentally sustainable buildings and cities in complex political, economic and social conditions. Accordingly the course balances theory with practice, ethics and development, creative speculation and applied research. Through project-based research studios, students explore new design technologies and their capacity for design production and analysis integrating material and spatial informatics towards advanced experimental design research.

The Master of Advanced Architecture in Urban Design trains students to shape the physical environment of the city through ideas, plans and policies. Rather than apply existing solutions for a city, the course encourages students to re-frame the challenges of the urban environment, to become a central participant in the larger political context and to implement advanced architectural design in cities. New methods for mapping and experiencing cities are used to develop urban design responses that take into account existing knowledge and develop alternative futures.

Career options

Career options are focused on leading design and technical innovation roles in architecture and urban design.

Graduates in the Design Technologies specialisation can also take roles in manufacturing and RP modelling, systems and strategic design and analysis, architectural animation and visualisation.

Career options for graduates with the Urban Design specialisation include positions in urban design, urban strategy and policy and architectural design.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants require a five-year full-time or equivalent professional entry degree from an accredited program in architecture or a four-year full-time or equivalent degree from an accredited program in landscape architecture.

Alternatively applications can demonstrate an equivalency through a portfolio and relevant experience in an allied design profession.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

All applicants must submit a portfolio of work demonstrating their design skills for examination in addition to a statement of interest in the course.

Course duration and attendance

The course is offered on a one-year, full-time or two-year, part-time basis.

There is also the possibility of international field trips.

Course structure

The course comprises 24 credit points of classes in Autumn semester (over 14 weeks), a 12-credit-point studio in July session (over four weeks), 24 credit points of classes in Spring semester (over 14 weeks), and a 12-credit-point demonstration project in Summer session (over eight weeks).

Course EFTSL: 1.5

Overview

This course is designed to cater for two distinct groups of students: professional scientists wishing to update their industry-related skills for career advancement and students considering a research degree.

The course contains a compulsory core of professional subjects relevant to all science disciplines. The subjects in the core provide a backbone of skills important to a professional scientist; be they engaged in research, science businesses, industries or government organisations. These are the skills of communication, critical analysis, project management and innovation and commercialisation. The professional strand is complemented by a choice of major study in a specific science or mathematics discipline, or in science management. Students also have the option of undertaking a research project, subject to approval by the faculty. For students with suitable achievement levels considering a research degree, this course provides a pathway to a PhD.

Students in the Marine Science and Management major are exposed to multi-disciplinary and cross-institutional coursework, with a capstone project taught at the Sydney Institute of Marine Science (SIMS) and multiple lecture series and practical components using real-life data from the Australian Integrated Marine Observatory System.

Course aims

The course provides graduates with analytic tools and disciplinary knowledge, combined with creative, logical approaches to problemsolving and professional skills that facilitate real world application of the science such as project management, IP management and commercialisation.

Career options

Career options vary according to the major chosen, but all graduates have training in the professional attributes that employers seek. The skills learnt expand career horizons and enhance prospects for promotion in the rapidly evolving science professions. Graduates in all majors may also proceed to a career in research through entry to a PhD.

- Graduates of the Biomedical Engineering major will be well prepared for careers in medical device and biotechnology companies, government policy and regulation, hospitals, and research organisations where the ability to combine biology and engineering knowledge and skills is required.
- Graduates of the Marine Science and Management major can pursue careers worldwide in private and public agencies, or as private consultants in fields such as policy and conservation, fisheries, environmental sustainability and management, impact assessment, tourism, and education.
- Graduates of the Environmental Change Management major may find management and leadership positions in government agencies, the private sector and community organisations concerned with biodiversity, coastal zone management, climate change adaptation, environmental policy, environmental remediation, environmental sustainability, fisheries, infrastructure, land and water resources, national parks and wildlife, planning, and natural resources management.
- Forensic Science major graduates may take up positions in police forensic laboratories, state and federal law enforcement agencies, government and private forensic or drug detection laboratories, customs and border protection agencies, and environmental protection agencies.
- Graduates of the Mathematical and Statistical Modelling major may expect to apply their logistic, statistical and modelling skills in careers in a wide range of diverse organisations and industries,

- including banking and finance, health, information technology, and market research.
- Career options for Medical Biotechnology major graduates include senior positions in public health units, hospitals or government departments, or as policy analysts or consultants, providing links with bodies such as state health departments. Graduates may also pursue management positions in diagnostic medical laboratories, or in pharmaceutical or biotechnology companies
- Graduates of the Science Management major are focused towards careers in management of science industries and organisations. This major is specifically designed for science graduates who are making, or expect to make, the transition to management roles in their place of employment.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Entry into any of the majors requires a minimum of a Bachelors degree in a related discipline.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students enrolled in this course may be eligible for credit recognition of up to 24 credit points if the subjects previously studied are deemed by UTS: Science to be equivalent to those specified for their course.

To be considered for credit recognition, subjects must normally have been completed no more than five years prior to the commencement of this course.

Course duration and attendance

The standard course duration is 18 months of full-time study.

The course may also be completed in part-time mode, typically over 36 months. Part-time students must be prepared to attend some afternoon or morning classes during each teaching week.

Course structure

The course requires 72 credit points of study, comprising 24 credit points of professional stream subjects and a 48-credit-point major.

A non-specified major in which cross-disciplinary subject selection is possible is also offered.

Course completion requirements

STM90522 Professional stream	24cp
CBK90644 Major choice	48cp
•	Total 72cp

Course program

Example programs for the accelerated mode commencing in either Autumn or Spring semesters for all majors except Forensic Science and Biomedical Engineering are shown below.

The Forensic Science major (MAJ01123) contains a mix of subjects from different forensic disciplines and example programs are more difficult to predict because subject choices are influenced by prior study. A typical 18-month program focusing on the forensic chemistry discipline with admission in Autumn semester is shown below, as well as a typical 18-month program focusing on the forensic biology discipline with admission in Spring semester. Students with appropriate backgrounds wishing to choose a mixture of forensic chemistry and forensic biology subjects should seek advice from their program advisers.

The Biomedical Engineering major (MAJ03470) contains a mix of subjects from different science and engineering disciplines and example programs are more difficult to predict because subject

choices are influenced by prior study. Typical 18-month programs for students admitted in either Autumn or Spring semester, with prior backgrounds in either biomedical or physical science are shown below. Depending on selection of electives, the number of elective credit points in a given semester may differ from that listed below.

The Marine Science and Management major (MAJ01130) requires two subjects to be chosen from external partner universities and the subject chosen may affect the course duration, depending on semester of offer of the selected subject. Example programs for the accelerated mode commencing in either Autumn or Spring semesters are shown below, however it should be noted that these are possible only if the specific optional subjects illustrated are chosen.

C04242v1 Master of Communications Law

Award(s): Master of Communications Law (MCommLaw) UAC code: 940430 (Autumn semester, Spring semester) CRICOS code: 071753D Commonwealth-supported place?: No Load credit points: 48 Course EFTSL: 1

Overview

Location: City campus

Emerging as a critical media and legal specialisation, communications law at UTS offers an opportunity for non-law as well as law graduates to develop an understanding and demonstrate their expertise as media professionals and commentators, policy makers and lawyers, managers and researchers in this important area.

Students are exposed to key issues within the field such as: the roll-out of the national broadband network (NBN); cyber-security; legal perspectives on the internet; the role of law and regulation in communications, media and entertainment; and the relationship of intellectual property and technology.

Career options

Career options exist for non-law professionals to enhance prospects as communications policy advisors, editorial and management positions, online/social media consultants, lobbyists, researchers for public interest groups and industry commentators. Practising lawyers can expand their legal specialisations in areas including communications law, intellectual property, media and entertainment law, telecommunications law, technology law and corporate law.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Admission is at the discretion of the associate dean (teaching and learning).

 $The \, English \, proficiency \, requirement \, for \, international \, students \, or \, local \,$ applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one year of full-time study or two years of part-time study.

Course structure

Two streams are available in the course:

- Students who hold an undergraduate legal qualification must complete six option subjects (48 credit points).
- Students who hold an undergraduate degree in a discipline other than law must complete one core introductory subject (8 credit points) followed by an additional five subjects (40 credit points).

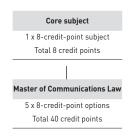

Students who have completed an undergraduate legal qualification should contact the UTS Student Centre during enrolment if their study plan includes the Non-law graduate entrant stream (STM90543).

Subjects are regularly timetabled but not all subjects listed are offered in any one semester. Timetabled subjects are offered subject to sufficient student interest. The current timetable can be found at: http://timetable.uts.edu.au

48cp
48cp
48cp
Total 48cp

Levels of award

To qualify for honours, candidates must attain a weighted average mark of 80 per cent across all subjects attempted.

Articulation with UTS courses

Students enrolled in the Graduate Certificate in Communications Law (C11217) (see page 513) may apply to transfer to the Master of Communications Law. Successful candidates are not awarded the graduate certificate but subjects undertaken within the graduate certificate are recognised and applied towards the master's.

C04243v2 Master of Design

Award(s): Master of Design in (name of Design major) (MDesign) UAC code: 940107 (Autumn semester, Spring semester)

CRICOS code: 071751F

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

Unique in Australia, the Master of Design is intellectually vibrant, socially engaging, visionary, practice focused and actively linked to industry. This course is centred around building a design community network. The course has two main components: specialised master classes led by a studio leader and industry partners and theory and technology subjects taught across the program.

The program focuses on and integrates research, industry collaboration, internationalisation and a design culture through the delivery of specialist, core and trans-disciplinary subjects. It provides a postgraduate education that is flexible in both its practice orientation and research integration.

With a focus on design evolution, innovative integration of new technologies, practice and student experimentation, this Master of Design is delivered by experienced studio leaders who are acknowledged leaders in the specific industries and professions.

Course aims

Designed to produce a balance between high levels of specialisation and lateral thinking, the program enables students to examine design from a trans-disciplinary perspective.

It enables students to explore design issues under the supervision of a practice leader, to learn new strategies and the application of research and theory. It supports best practices in postgraduate design education through learning and research strategies that critically examine design practice.

Graduates of this course are leaders in design and related industries through their expertise in product and service development. They are able to utilise strategic processes, creative tools and research skills for innovation in design.

The program provides a suite of subjects for postgraduate designers in the areas of interaction, strategy and enterprise, lighting design, technotextiles, and text and image. Common subjects explore related conceptual challenges and questions of visual expression in the quest to develop useful, usable and resonant designs. These include understanding and articulating the importance of 'user experience', the role of design in humanising information, the aesthetic and conceptual dynamics of effective communication, strategic thinking, and aspects of design management, branding and communication.

Career options

Graduates' careers are enhanced by high-level professional knowledge and skills for the workplace, with possession of specialised knowledge in advanced textiles, space and materials, interaction, sustainable design and innovation.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

In addition to the above qualifications, applicants need to satisfy all of the following:

- a bachelor's degree in a design-related field with a mid-credit (70) average from a UTS recognised university including identified study that relates to the applicant's specified major/cluster
- a CV that clearly articulates the applicant's design or related experience and may include documentation/examples of previous work
- a digital portfolio of six A4 landscape pdfs: five of these pdfs must be digital files of scans and/or photographs or original design work appropriate to the master's studio being applied for
- one of the pdfs must be a statement of 300 words stating studio preferences and addressing the applicant's reasons for undertaking study in the nominated specialisation.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis.

Course structure

Students must complete 72 credit points comprising 36 credit points of core subjects and 36 credit points of design expertise subjects.

Course completion requirements

CBK90865 Design major choice 36cp CBK90890 Theory and Technology subjects (Design) 36cp Total 72cp

Exit award

Students can exit this course after completing 48 credit points of specified subjects with a Graduate Diploma in Design (C07119) (see page 473) or after completing 24 credit points of specified subjects with a Graduate Certificate in Design (C11225) (see page 516).

C04244v1 Master of Arts in Nonfiction Writing

Award(s): Master of Arts in Non-fiction Writing (MA) UAC code: 940530 (Autumn semester, Spring semester)

CRICOS code: 071748A

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Arts in Non-fiction Writing is designed for experienced writers who are prepared to undertake advanced work in the growing field of non-fiction. In Australia, the non-fiction book market is much larger than the fiction market.

The course builds on the research and teaching strengths in areas of creative writing, journalism, media arts and production, and information and knowledge management.

It focuses on writing and research skills including identifying a subject, using archives, examining methods, exploring genres and structuring material for a full-length non-fiction book. In this course, non-fiction includes biography, life writing, true crime, travel writing, sports writing, the personal essay and other forms of sustained and structured non-fiction narrative. Students can study one genre in depth or explore a range of genres and media.

Students learn valuable skills and work towards developing a major project under the guidance of an academic faculty member with expertise in non-fiction.

Course aims

Graduates of this course develop:

- general and specific skills in non-fiction writing across a range
- an ability to develop and critically revise their own work
- an ability to structure and sustain a book-length narrative
- an understanding of the relationships of writing practice and publication across a range of media and contemporary cultural
- a critical knowledge of aesthetic debates and modern developments in non-fiction, and
- an ability to think creatively and critically.

Career options

Career options include biographical and historical writing, freelance writing and editing, life writing, media research, publishing, professional writing, true crime writing, and editing in cultural organisations or government departments.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances

Applications

All applicants are required to:

- explain what writing experience they have
- list their publications, if any
- attach one example of their non-fiction writing
- supply written references from people who are familiar with their ability and potential (if the applicant does not have academic or professional qualifications).

Credit recognition

Previous study is assessed at the time of application to determine whether completed study satisfies course completion requirements.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or two-anda-half-year, part-time basis.

Course structure

The course comprises 72 credit points, made up of five core subjects and three elective/sub-major subjects. Students may select subjects beyond the lists of elective subjects with the approval of the graduate adviser. Not all subjects are available each semester.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points

Course completion requirements

CRICOS code: 071629G

Commonwealth-supported place?: Yes

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

UTS is a leading provider of postgraduate language and literacy courses, with academics who are published authors and internationally recognised experts in the field. This course meets the professional development needs of a wide range of English language teachers in Australia or internationally; teaching children, teenagers or adults. It caters to those seeking an initial teaching qualification in teaching English to adult speakers of other languages. It is also well suited

to applicants who already possess a teaching qualification and wish to gain a specialist degree in the field as they are eligible for credit recognition. The course consists of subjects that equip teachers with skills and in-depth knowledge in the areas of teaching practice, pedagogical grammars, global Englishes, discourse analysis, phonology and pronunciation, language teaching technologies, language development, language for specific purposes and more.

This course is designed for those who wish to pursue a specialist area and to understand in more detail the theoretical basis of TESOL practice. The course is tailored to cater to the needs of participants who as yet have no teaching experience, as well as to the needs of participants with experience but no recognised initial teaching qualification. The subjects are designed for those with teacher qualifications and experience, particularly in the field of TESOL. The course features flexible study options with classes held at times suitable for full-time workers. Students who receive a minimum of 24 credit points of credit recognition may complete the course by distance, but only if relevant distance subjects are selected.

The course explicitly meets the needs of students and educators in the following contexts:

- working with migrants and Indigenous students across all levels of education
- teachers wishing to change discipline areas
- teaching English in countries outside of Australia
- international students wishing to study TESOL at master's level.

Course aims

The course aims to produce TESOL teachers who are knowledgeable, reflective and engaging in their practice, have well developed interpersonal skills, are keen to put current developments in learning and teaching into practice, and have a commitment to lifelong learning.

Career options

Career options include a teacher of English as a second language in Australia or a teacher of English in overseas contexts (applicants are advised to check with potential employing bodies regarding employment requirements).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Local students

Local applicants apply through the Universities Admissions Centre.

Credit recognition

Graduates of the Graduate Certificate in Teaching English to Speakers of Other Languages (C11223) (see page 515), or equivalent teaching qualification (such as a primary or secondary school teaching qualification or an adult education teaching qualification), are eligible for 24 credit points of credit recognition.

Graduates of the Graduate Diploma in Teaching English to Speakers of Other Languages (C07118) (see page 471), or equivalent postgraduate teaching qualification, are eligible for 48 credit points of credit recognition.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis.

Students who receive a minimum of 24 credit points of credit recognition may complete the course by distance, but only if relevant distance subjects are selected.

The subjects in STM90529 are run in standard weekly mode for TESOL students, except for 010071 Professional Practice 2 Language Literacy and Numeracy, which is run in block mode.

Course structure

The course comprises 72 credit points, made up of five compulsory core subjects (totalling 30 credit points) and seven elective subjects (totalling 42 credit points).

Industrial training/professional practice

There is a practicum placement for subjects 010070 Professional Practice 1 Language Literacy and Numeracy and 010071 Professional Practice 2 Language Literacy and Numeracy.

Award(s): Master of Health Services Management and Planning [MHSMPlan]

UAC code: 940811 (Autumn semester, Spring semester)

CRICOS code: 071627K

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Note(s)

This course offers a mid-year intake for local and international students.

Overview

This is a comprehensive course in health services planning and management and aims to expand students' knowledge and future career opportunities. The course develops students' knowledge and skills, which leads to an enhanced capacity to plan and manage health services in a diverse range of health settings.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Course aims

This course is designed to prepare new, aspiring, and middle health service planners and managers to assume a leadership role in the strategic and operational management of a wide range of health services and facilities. The content aims to develop skills in planning and evaluating health services, understanding health needs, and managing people, resources, systems and processes within health services to meet the changing needs of communities, clinicians, governments and organisations.

Career options

Career options include positions as managers and/or planners in health authorities, hospitals, primary and community care, aged care services and other healthcare facilities in the public, private, not-for-profit, government and non-government health sectors.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

This evidence may include extensive relevant work experience in a health or human services field.

Applicants must have at least one year's full-time equivalent experience in a medium to large organisation, preferably in the health or human services area. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.

Applicants who do not have an undergraduate degree but who have extensive relevant work experience in a health or human services field and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course duration is two years of full-time or four years of parttime study.

Subjects are offered via on-campus study. Part-time students usually study two subjects a semester and full-time students usually study four subjects a semester.

Course structure

Students must complete a total of 96 credit points, comprising 14 core subjects offered by UTS: Health and UTS: Business and two electives offered by UTS: Health and UTS: Design, Architecture and Building. Students who wish to undertake an elective that is not listed should seek advice from UTS: Health.

C04247v1 Master of Midwifery

Award(s): Master of Midwifery (MMid)

Master of Midwifery in Health Research (MMid)

CRICOS code: Pending

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Note(s)

Students admitted to the Master of Midwifery (Conversion) before 2011 should refer to the course entry in the 2010 handbook.

This course is not offered in 2014 for new admissions.

This course is not offered to international students.

Overview |

This course aims to provide registered midwives with an opportunity to develop both their practice and professional roles and to develop the skills, attitudes and knowledge to meet the developing role of a midwife. In addition, the course aims to provide students with an avenue through which to further their clinical, research, teaching, leadership and/or management roles. The course is designed to offer students the opportunity to customise their program to meet personal learning needs or workplace requirements.

The course enhances the professional development of the midwife through the investigation of varied theoretical perspectives pertinent to midwifery issues. Students develop a complex understanding of issues related to interdisciplinary collaboration in the development of maternity services, and engage in critical thinking in order to inform clinical judgment and decision-making within the midwifery context of woman-centred practice. Recognising and building on extensive midwifery practice, the course prepares students as scholars, leaders and change agents within midwifery.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a midwife in Australia.

Registered midwives who have completed a certificate in midwifery leading to registration as a midwife or completed a graduate diploma in midwifery or equivalent leading to registration as a midwife are also considered eligible.

Where large numbers of applicants are eligible for admission to any of the faculty's courses and places are limited, preference is given on the basis of:

- general educational qualifications
- previous academic grades, and
- CV which demonstrates professional experience and activities, e.g. post-registration certificates and scholarly activities such as research and publications.

Applicants to the Master of Midwifery in Health Research must have completed four subjects (24 credit points) at the postgraduate level (excluding the core subjects in the Health Research major).

Students' current midwifery registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who hold an existing Graduate Diploma in Midwifery are eligible to apply for credit recognition in the form of exemptions from four specified subjects (24 credit points).

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or three-year, part-time basis.

C04248v1 Master of Media Arts and Production

Award(s): Master of Media Arts and Production (MMAP) UAC code: 940503 (Autumn semester, Spring semester)

CRICOS code: 032718G

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

This course is designed for graduates in media production, or those with significant experience in the field, to allow them to advance their skills and theoretical understanding of the consumption and production of media products. The course further develops professional, specialised skills and knowledge in at least one area of media production: digital media, sound, interaction and moving image. With guidance from faculty experts, students can also create a major piece of production work in film, video, sound, radio, digital media, performance or installation.

Course aims

This course aims to provide students with the opportunity to develop advanced production and conceptual skills in media production. Through the research and production of a creative project, students increase their capacity for developing independent, creative and innovative projects. The course gives students the option to experience the creative and technical development of a significant production, or to focus their skills in one key area of the media industries.

Career options

Career options include taking part in a creative team as writer, producer, director, or working in particular roles in production and post-production of moving image, sound, digital media and interaction. Graduates have the capacity and experience to develop, initiate and produce their own media projects.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed the graduate certificate or the graduate diploma in the articulated program are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is one-and-a-half years of full-time or two-and-a-half years of part-time study.

Course structure

Students complete 72 credit points of study made up of three core subjects and six elective/sub-major subjects.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

Course completion requirements

48cp CBK90800 Electives/Sub-major (MAP) 24cp STM90555 Core subjects (Media Arts and Production) Total 72cp

Course program

Below are examples of typical programs for full- and part-time students. Students can choose to complete core subjects and elective/ sub-major subjects in any order, however, prerequisites may apply.

Students considering enrolling in the Journalism or Screenwriting sub-major should commence their sub-major as soon as possible or in their second semester, so as to satisfy all prerequisite requirements and to complete on time.

C04249v1 Master of Arts in Training and Human Resource Development

Award(s): Master of Arts (MA) Commonwealth-supported place?: No Load credit points: 48 Course EFTSL: 1 Location: Hong Kong

Note(s)

8ср

24cp

This course is only offered offshore. It is available in Hong Kong. The language of tuition is English.

This is an offshore course offered in Hong Kong. Students wanting to study in Australia should apply for the equivalent onshore course, the Master of Arts (C04231) (see page 398).

Overview

This course is intended for those who wish to develop their knowledge and competence in the theory and practice of management and leadership in international training and educational resources.

This course has been designed to meet the educational needs of training professionals and human resource development managers. The subjects are drawn from the general masters-level subject bank and have been selected to offer a specific focus on human resource development. Students study the same core subjects as students enrolled in the Master of Arts (no specified major) (C04231) (see page 398). It is ideally suited to those seeking a qualification for strategic positions in learning and development units, human resource management, vocational and workplace policy, organisational learning areas, and those who are responsible for leading and facilitating formal and informal learning in the workplace.

Course aims

This course aims to:

- provide opportunities for participants to relate new knowledge and skills to their own practice
- promote the notion of the reflective practitioner, i.e. educate participants to critically examine and learn from their professional experience and that of others
- develop strategic ways of analysing practice situations, modes of analysis and research which account for the complexity of HRD practices and reveal ways of working within that complexity

- enable students to consolidate or extend their specialist professional competence as practitioners in fields of practice relating to human resources development
- strengthen students' understanding of the relevant theoretical underpinning, particularly in relation to knowledge about adult learning and development
- enable students to apply new understandings about training, leadership and management to their own professional practice.

Career options

Career options include educational and training leadership roles in various capacities, such as policy making, research, consulting, planning, curriculum development, and management in teaching and learning organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants previous qualifications should be in a related field of study. In addition to the English language requirements detailed below, other acceptable equivalent English language qualifications as approved by UTS Academic Board, are, for example, the successful completion of a UTS recognised course that was taught in English and was equivalent to at least one full time or full time study or evidence of successful completion of a diploma or advanced diploma from TAFE and other private colleges recognised by UTS; or completion of a UTS recognised foundation program with a pass in a unit of study in English for Academic Purposes with a duration of at least one semester.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course duration is four semesters of full-time or six semesters of part-time study.

Course structure

This degree is awarded on completion of eight 6-credit-point subjects. All subjects are offered in face-to-face mode and delivered through a combination of intensive weekend seminars, study group meetings, self-directed study and online distance support.

C04250v2 Juris Doctor Master of Business Administration

Award(s): Master of Business Administration (MBA)

Juris Doctor (JD)

UAC code: 940436 (Autumn semester, Spring semester, Summer session) CRICOS code: 074765J

Commonwealth-supported place?: No

Load credit points: 192 Course EFTSL: 4 Location: City campus

Overview

The Juris Doctor Master of Business Administration (JDMBA) is a graduate law and business degree that builds on the established reputations of UTS: Law and the UTS Business School to provide high-calibre, graduate-level education in the theory and practice of the law and business. It is specifically designed for graduates of disciplines other than law.

This course provides students with an integrated exposure to professional practice in both legal and business contexts.

Career options

Career options include, but are not limited to, lawyer within a private firm, government department or community law centre, regulatory affairs and policy adviser in the public or private sector or legal specialisation related to students' previous degree or enhanced career options within an existing professional sphere.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in a discipline other than law or a law qualification from an overseas jurisdiction. Admission is at the discretion of the associate dean (teaching and learning), Faculty of Law.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

6ср

6ср

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time study. Subjects may also be available in Summer session.

Course structure

The course comprises a total of 192 credit points. The study components for course completion are as follows:

- 96 credit points of compulsory core law subjects (13 subjects)
- 48 credit points of compulsory core business subjects (eight subjects)

- 18 credit points of law options (three subjects)
- a 6-credit-point legal theory option (one subject)
- 24 credit points of business law sub-major subjects (four subjects).

Industrial training/professional practice

To practise as a lawyer in NSW, students need to successfully complete an accredited legal qualification and an accredited course of practical legal training (PLT), which UTS offers through its PLT program.

 $Students\,enrolled\,in\,the\,Juris\,Doctor\,Master\,of\,Business\,Administration$ who wish to practise as lawyers in NSW can complete the requirements by undertaking a PLT program, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Levels of award

The Juris Doctor component of the JD MBA may be awarded with honours. An additional year of study is not required. To qualify for honours, a student must complete 77740 Research Paper within CBK90949 Options. The rules governing the Juris Doctor with honours (current and pre-2012) can be found in Postgraduate course information (see page 101) in the handbook. Consult the Coursework research page on the UTS: Law website for information on how to apply to enrol.

Articulation with UTS courses

Students who completed postgraduate electives as part of their Juris Doctor (C04236) (see page 405) candidature may apply to have credit towards the Juris Doctor Master of Business Administration (C04250) (see page 425).

C04251v1 Master of Intellectual Property

Award(s): Master of Intellectual Property (MIP)

UAC code: 940433 (distance) (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

UTS has established expertise in and a reputation for providing courses relevant to the needs of the patent and trade mark professions. The UTS Master of Intellectual Property is the first at an Australian university that fulfils the entire educational requirements for registration as a registered trade marks attorney and patent attorney in Australia under the relevant regulations.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Course aims

This course provides graduates with an understanding of the principles of the registered trade mark system, the protection of unregistered marks and related forms of protection against misleading or unfair trading conduct in Australia. In addition, graduates understand the content and implication of a patent specification, enabling them to advise upon possible questions of infringement, validity and compliance.

Career options

Depending on the subjects taken, graduates may seek registration as a trade mark attorney and/or patent attorney in Australia. Arts administrators or media professionals may enhance career options through building expertise in the commercialisation or management of intellectual property assets. Other career options include patent and trade marks attorney, IP lawyer, IP portfolio manager, policy maker and government regulator.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications can be in any discipline. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

UTS may grant successful applicants advanced standing or exemption from one or more subjects but the Professional Standards Board for Patent and Trade Marks Attorneys (PSB) has no authority to recognise, for the purpose of registration as a patent attorney or trade marks attorney, such exemptions. Students intending to seek registration need to seek exemption from the PSB. Exemptions are generally not granted for subjects not primarily directed to Australian law. Further information is available from:

The Secretary

Professional Standards Board for Patent and Trade Marks Attorneys PO $\mbox{Box}\,200$

telephone +61 2 6283 2345

fax +61 2 6285 1048

email mail.psb@ipaustralia.gov.au

www.psb.gov.au

Course duration and attendance

The course can be completed in one-and-a-half years of full-time study or two-and-a-half years of part-time study.

Most subjects within this course can be studied by distance online and require no on-campus attendance. All lectures, tutorials, course materials and assessments are distributed by a combination of web-based technology and electronic media. Students conduct all communication with the lecturer by electronic means. A number of subjects are concurrently offered in traditional face-to-face, on-campus format.

Course completion requirements

CBK90711 Choice

48cp Total 48cp

Articulation with UTS courses

Subjects undertaken within the Graduate Certificate in Trade Mark Law and Practice (C11130) (see page 497), Graduate Certificate in Intellectual Property (C11229) (see page 518) and Graduate Diploma in Intellectual Property (C06099) (see page 447) are recognised within the Master of Intellectual Property. Students enrolled in either graduate certificate may apply to internally transfer to the master's program. Candidates are not awarded the graduate certificate but subjects undertaken are applied towards the master's program.

Professional recognition

The educational requirements for registration as a patent attorney and trade marks attorney in Australia with the Australian Government's Professional Standards Board for Patent and Trade Marks Attorneys can be fulfilled by completing this course. Prospective students should check with the Patent Attorney Registration Board for specific subjects required to be completed for registration at:

www.psb.gov.au/attorney-registration/registration-requirements/knowledge-requirements

C04252v1 Master of Pharmacy

Award(s): Master of Pharmacy (MPharm) UAC code: 940900 (Autumn semester)

CRICOS code: 074915M

Commonwealth-supported place?: Yes

Load credit points: 120 Course EFTSL: 2.5 Location: City campus

Overview

This course is a focused, professional postgraduate degree leading to eligibility for registration as a pharmacist. The core component provides students with the required detailed knowledge, skills and experience to achieve this. Elective subjects provide students with the opportunity to tailor their study to their individual career focus. The course incorporates a range of subjects relevant to contemporary pharmacy practice, including professional services, integrated therapeutics and the pharmaceutical sciences. Students undertake clinical practice in a variety of settings throughout the degree.

The course is delivered in an integrated, practice-oriented and studentfocused manner, making use of innovative technologies and strong links with the pharmacy profession. After successful completion of this course and a subsequent pre-registration period, students are eligible for registration as a pharmacist.

This course is for students who have completed an undergraduate science or related bachelor's degree and wish to enter the healthcare profession as a pharmacist. This degree not only provides candidates with the knowledge, skills and experience necessary to gain registration, but also prepares them for expanded practice in emerging professional environments, and within changing medical, social, political and regulatory contexts. Candidates have the opportunity to develop leadership skills, gain experience with emerging technologies, and learn from internationally recognised researchers and teachers.

Career options

Career options for registered pharmacists include areas such as: community pharmacy; hospital pharmacy; research and development; the pharmaceutical industry; consultancy; education; government and policy; the armed forces; and non-profit organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Entry is competitive and applicants are assessed on their grade point average (GPA). As a guide, in 2013 the entry GPA was a credit result. The GPA is calculated based on the latest three-year (full-time) or equivalent academic record.

Applicants must have also completed the following at a tertiary level:

- two pharmacology subjects
- two chemistry subjects
- one biochemistry subject
- one human physiology subject, and
- one mathematics or statistics subject.

A human biology and/or microbiology subject is also desirable.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.5 overall with a 7.0 in each subtest; or TOEFL: paper based: 610-633 overall with TWE of 5.0, internet based: 102-109 overall with a score of 24 for reading and listening, 23 for speaking and 27 for writing; PTE: 73-78 overall with a 65 in each subtest; or CAE: 74-79

Eligibility for admission does not guarantee offer of a place.

International students

Upon graduation, international students intending to apply for provisional registration with the Pharmacy Board of Australia must meet the Pharmacy English Language Skills Registration Standard.

For further information, refer to the following standards:

- Pharmacy English Language Skills Registration Standard
- Pharmacy Implementation of the English Language Skills Registration Standard.

These are available for download at:

www.pharmacyboard.gov.au/Registration-Standards.aspx

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Applications

Shortlisted applicants who meet the entry requirements receive a conditional offer and are required to sit an interview.

International students

International students should apply via UTS: International.

Course duration and attendance

The course is an intensive two-year, full-time degree which is equivalent to a three-year degree. In addition to coursework during semesters, students are required to undertake weekly clinical placements during semester and block clinical placements during mid-semester breaks.

Course structure

This course comprises a total of 120 credit points. Students undertake a total of 16 6-credit-point subjects and three clinical subjects (two 6-credit-point subjects and one 12-credit-point subject).

C04254v1 Master of Arts in Communication Management

Award(s): Master of Arts in Communication Management (MA) UAC code: 940509 (Autumn semester, Spring semester)

CRICOS code: 018985F

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Overview

The Master of Arts in Communication Management provides advanced contemporary study and practice in professional communication management. It is suitable for current and aspiring practitioners who want to attain the relevant expertise to achieve their career goals. Students can major in the areas of Public Relations, Integrated Communication, or Organisational Change and Communication. Alternatively, students can elect to complete generalist studies which provide a foundation for the broad field of communication management practice.

Academic staff involved in the course have substantial industry experience and have undertaken research in the field.

Course aims

Graduates of this course have:

- advanced understanding of communication and its management
- the ability to synthesise communication theory and practice
- the ability to analyse, design, cost and evaluate a communication
- a sensitivity to ethical and legal issues related to communication
- a capacity to reflect on the roles and responsibilities of communicators
- the capacity to apply perspectives that are intercultural and global, and
- a sensitivity to issues of exclusion, equity and justice.

A full list of the graduate attributes of the course is available from

Career options

Career options cover the fields of public relations and communication management, including those positions related to communication advising, community relations, corporate communication, integrated communication, internal communication, international communication, media liaison or public affairs.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed the Graduate Diploma in Communication Management (C06105) (see page 452), Graduate Diploma in Public Relations (C06103) (see page 451), Graduate Diploma in Integrated Communication (C06101) (see page 448), or

the Graduate Diploma in Organisational Change and Communication (C06102) (see page 450) are eligible for credit recognition for completed subjects.

Students who have graduated with a Bachelor of Arts in Communication (Public Communication) (C10248) (see page 266) may be granted up to one third of the postgraduate course in credit recognition. Other relevant qualifications are considered on a caseby-case basis.

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or equivalent part-time basis.

Course structure

The course totals 72 credit points of study made up of three core foundation subjects (24 credit points), two core master's subjects (16 credit points), a major choice (24 credit points) and an elective (8 credit points).

Students can choose one of three majors, each consisting of three compulsory 8-credit-point subjects, or select No specified major for the generalist course.

The No specified major option includes two compulsory 8-credit-point subjects and an 8-credit-point elective.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points

C04257v1 Master of Local Government

Award(s): Master of Local Government (MLG) CRICOS code: Pending Commonwealth-supported place?: No Load credit points: 72 Course EFTSL: 1.5

Note(s)

This course is not offered to international students.

Overview

The Master of Local Government provides professionals, managers and leaders in local government with an advanced body of knowledge and skills to reflect critically on theory and practice. This enables them to apply this knowledge in their roles in strategic thinking, planning and shaping local communities.

This course provides an interdisciplinary program with teaching, learning, research and development activities ranging across and beyond the faculty. It is informed by the research and capacity building activities of both the UTS Centre for Local Government and the Australian Centre of Excellence for Local Government. An education program is developed to match the requirements of each participant's individual requirements, and subjects can be studied in the workplace, through intensive block release, or in some cases through online delivery mode. The program provides graduates with an evidence-based learning approach to build a high level of influence and leadership in their local government workplace.

Course aims

Graduates of this course have a sound understanding of current issues faced in the local government environment, as well as an ability to relate this knowledge back to their own workplace. They have enhanced knowledge and skills in various technical aspects of local government practice, as well as an understanding of the theoretical background of leadership, management and organisational principles. Graduates also gain learning skills that allow them to continue their own professional development through short courses or further academic study.

Career options

Graduates are able to progress their careers as managers and leaders in councils.

Admission requirements

8cp

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course, applicants must have completed a graduate certificate or a graduate diploma or a similar level of qualification in local government. Applicants who do not possess such graduate qualifications must have sufficient professional experience in local government and must demonstrate evidence of meeting AQF Level 7 learning outcomes in local government.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who have completed relevant previous studies may apply to the course coordinator for credit recognition.

Course duration and attendance

The course is offered on a three-year, part-time basis with students undertaking one or two subjects a semester.

Course structure

Students must complete 72 credit points made up of 36 credit points of core subjects and 36 credit points of electives.

Course completion requirements

STM90795 Core subjects 36cp CBK90877 Options 36cp Total 72cp

Articulation with UTS courses

This course is part of an articulated program of study. Students can exit this course after completing:

- 24 credit points of specified subjects with a Graduate Certificate in Local Government Management (C11053) (see page 487)
- 48 credit points of specified subjects with a Graduate Diploma in Local Government Management (C06033) (see page 440).

C04258v1 Master of Business in Finance Extended

Award(s): Master of Business in Finance (MBus) CRICOS code: 077375K Commonwealth-supported place?: No Load credit points: 96

Course EFTSL: 2

Overview

The Master of Business in Finance provides a comprehensive range of skills and expertise expected of leading practitioners in the banking and finance sectors.

The finance program provides participants with the opportunity to acquire knowledge of finance theory and techniques for leading-edge professional practice purposes. The additional elective subject choices provide an opportunity to specialise more deeply in the finance discipline and to further enhance students' skills, professional practice, specialist knowledge and capabilities.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Applicants with a relevant graduate certificate must have completed it with at least a credit average.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course is two years of full-time or four years of part-time study.

Course structure

The course comprises 96 credit points, made up of eleven core subjects (totalling 66 credit points) plus elective subjects (totalling 30 credit points).

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Finance (C11027) (see page 479), the Graduate Diploma in Finance (C07021) (see page 458) and the Master of Business in Finance (C04048) (see page 359).

Professional recognition

This course covers a broad range of the specialist knowledge areas required to be ASIC RG146 registered. Completion of the course meets the education requirements of membership at the level of Certified Finance and Treasury Professional (CFTP). It also meets the educational requirements at the level of Senior Associate (SA Fin), in conjunction with work experience, at the Financial Services Institute of Australasia (FINSIA). The course has also been awarded postgraduate partnership status by CFA Institute (USA). The curriculum is closely tied to global professional practice and is well suited to students preparing to sit for CFA® (Chartered Financial Analyst®) program examinations.

C04259v1 Master of Business in Management Extended

Award(s): Master of Business in Management (MBus)

CRICOS code: 077377G

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The Master of Business in Management provides knowledge, skills and conceptual frameworks to enable students to identify and resolve complex issues that will characterise the working environments of senior managers in the future. Students acquire the conceptual and analytical skills necessary for successful management performance in a range of contexts, including the business, public and non-profit sectors, and a variety of professional settings.

The course provides students with knowledge and experiences to enhance their professional skills and understanding of the management of people, resources and organisational processes. An innovative, flexible structure provides students with maximum choice in selecting subjects and programs of study tailored to meet their personal and professional needs.

The additional elective subject choices provide an opportunity to specialise more deeply in the management discipline and to further enhance students' skills, professional practice, specialist knowledge and capabilities.

Course aims

The Master of Business in Management is designed to meet the needs of individuals, client organisations and professional bodies for management education.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

C04260v1 Master of Business in Human Resource Management Extended

Award(s): Master of Business in Human Resource Management (MBus)

CRICOS code: 077380B

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The Master of Business in Human Resource Management provides students with the in-depth knowledge and skills necessary to contribute at a senior level to their organisation's human resources and industrial relations functions.

The course is designed primarily for individuals who are currently employed, or show the potential for employment, at senior policy-making levels in the fields of human resource management, industrial relations, occupational health and affirmative action.

The additional elective subject choices provide an opportunity to specialise more deeply in the human resource management discipline and to further enhance students' skills, professional practice, specialist knowledge and capabilities.

Course aims

The course aims to provide leading-edge conceptual and practical understandings of human resource management in complex and unfamiliar workplace situations in order to facilitate management decision making.

Career options

Career options include positions in change management and general management, human resources, and organisational training and development.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583

overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

C04261v1 Master of Business in Marketing Extended

Award(s): Master of Business in Marketing (MBus)

CRICOS code: 077379F

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

The Master of Business in Marketing provides the opportunity for students to extend their knowledge in the areas of communications, sales management, the development and introduction of new products, business-to-business marketing, technology and marketing, as well as the legal constraints on and the ethical implications of marketing in Australia.

The marketing program provides contemporary theoretical marketing knowledge and the practical skills required for superior performance in Australian and international markets. The additional elective subject choices provide an opportunity to specialise more deeply in the marketing discipline and to further enhance students' skills, professional practice, specialist knowledge and capabilities.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants with a relevant graduate certificate must have completed it with at least a credit average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of eight subject exemptions, of which four core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course is two years of full-time or four years of part-time study.

Course structure

The course totals 96 credit points and consists of a combination of core subjects, specialised streams and elective subjects.

Course completion requirements

21878	Organisational Dialogue: Theory and Practice	6ср
24730	Marketing Strategy	6ср

C04262v1 Master of Arts in International Studies

Award(s): Master of Arts in International Studies (MAInternationalStudies)

UAC code: 940527 (Autumn semester)

CRICOS code: 043443F

Commonwealth-supported place?: No

Load credit points: 72 Course EFTSL: 1.5 Location: City campus

Note(s)

Students intending to complete the Master of Arts in International Studies are encouraged to enrol directly into this program rather than enrolling initially in the graduate diploma and transferring to this course. This assists students and UTS: International Studies with planning an appropriate sequence of subjects.

The in-country study component of this course has a higher subject fee. Refer to the fees calculator for details at:

www.sau.uts.edu.au/fees/calculators.html

Overview

The Master of Arts in International Studies is part of an articulated program of study in which students develop or enhance their knowledge of the language and culture of a country chosen from the range offered in the international studies program.

This course enables students from any disciplinary background to study a language and culture other than English and thus add an international dimension to their qualification. Students have the opportunity to spend a semester at a partner university in their country of study.

Course aims

The program aims to enable students to communicate competently in the language of their specialisation, learn about contemporary society in their chosen country of study, develop intercultural sensitivity, critically reflect on ethical issues in international research, and learn and apply a variety of interdisciplinary skills and knowledge to research contemporary issues and trends in international studies through a capstone in-country study experience.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

A minimum of two years' language study at an approved tertiary institution is recommended, but not required. Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have successfully completed the Graduate Diploma in International Studies (C06106) (see page 453) are eligible for credit recognition for completed subjects (48 credit points).

Course duration and attendance

The course is offered on a one-and-a-half-year, full-time or equivalent part-time basis.

Note: international students in Australia on a student visa are required to undertake full-time (FT) study as a condition of their visa.

Course structure

The course totals 72 credit points of study and focuses on developing or extending students' experience of language and culture. There are three compulsory components: a country major choice block which includes two semesters of study of a language and culture other than English, a contemporary society subject, and one semester studying overseas; the Research in International Studies subject; and two elective subjects.

Students can focus on one of the following countries or majors: Argentina, Canada (Québec), Chile, China, Colombia, France, Germany, Italy, Japan, Latino USA, Mexico, Spain or Switzerland.

Students may select subjects beyond the lists of elective subjects with the approval of the graduate adviser. Not all subjects are available each semester.

Full-time students undertake 24 credit points a semester. Part-time students should undertake 16 credit points a semester.

Overseas study

Students may spend a semester overseas at an institution of higher education in the country of their language and culture major. The cost of travel between Sydney and the student's place of study overseas are paid by UTS. Visa fees are also paid by UTS and students are covered by the UTS Overseas Insurance Policy. Students must pay the costs of accommodation and other living expenses during the period of in-country study.

C04266v1 Master of Animation

Award(s): Master of Animation (in name of major) (MAnim) UAC code: 940109 (Autumn semester, Spring semester)

CRICOS code: 079734J

Commonwealth-supported place?: No

Load credit points: 96 Course EFTSL: 2 Location: City campus

Overview

This course is designed and developed for film and television graphic artists, special effects engineers, computer and simulator game designers, traditional and experimental animators, and visual designers. It combines coursework, research and project work in traditional film animation, 2D and 3D digital animation, game design, motion capture and other specialised areas of animation studies. The course offers a depth of research and innovation through concentrated specialisation in animation or game design.

The course involves a cross-disciplinary study of animation offered by three course areas: Information Technology, Communication, and Design, Architecture and Building. It reflects their teaching strengths in digital design, animation, programming and production. It is the first postgraduate course in Australia to offer a master's rather than a major in animation.

Course aims

The course comprises a combination of coursework, research and project work. Coursework areas include traditional film animation, 2D and 3D digital animation, graphic visualisation, object-oriented programming and animation studies, culminating in the production of a short animated work. Animation production is undertaken as project work in the final semester and provides an opportunity for students to explore an area of particular interest or professional benefit. This may be undertaken as individual work or as part of a collaborative team.

Career options

Career options include positions in animation, including animation for web, architecture and character design; computer game software design; experimental animation; feature film production; film and television graphics; special effects; and storyboard design.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in an area of animation, design, media studies, production, information technology or visual arts. Applicants must also have a demonstrated interest in animation design, animation studies or animation production. Applicants with considerable professional experience but without formal qualifications may be admitted to the course on the basis of their professional experience.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Applicants must submit:

- a showreel of one or more animated/moving image works not longer than 10 minutes in total viewing time that demonstrates their capabilities in animation and/or video/film. The showreel should be on DVD (able to play in all regions) and in an accessible file format, e.g. QuickTime/AVI or Flash (.swf only). Alternatively, showreels viewable as a linked URL are also accepted. Applicants should include a list of the works and a brief synopsis (not more that 50 words each) for each work/sequence. If applicants worked collaboratively on the works/sequences, they should indicate their role in the creation of the work/sequence.
- a print portfolio of images that demonstrates other aspects of their ideas and skills for animation and filmmaking. It may include drawings, illustrations, storyboards, the design of 3D objects and visualisations, photomedia, scripts, and other forms of visual expression that explore the moving image. The portfolio should consist of a maximum of 10 pages in either A4 printed form or as an Adobe PDF Portfolio placed onto the showreel disc or linked to the URL.
- a CV clearly articulating their design-related experience, with a personal statement that should be a maximum of 300 words and must address the reasons for wishing to undertake a Master of Animation, in either printed form, or as an Adobe PDF file placed onto the showreel disc or linked to the URL.

Course duration and attendance

The course may be completed in two years of full-time or equivalent part-time study.

Course structure

The course comprises 96 credit points of study, made up of:

- 4x6-credit-point introductory subjects (totalling 24 credit points) to be completed prior to entry into the first of the studio major subjects
- 30 credit points of core subjects, 24 credit points of project subjects and 18 credit points from an approved program of elective subjects.

Each student is assisted by the course coordinator to develop a pattern of study best suited to their needs.

C06006v4 Graduate Diploma in Property Development

Award(s): Graduate Diploma in Property Development (GradDipProDev) UAC code: 940101 (Autumn semester, Spring semester)

CRICOS code: 066575D

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Property Development is designed for both property practitioners and graduates in other fields who wish to extend their qualifications and expertise in property development and management. Graduates have a commitment to professionalism in the property sector.

This course is for property professionals who want to upgrade their qualifications or expertise, or for those who wish to enter the property industry. Property development and planning students study a common first year, which develops an understanding of how to balance private and public interests in urban development.

Course aims

This course is focused on development and delivered with a practical focus. It provides a thorough and advanced grounding in all aspects of the property development process, markets and institutions, including the political, managerial, legal and physical systems which contribute to the effective management and development of property assets, property investment portfolios and development proposals. It is designed to provide valuers and other property practitioners with opportunities to enhance their qualifications and expertise, and provide professionals from other fields with an understanding of property development and investment issues and techniques.

Career options

Career options include positions in banking and government instrumentalities, finance, management and development, and property investment.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Admission is at the discretion of the course director. If applicants are not graduates from the UTS Graduate Certificate in Property and Planning (C11001) (see page 475), they must possess an advanced diploma in valuation or equivalent qualification. Applicants may also be required to provide proof of professional experience.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course duration is one year of full-time or two years of part-time study.

Spring semester

All subjects are offered in intensive blocks. The attendance pattern for each subject is generally two separate two-and-a-half-day blocks, usually held over a Thursday evening, Friday and Saturday.

Course structure

Students must achieve a total of 48 credit points, comprising 36 credit points of core subjects and 12 credit points of electives. With the approval of the director of program, students may substitute one subject with any other postgraduate property subject.

Award(s): Graduate Diploma in Business Administration

(GradDipBusAdmin) CRICOS code: 001102G

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Business Administration provides a basis for the development of a career in management for graduates who have not previously undertaken an administrative studies degree course.

Course aims

General management skills are developed to provide expertise in strategic thinking, critical analysis, developing and implementing business plans, decision-making under uncertainty, understanding organisational dynamics, effective communication and promoting change.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of five subject exemptions in the Graduate Diploma in Business Administration, of which two core subjects can be approved from prior undergraduate study.

Course duration and attendance

The course duration is one year of full-time or two years of part-time study.

Course structure

The course comprises seven of the core Master of Business Administration subjects, plus one elective, totalling 48 credit points of study.

Course completion requirements

C06017v6 Graduate Diploma in Event Management

Award(s): Graduate Diploma in Event Management (GradDipEM)

CRICOS code: 046112A

Commonwealth-supported place?: No

Load credit points: 48

Course EFTSL: 1

Location: City campus, although some subjects may be available at Kuring-gai campus.

Overview

The Graduate Diploma in Event Management is designed to develop high-level management skills and knowledge sufficient to allow students to manage or play a significant role in the management of large-scale events.

The course enhances students' professional competence, personal development and ability to engage in critical thinking by offering a combination of core subjects associated with the areas of event creation, management, marketing and accounting.

Course aims

The aim of the course is to develop knowledge, understanding and professional management skills relevant to the organisation, planning, marketing and operation of various forms of events in both Australian and international contexts.

Career options

Career options include festival organiser, conference organiser/ meeting planner, charity event coordinator, sport event manager, hotel/resort/cruise ship event coordinator, exhibition organiser, venue manager and event creative director.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The equivalent qualification required is a bachelor's degree in any discipline or satisfactory completion of a relevant graduate certificate.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of five subject exemptions in the Graduate Diploma in Event Management, of which two core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course duration is one year of full-time or two years of parttime study.

The Event Management program is offered at City campus, although some subjects may are offered at Kuring-gai campus. Some subjects may be offered in intensive mode.

Course structure

The course comprises 48 credit points, consisting of eight core subjects.

Course completion requirements

C06033v4 Graduate Diploma in Local Government Management

Award(s): Graduate Diploma in Local Government Management (GradDipLGM)

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s

This course is not offered to international students.

Overview

Today's local government manager must have a high level of professional expertise together with a broad range of managerial skills and a sound understanding of the special characteristics of local government. This course is tailored to the local government environment, allowing managers to meet their differing professional needs while keeping up-to-date with the latest issues.

The course offers the opportunity to build an education program that responds to individual needs as it allows students to develop a study plan that matches the requirements of their professional development. Subjects can be studied in the workplace, through intensive block release or, in some cases, at a university or college closer to home. The program can also be used as a stepping stone to a Master of Local Government (C04257) (see page 433).

Course aims

The course aims to provide students with knowledge, skills and competencies in the principles and practices of local government management, with particular reference to their own organisation. Through the course, students have access to a combination of both general and specialist study units via a range of flexible delivery modes. Students develop the learning skills that allow them to continue their own professional development through short courses or further academic study.

Career options

Career options include local government manager in councils.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Enrolment is also available to people who do not have a degree but who can demonstrate substantial relevant work experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who have completed relevant previous studies may apply to the course coordinator for credit recognition.

Course duration and attendance

This course is normally offered on a four-year, part-time basis, with students undertaking one subject a semester.

In some circumstances, students may complete two subjects a semester and therefore complete the course in two years.

Course structure

The course totals 48 credit points, made up of eight subjects.

Course completion requirements

C06037v4 Graduate Diploma in Journalism

Award(s): Graduate Diploma in Journalism (GradDipJournalism) UAC code: 940501 (Autumn semester, Spring semester)

CRICOS code: 032351A

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Journalism is part of an articulated program of study for people who want to start a journalism career and for experienced journalists wanting to broaden their skills and professional technological expertise and refresh the intellectual basis of their practice.

This is the only program of its kind in Sydney, where the Australian media is increasingly concentrating. The journalism staff at UTS has a record of excellence in professional practice reflected in media contacts. In addition, the course has close links with the Australian Centre for Independent Journalism, which provides a professional setting for student work.

Course aims

Graduates of the program:

- have strong research and reporting skills
- have a knowledge and critical understanding of the media
- are equipped with the necessary skills to either enter professional practice in the media or continue with additional skills and intellectual depth
- strive to promote the important role of professional and ethical journalism in the service of the public, and
- have an understanding of the role of the media in local, regional, national and global contexts.

Career options

Career options include reporter or editor in local, corporate, national or international print or broadcast media organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who successfully completed the graduate certificate in the articulated program are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is one year of full-time or one-and-a-half years of parttime study.

Course structure

The course totals 48 credit points of study, made up of 24 credit points of core subjects and 24 credit points of electives.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points

Course completion requirements

CRICOS code: 032361K

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Creative Writing is part of an articulated program designed to meet a range of needs for people who want to start a career in writing and for experienced writers wanting to further develop their theoretical knowledge and skills.

Course aims

Students develop:

- both general and specific skills in writing across a range of genres, studying one genre in depth or exploring the potential of a range of genres and media
- an ability to develop and critically revise their own work
- an understanding of the relationships of writing practice and publication across a range of contemporary cultural forms
- a critical knowledge of cultural and aesthetic debates, and
- an ability to think creatively and critically about, and contribute to, developments in cultural industries.

Career options

8cp

8cp

Career options include advertising, computing, freelance writing and editing, journalism, media research, publishing, scriptwriting, and editing in community organisations or government departments.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

 $The \, English \, proficiency \, requirement \, for \, international \, students \, or \, local \,$ applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who successfully completed either of the graduate certificates in the articulated program are eligible for credit recognition for completed subjects.

Course duration and attendance

The course duration is one year of full-time or equivalent part-time study.

Course structure

The course totals 48 credit points, consisting of three core subjects and three electives. Students may select subjects beyond the list of elective subjects with the approval of the graduate adviser. Not all subjects are available each semester.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester

C06058v7 Graduate Diploma in Information Technology

Award(s): Graduate Diploma in Information Technology (GradDipInfTech) UAC code: 940603 (Autumn semester, Spring semester)

CRICOS code: 001117A

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

This course provides a broad introduction to the fundamental aspects of information technology and is primarily designed for those who have studied little or no IT in their previous degree.

Students gain the necessary knowledge and skills to equip them for a career in IT. As well as gaining a broad foundation, students are able to choose elective subjects from a wide range of options.

Career options

Career options include database manager, e-business developer, information systems manager or systems analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course an equivalent degree can be from any discipline (as applicants for this program may apply as a non-IT graduate or an IT graduate).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Applicants with a recognised bachelor's degree in computing or information technology (or equivalent) may apply for credit recognition equivalent to the 24-credit-point Graduate Certificate in Information Technology (C11142) (see page 499).

Course duration and attendance

The course duration is one year of full-time or two years of parttime study.

Course structure

The course totals 48 credit points of study and consists of five core subjects and 18 credit points of electives selected from a defined list.

Course completion requirements

Select one of the following:	: 2	24cp
STM90695 Core subje	ects 24cp	-
CBK90802 Choice	24cp	
CBK90803 Choice	1	18cp

C06060v7 Graduate Diploma in Information Technology Management

Award(s): Graduate Diploma in Information Technology Management (GradDipInfTechM)

UAC code: 940613 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

This course is not offered to international students.

Overview

This course focuses on the role of technology in the strategic leadership of organisations. It provides a well-balanced selection of subjects, drawn from advanced information technology and business domains, in an integrated program that is relevant to the current and future demands of the IT industry and business organisations.

IT professionals who have aspirations to senior IT roles and/or business leadership positions in organisations benefit from this course. Graduates are able to contribute constructively to the effective utilisation of information technology with respect to the strategic leadership of an organisation. IT managers who already have significant levels of experience are challenged by this course and gain new perspectives on the effective leadership of organisations in the digital era.

Course aims

The course aims to develop:

- the professional skills necessary for successfully undertaking strategic leadership roles in a variety of organisational contexts, and
- a conceptual and analytical understanding of an organisation's needs in a dynamic and challenging global knowledge economy.

Career options

Graduates can be employed in the full range of organisations - private, public and community sector organisations. They can prepare to move from a senior IT management position into the CIO (chief information officer) role.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous bachelor's qualifications must be in information technology or commerce, and applicants must have a minimum of five years' professional work experience in the IT industry plus some supervisory experience. Applicants who have successfully completed the Graduate Certificate in Information Technology Management (C11138) (see page 498) must have passes in all subjects and a credit average over the entire course.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a two-year, part-time basis.

Course structure

Students complete 48 credit points of study, consisting of five core subjects and three electives.

Course completion requirements

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

UTS is a leading provider of postgraduate language and literacy courses with the longest tradition of adult basic education (ABE) teacher training of any university in NSW.

This course is for people who wish to gain an initial specialist qualification as an adult basic education practitioner. It provides graduates with a widely recognised specialist teaching qualification that enables them to work in the field of adult literacy and numeracy education in both the public and private sectors and registered training organisations. The course includes two practicums and a range of subjects that integrate relevant theoretical perspectives on adult basic education with practical teaching and learning applications.

Course aims

The course aims to provide students with:

- a sound understanding of practices and policies in teaching literacy and numeracy to adults
- up-to-date teaching and learning strategies
- skills in designing, implementing and evaluating a variety of learning activities and curricula, and
- theoretical approaches to literacy and numeracy education.

Career options

Career options include adult basic education practitioner in community colleges, corrective services, AMES, TAFE and public and private adult education institutions that design and deliver programs for adults to learn and build on basic literacy and numeracy skills; provide learner support for students in VET programs; and design and deliver workplace literacy and numeracy programs.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

C06097v1 Graduate Diploma in Mathematics and Statistics for Business and Finance

Award(s): Graduate Diploma in Mathematics and Statistics for Business

and Finance (GradDipMathStat)

UAC code: 940741 (Autumn semester, Spring semester)

CRICOS code: 065346C

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

Holders of the UTS Bachelor of Science in Mathematics or Bachelor of Science in Statistics degree or equivalent are not eligible for admission to this course. Instead, they should consider the Graduate Certificate in Mathematics (C11210) (see page 509).

Overview

A sound knowledge of mathematical and statistical methods is in ever growing demand in various government organisations, ranging from defence to education, and in such diverse fields as finance and public health, construction industry and agriculture, manufacturing and transportation. Despite the demonstrated and continuing demand for specialists trained in mathematics and statistics, most university graduates do not acquire the required knowledge in their bachelor's degrees.

This course is designed for applicants who need more mathematics and/or statistics in their everyday work or who wish to broaden their career choices.

Course aims

This course aims to provide a solid mathematical and statistical background by means of a flexible study program that can be tailored to suit university graduates who need this knowledge in their work or plan to pursue further studies.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants are expected to have knowledge in mathematics comparable with the following UTS Mathematical Sciences foundation stream subjects:

- 35101 Introduction to Linear Dynamical Systems
- 35102 Introduction to Analysis and Multivariable Calculus
- 35151 Introduction to Statistics

Applicants who do not satisfy this requirement should instead consider enrolment in the Graduate Certificate in Mathematics (C11210) (see page 509).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

6ср

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students can apply for exemption only from core subjects.

Course duration and attendance

The duration of the course depends on the choice of subjects and their availability. As a guide, minimum full-time attendance is one year of study and part-time attendance is two years of study. Applicants should be aware that subjects may require attendance at daytime classes. The current timetable is available at:

http://timetable.uts.edu.au

Course structure

Students are required to complete 48 credit points, comprising three core subjects and five electives (options). Elective subjects can be chosen from the list of options below but are not limited to it. Any elective which is not in the list of options below must be approved by the course director, postgraduate programs.

Many subjects offered by the Department of Mathematical Science have prerequisites. It is students' responsibility to check that they have the required knowledge specified by these prerequisites. Students are strongly advised not to enrol in any subject if they do not have knowledge equivalent to the subject's prerequisites.

C06099v1 Graduate Diploma in Intellectual Property

Award(s): Graduate Diploma in Intellectual Property (GradDipIP) UAC code: 940434 (distance) (Autumn semester, Spring semester) Commonwealth-supported place?: No

Load credit points: 36 Course EFTSL: 0.75 Location: City campus

Overview

UTS has established expertise and a reputation for providing courses relevant to the needs of the patent and trade mark professions. The UTS Intellectual Property program is the first at an Australian university that fulfils the entire educational requirements for registration as a trade marks attorney and patent attorney in Australia under the relevant regulations.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Course aims

This course provides graduates with an understanding of the principles of the registered trade mark system, the protection of unregistered marks and related forms of protection against misleading or unfair trading conduct in Australia. In addition, graduates understand the content and implication of a patent specification, enabling them to advise upon possible questions of infringement, validity and compliance.

Career options

Depending on the subjects taken, graduates may seek registration as a trade mark attorney and/or patent attorney in Australia. Arts administrators or media professionals may enhance career options through building expertise in the commercialisation or management of intellectual property assets. Other career options include: patent and trade marks attorney, IP lawyer, IP portfolio manager, policy maker and government regulator.

This course enables overseas registered attorneys to undertake the necessary subjects that the Professional Standards Board requires for Australian registration.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications can be in any discipline. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

UTS may grant successful applicants advanced standing or exemption from one or more subjects but the Professional Standards Board for Patent and Trade Marks Attorneys (PSB) has no authority to recognise, for the purpose of registration as a Patent Attorney or Trade Marks Attorney, such exemptions. Students intending to seek registration need to seek exemption from the PSB. Further information is available from:

The Secretary

Professional Standards Board for Patent and Trade Marks Attorneys

PO Box 200

Woden ACT 2606

telephone +61 2 6283 2345

fax +61 2 6285 1048

email mail.psb@ipaustralia.gov.au

www.psb.gov.au

Exemptions are generally not granted for subjects not primarily directed to Australian law.

Course duration and attendance

The course can be completed in one year of full-time or one-and-a-half years of part-time study. Students commencing in Spring semester may require an additional semester to complete the course.

Most subjects within this course can be studied by distance online and require no on-campus attendance. All lectures, tutorials, course materials and assessments are distributed by a combination of web-based technology and electronic media. Students conduct all communication with the lecturer by electronic means. A number of subjects are concurrently offered in traditional face-to-face, oncampus format.

Course structure

The course requires completion of 36 credit points of subjects. Subjects are timetabled annually, but not all subjects are offered every semester. The current timetable can be found at:

http://timetable.uts.edu.au

Course completion requirements

CBK90713 Choice

36ср Total 36cp

Articulation with UTS courses

Subjects undertaken within the Graduate Certificate in Trade Mark Law and Practice (C11130) (see page 497) or Graduate Certificate in Intellectual Property (C11229) (see page 518) are recognised within the Graduate Diploma in Intellectual Property (C06099) (see page 447). Students enrolled in either graduate certificate may apply to internally transfer to the graduate diploma program. Candidates are not awarded the graduate certificate but subjects undertaken are applied towards the graduate diploma program.

Professional recognition

Subject to final board approval, where applicants have a requisite tertiary qualification as stipulated by the Professional Standards Board for Patent and Trade Marks Attorneys, this course satisfies the educational requirements necessary for registration as a Registered Trade Marks Attorney in Australia.

Overview

In the Graduate Diploma in Integrated Communication, students develop specialised skills in integrated communication applicable to the private, not-for-profit and public sectors. Students enhance their knowledge of advertising and media relations and explore the relationship between public relations and marketing in integrated communication practice.

This course is suitable for either current practitioners in this field or for those wishing to specialise in this area of practice. Academic staff

8cp

8cn

involved in the course have substantial industry experience and have undertaken research in the field.

Course aims

Graduates of this course have:

- · advanced understanding of communication and its management
- the ability to synthesise communication theory and practice
- the ability to analyse, design, cost and evaluate an integrated communication strategy
- a sensitivity to ethical and legal issues related to communication
- a capacity to reflect on the roles and responsibilities of communicators
- the capacity to apply perspectives that are intercultural and global, and
- a sensitivity to issues of exclusion, equity and justice.

A full list of the graduate attributes of the course is available from UTS: Communication.

Career options

Career options include roles in public relations for the corporate sector, as well as those related to integrated marketing communication, corporate communication, fundraising, international communication, media liaison and public affairs.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have graduated with a UTS Bachelor of Arts in Communication (Public Communication) (C10248) (see page 266) may be granted up to one third of the postgraduate course in credit recognition. Other relevant qualifications are considered on a caseby-case basis.

Course duration and attendance

The course is offered on a one-year, full-time or equivalent part-time basis.

Course structure

This course totals 48 credit points of study consisting of three core foundation subjects (24 credit points) and three core subjects in the Integrated Communication specialisation (24 credit points).

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester

Overview

The Graduate Diploma in Communication Management explores foundation studies and skills for professional communication practice. It is designed for current and prospective communication professionals seeking a professional qualification and scholarly development in the broad field of communication management.

Academic staff involved in the course have substantial industry experience and have undertaken research in the field.

Course aims

Graduates of this course have:

- advanced understanding of communication and its management
- the ability to synthesise communication theory and practice
- the ability to analyse, design, cost and evaluate a communication strategy
- a sensitivity to ethical and legal issues related to communication
- a capacity to reflect on the roles and responsibilities of communicators
- the capacity to apply perspectives that are intercultural and global, and
- a sensitivity to issues of exclusion, equity and justice.

A full list of the graduate attributes of the course is available from UTS: Communication.

Career options

Career options include roles in the field of communication management such as public relations, communication advising, community relations, corporate communication, integrated communication, internal communication, internal communication, media liaison and public affairs.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who have graduated with the Bachelor of Arts in Communication (Public Communication) (C10248) (see page 266) may be granted up to one third of the postgraduate course in credit recognition. Other relevant qualifications are considered on a caseby-case basis.

Course duration and attendance

The course is offered on a one-year, full-time or equivalent part-time basis.

Course structure

This course totals 48 credit points of study consisting of three core foundation subjects (24 credit points) and three other communication management subjects (24 credit points). Two of the communication management subjects are compulsory and one is an elective.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Diploma in Communication Management, Graduate Diploma in Public Relations (C06103) (see page 451), Graduate Diploma in Integrated Communication (C06101) (see page 448), Graduate Diploma in Organisational Change and Communication (C06102) (see page 450) and the Master of Arts in Communication Management (C04254) (see page 429).

Professional recognition

Courses in the postgraduate program in Communication Management at UTS have been accredited with the Public Relations Institute of Australia (PRIA) for over 20 years. The Graduate Diploma in Communication Management is accredited with PRIA and graduates have an accelerated path to professional membership.

Other information

Further information is available from the UTS Student Centre on: telephone 1300 ask UTS (1300 275 887) or +61 2 9514 1222

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

Students intending to complete the Master of Arts in International Studies (C04262) (see page 436) are encouraged to enrol directly into it, rather than enrolling initially in the graduate diploma and transferring to the master's. This assists students and UTS: International Studies with planning an appropriate sequence of subjects.

Overview

The Graduate Diploma in International Studies is part of an articulated program of study in which students develop or enhance their knowledge of the language and culture of a country chosen from the range offered in the international studies program.

The program provides opportunities for students from any disciplinary background to study a language and culture other than English and thus add an international dimension to their qualification.

Course aims

The program aims to enable students to communicate competently in the language of their specialisation, learn about contemporary society in their chosen country of study, develop intercultural sensitivity, critically reflect on ethical issues in international research, and learn a variety of interdisciplinary skills and knowledge to research contemporary issues and trends in international studies.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

A minimum of two years' language study at an approved tertiary institution is recommended, but not required. Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a one-year, full-time or equivalent part-time basis.

Course structure

The course totals 48 credit points. There are three compulsory components: two semesters of study of a language and culture other than English and a contemporary society subject; the Research in International Studies subject; and two elective subjects.

Students can focus on one of the following countries or majors: Argentina, Canada (Québec), Chile, China, Colombia, France, Germany, Italy, Japan, Latino USA, Mexico, Spain or Switzerland.

Students may select subjects beyond the lists of elective subjects with the approval of the graduate adviser. Not all subjects are available each semester.

Full-time students undertake 24 credit points a semester. Part-time students should undertake 16 credit points a semester.

Course completion requirements

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Diploma in International Studies and the Master of Arts in International Studies (C04262) (see page 436). Students who successfully complete this course and who are admitted to the master's course are eligible for credit recognition for completed subjects (48 credit points).

Students who want to proceed to a period of in-country study must advise UTS: International Studies at least one semester prior to wanting to go overseas.

C07002v6 Graduate Diploma in Planning

Award(s): Graduate Diploma in Planning (GradDipPlan) Commonwealth-supported place?: No Load credit points: 48 Course EFTSL: 1 Location: City campus

Notels

This is an exit-only course. There is no direct admission to it. Current UTS students may be able to transfer into this course. Check with your faculty.

Transfer is only for students enrolled in the Master of Planning (C04007) (see page 353).

Overview

This course provides students with a thorough understanding of the economic, sociological, environmental and other theoretical and practical knowledge underpinning the governance in urban management and urban development. It has a strong focus on sustainable urban development.

With an engaged and practical approach, this course focuses on urban planning and development processes, sustainability and creative development control and enhances knowledge and skills in urban management, property development, urban design and environmental policy. Property development and planning students study a common first year, which develops a mutual understanding of how to balance private and public interests in urban development.

Course aims

Graduates of this course understand the nature and methods of planning and urban management and the interdependency of various urban policy fields, agencies and institutions that enable sound urban outcomes. They can responsibly participate in planning debates, apply sound and appropriate urban design principles, communicate at a superior level and constructively reflect on planning methods and practice.

Graduates also recognise and develop ethical, just and professional methodological approaches and practices.

Career options

8cp

Skills in planning and environmental law, development control, strategic planning, community planning and infrastructure management open up careers in government departments and agencies, local government, major development companies and private consulting firms.

Course duration and attendance

The course can be completed on a one-year, full-time basis.

Course structure

The course requires the completion of eight 6-credit-point subjects, totalling 48 credit points of study.

Course completion requirements

C07004v4 Graduate Diploma in Project Management

Award(s): Graduate Diploma in Project Management (GradDipPM)

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

This is an exit-only course. There is no direct admission to it. Current UTS students may be able to transfer into this course. Check with your faculty

Transfer is for students enrolled in the Master of Project Management (C04006) (see page 352).

Overview

With close industry contact, the course is delivered through block workshops designed to emulate project environments, giving students the opportunity to directly develop their ability to manage real projects. The program is rigorous, and is globally recognised for its tradition of excellence. The UTS program was the first Australian program to be accredited by the Project Management Institute's (PMI) Global Accreditation Centre. The foundation subjects are compatible with the structures used by the PMI and Australian Institute of Project Management (AIPM) to certify practitioners.

This program provides practice-based knowledge, skills and tools for the delivery of different types and sizes of projects and programs across all industry sectors, underpinned by theory and research. At the forefront of industry trends, the UTS program incorporates project complexity, program management, governance, reflective practice and leadership.

Course aims

- Successful graduates of the course can:select and critically apply relevant theory to practice
- develop and apply appropriate project management methodologies to suit different project and organisational contexts
- 3. demonstrate application of reflective practice

- communicate in a variety of forms across culturally diverse project and organisational contexts
- demonstrate the capacity to take a leadership role in project, program and portfolio management
- 6. demonstrate advanced-level skills in managing relationships between key stakeholders in a variety of contexts both in Australia and internationally
- exhibit an understanding of the application of ethical practice to project governance in a variety of settings both in Australia and internationally
- select and apply creative problem-solving skills to all phases of the project life cycle
- apply critical thinking, analytical and research skills to a range of project and program management contexts
- understand, select from and apply a range of systems thinking approaches to a variety of project and organisational contexts.

Career options

The course is highly regarded by industry as providing in-demand, 'professionally excellent' graduates. Its focus on leadership, program management and governance increases the employability of graduates at senior levels in many local and international industries, including banking and finance, construction and engineering, event management, government, health and IT.

Credit recognition

Applicants with a four-year degree in a related field of study may be given up to 24 credit points of exemptions.

Course duration and attendance

The course can be completed on a one-year, full-time basis.

Course structure

Students choose 48 credit points from a list of available subjects.

This course is not offered to international students.

Overview

The Quantitative Finance program provides the opportunity to acquire the detailed specialised knowledge and the professional competency required to work as a quantitative finance analyst in the modern finance industry.

This course provides the core knowledge of the modern financial instruments and the fundamentals of the specialised quantitative finance skills required for a basic professional competency in quantitative finance.

Career options

Career options for graduates include positions as quantitative analysts, risk management analysts, quantitative structures, quantitative developers, forecasters, traders, investment analysts and financial engineers across investment banks, trading banks, hedge funds, investment management companies, consulting companies, energy and mining companies, regulatory bodies and government organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in finance or with a strong mathematical background. Entry to the course is at the discretion of the course director.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students may be granted a maximum of five subject exemptions in the Graduate Diploma in Finance, of which two core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course duration is two years of part-time study.

Course structure

The course totals 48 credit points, comprising core subjects and options.

Course completion requirements

C07027v7 Graduate Diploma in Tourism Management

Award(s): Graduate Diploma in Tourism Management (GradDipTourismM) CRICOS code: 006583A

Commonwealth-supported place?: No

Load credit points: 48

Course EFTSL: 1

Location: Kuring-gai campus, although subjects may also be selected from among those offered at City campus (Haymarket)

Overview

The Graduate Diploma in Tourism Management is designed to develop critical, interpretive and problem-solving skills, and to provide a broad coverage of the tourism management field and some opportunity for studying areas of specific interests.

The course has been developed to meet the demand for professionals with a high level of management expertise.

Course aims

Throughout the course, emphasis is placed on the acquisition of strategic planning skills for tourism development, management and marketing.

Career options

Career options include management, marketing and policy-analysis roles in national and regional tourism offices, hotels, airlines, tour operators, tourist attractions and events.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The equivalent qualification required is a bachelor's degree in any discipline or satisfactory completion of a relevant graduate certificate.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of five subject exemptions, of which two core subjects can be approved from prior undergraduate study.

Course duration and attendance

The course is one year of full-time or two years of part-time study. It is offered at Kuring-gai campus, although some subjects may be offered at City campus.

Course structure

The course comprises 48 credit points, consisting of eight subjects.

Course completion requirements

Overview

The Graduate Diploma in Arts Management builds on the graduate certificate to develop students' critical, interpretive and problem-solving capabilities. It provides a solid grounding in the fundamentals of arts management and cultural policy, while providing room for some specialisation and the development of specific interests.

The course offers a combination of core management subjects specifically designed for the arts environment. The Graduate Diploma is an extremely popular course and is held in high regard by the arts industry.

Course aims

The course provides both theoretical and applied knowledge relevant to Australia's contemporary arts and cultural environment and related industries.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The equivalent qualification required is a bachelor's degree in any discipline or satisfactory completion of a relevant graduate certificate.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Commonwealth-supported place?: No

Load credit points: 48

Course EFTSL: 1

Location: Kuring-gai campus

Notels

This course also has a mid-year intake.

Overview

This course is designed to provide registered nurses with a wide range of options to further their study in the field of nursing. Students gain knowledge, expertise and competencies in one of many clinical specialty areas, clinical teaching or clinical management (international students must undertake the Clinical Teaching sub-major or the Clinical Management sub-major).

Students can customise their program to meet personal learning needs or workplace requirements in order to further their career with sub-majors available in acute care nursing, anaesthetics and recovery room nursing, child and family health nursing, children's nursing, clinical management, clinical teaching, critical care nursing, diabetes education and management, mental health nursing, neonatal nursing, neuroscience nursing and perioperative nursing.

Course aims

This course aims to:

- develop the student's career as a clinician, manager or educator
- · extend and enhance existing skills
- help build confidence and leadership skills
- provide academic experience and qualification
- enhance career prospects.

Career options

Career options include advanced clinical practice, nursing management and nursing education, in both clinical and community areas.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must hold a current Authority to Practise, or be a registered nurse in their own country or place of residence and hold a current Authority to Practise.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx Students should ensure that details of their registration are up-todate on this register.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a one-year, full-time or two-year, part-time basis.

Course structure

Students must complete a total of 48 credit points (eight subjects).

The course comprises two core subjects, one sub-major (in a clinical specialty, clinical teaching or clinical management) and two elective subjects.

Note: International students can only undertake the Clinical Teaching sub-major or the Clinical Management sub-major.

Course completion requirements

Notels

This course offers a mid-year intake for local and international students.

Overview

This is an intermediate-level course in health services management and aims to expand students' knowledge and future career opportunities. The course develops students' knowledge and skills, which leads to an enhanced capacity to plan and manage health services.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Course aims

This course is designed to prepare new, aspiring, and middle health managers for roles in health services management in a variety of settings.

Career options

Career options include positions in health authorities, hospitals, primary and community care, aged care services, and other healthcare facilities in the public, private, not-for-profit, government and non-government health sectors.

6ср

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who do not have an undergraduate degree but who have extensive relevant work experience in a health or human services field may also be considered eligible.

Applicants must have at least a minimum of one year, full-time (or part time equivalent) experience in a medium to large organisation. Health or human services experience is preferred. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.

 $The \ English\ proficiency\ requirement\ for\ international\ students\ or\ local$ applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

C07070v5 Graduate Diploma in Midwifery

Award(s): Graduate Diploma in Midwifery (GradDipMid) UAC code: 940805 (CSP) (Autumn semester) Commonwealth-supported place?: Yes

Load credit points: 48 Course EFTSL: 1 Location: City campus

Note(s)

Students admitted to the Graduate Diploma in Midwifery before 2012 should refer to the course entry in the 2011 handbook.

Limited commonwealth-supported places are available.

Applications are now open for the Autumn semester 2014 intake.

This course is not offered to international students.

Overview

This course is designed to meet the graduate needs of registered nurses wishing to gain registration to practise in the area of midwifery. It provides a broad theoretical and clinical study in midwifery, and includes a discussion of professional, sociopolitical and ethico-legal issues related to the family, and research skills that enhance midwifery practice and interpersonal processes. Students undertake concurrent employment as a student midwife in an accredited midwifery unit.

Midwives are in high demand at present, in both the public and private health systems, and the current shortage is expected to continue for some time.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

- Applicants must be a registered nurse in Australia.
- Applicants are required to apply for employment in a midwifery student position through the centralised recruitment process. This process is administered by the New South Wales Department of Health Nursing and Midwifery Office. Applications open in July and close in August.
- In addition, applicants need to apply to UTS for a position in the Graduate Diploma in Midwifery. This is either through the Universities Admission Centre (UAC) or directly to the University on specific postgraduate information evenings (check UTS website for details). Acceptance in the Graduate Diploma in Midwifery at UTS is dependent on the applicant securing employment as a student midwife.
- Applicants also need to be available to attend classes from early February, for the first week of midwifery classes.
- Students' current nursing registration will be confirmed via the National Register of Practitioners at: www.ahpra.gov.au/Registration/Registers-of-Practitioners.
- Students should ensure that details of their registration are upto-date on this register.
- Applicants are selected on academic merit based on their grade point average.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

This course is offered over a 14-month, full-time period.

Course structure

Students must complete a total of 48 credit points, comprising eight compulsory subjects.

Industrial training/professional practice

The course requires concurrent employment in an accredited midwifery unit for one year (four days a week) in order for students to meet the requirements to gain midwifery registration with the National Board of Nursing and Midwifery.

Course completion requirements

92873	Midwifery Practice 1	6ср

C07073v5 Graduate Diploma in Australian Law

Award(s): Graduate Diploma in Australian Law (GradDipAustLaw)

UAC code: 940408 (Autumn semester, Spring semester)

CRICOS code: 016613F

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1

Location: City campus

This course is not appropriate for applicants who are already admitted to practise as a lawyer in NSW.

This course is designed to permit appropriately qualified lawyers from jurisdictions outside Australia to satisfy the academic requirements for admission as a lawyer of the Supreme Court of NSW.

Each student's course is individually tailored to their academic requirements, as assessed by the Legal Profession Admission Board of the Supreme Court of NSW (LPAB).

Career options

Career options include lawyer in NSW within a government or corporate department, private law firm or community law centre, providing students also undertake a course in practical legal training (PLT).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold a bachelor's degree in law from outside Australia or be admitted as a lawyer in a jurisdiction outside Australia.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Before lodging an application, applicants must contact the LPAB to determine the subjects they are required to complete to be eligible for admission to practise in NSW. Further information about admission is available at:

www.lawlink.nsw.gov.au/lpab

Notification from the LPAB, listing the subjects required, must accompany the application for admission into the course.

Assumed knowledge

Appropriately qualified knowledge of a legal system.

Course duration and attendance

Full-time students can complete this course in a minimum of one year. Part-time students can complete the course in a minimum of one-and-a-half years.

Course structure

The course requires completion of a minimum of 48 credit points. However, each candidate's course of study varies depending on the number of subjects they are required to take in order to be admitted to practice in NSW. Subjects other than those listed below may be substituted depending on what subjects the LPAB requires applicants to complete to be eligible for admission to practice.

Industrial training/professional practice

Applicants should note that in order to gain admission as a lawyer of the Supreme Court of NSW they may also be required to undertake a course in PLT, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Course completion requirements

CBK90942 Options

48cp Total 48cp

Professional recognition

This course may satisfy the requirements for admission to the Supreme Court of NSW. The Legal Profession Admission Board may recognise subjects attempted within this course. Applicants are advised to obtain written confirmation of the LPAB in recognition of subjects attempted within this course prior to enrolling.

C07074v5 Graduate Diploma in Legal Studies

Award(s): Graduate Diploma in Legal Studies (GradDipLS)

UAC code: 940407 (Autumn semester, Spring semester, Summer session)

CRICOS code: 021718K

Commonwealth-supported place?: No

Load credit points: 36 Course EFTSL: 0.75 Location: City campus

Note(s)

The Graduate Diploma in Legal Studies is not a professional legal qualification. Applicants seeking to be admitted to practice should refer to the Juris Doctor (C04236) (see page 405) or the Bachelor of Laws (C10124) (see page 182). Students may apply for some subjects undertaken within the Graduate Diploma in Legal Studies to be credited towards these degrees.

Overview

The Graduate Diploma in Legal Studies meets the growing need for non-law graduates working in the public and private sectors to have a thorough understanding of the legal and regulatory framework in which they operate. This includes an understanding of foundational legal concepts such as contract law and tort law, methods of legal research and theory, as well as the opportunity to sample specialist legal areas such as compliance and intellectual property law.

The course attracts students from a wide variety of backgrounds interested in expanding their skill portfolio to include an understanding of the legal framework, including professionals from the insurance, human resources, banking and finance industries, managers and administrators, and HSC legal studies teachers.

Career options

This course particularly benefits accountants and auditors, business development managers, compliance managers, engineers and architects, financial advisers and planners, IT professionals, law enforcement officers, paralegals, policy officers in the public, private and non-profit sectors, property developers and public sector managers and administrators (especially those who work in Department of Foreign Affairs and Trade, the Attorney-General's Department and Treasury).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in a discipline other than law. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one year of full-time or one-and-a-half years of part-time study. Subjects may also be available in Summer session, allowing accelerated progression.

The course is offered in a variety of attendance patterns, including intensive block attendance and weekly on-campus evening classes.

Course structure

The course requires completion of core subjects, including two compulsory introductory subjects and a choice of two further foundation subjects (30 credit points), plus a further option subject (6 credit points). (Refer to the course entry in the UTS: Handbook 2013 for the pre-2014 course structure. For a current listing of subjects in each course, refer to the study package directory).

Core subjects are timetabled every semester and option subjects are regularly timetabled but not all option subjects listed are offered in any one semester. Timetabled subjects are offered subject to sufficient student interest. The current timetable can be found at:

http://timetable.uts.edu.au

Course completion requirements

Award(s): Graduate Diploma in Interactive Multimedia (GradDipIMM) UAC code: 940606 (Autumn semester, Spring semester)

CRICOS code: 029621K

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

This course is designed for students from a wide variety of disciplines who may or may not already be working in areas of multimedia. For this reason, it contains a considerable number of elective subjects to enable students to gain new areas of knowledge or broaden existing

While this program is managed by the Faculty of Engineering and Information Technology, it is a joint program between the Faculty of Engineering and Information Technology, the Faculty of Arts and Social Sciences, and a number of other teaching faculties.

The program is designed to educate the innovators and future leaders of the various professions working in multimedia. Graduates acquire the fundamentals in multimedia, underpinning an up-to-date, flexible set of production skills in their own specialised area.

Course aims

A defining characteristic of multimedia education at UTS is the integration of theory and practice in all of the relevant disciplines and professions. The course aims to develop students' professional skills for direct application in the workplace, while providing a solid overview and understanding of the social, historical and industrial role of multimedia communication technologies. Graduates are prepared for a career in a rapidly growing and changing industry.

Career options

30ср

6ср

Career options include positions in digital media, the mobile web, information architecture, interaction design, new media, web design, web development and web project management. Various events are organised throughout the year to showcase student work and give students the opportunity to speak with industry professionals, including recruiters.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Alternatively, applicants can have a diploma from any field and substantial relevant professional experience, or substantial senior professional experience. Applicants with a three-year undergraduate degree (or equivalent), must also have either one year of relevant professional experience or a credit average or better in a Graduate Certificate in Interactive Multimedia.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Given the interdisciplinary focus and teamwork emphasis of this course, credit recognition and subject exemptions are not normally granted for other postgraduate study or work experience.

Course duration and attendance

The course is usually completed in one year of full-time or two years of part-time study.

Course structure

The course comprises 48 credit points of study and consists of four core subjects and four elective subjects (which may include core subjects for students intending to exit the program at graduate diploma level).

Industrial training/professional practice

Industrial training is available to both local and international students as a separate work-based learning course. Students can enrol into the Diploma in Information Technology Professional Practice (C20049) (see page 350) after completing a minimum of four core subjects. Students can be assisted in finding an internship, or may wish to have current relevant industry work experience recognised.

C07080v6 Graduate Diploma in Internetworking

Award(s): Graduate Diploma in Internetworking (GradDipInternetworking) UAC code: 940610 (Autumn semester, Spring semester)

CRICOS code: 043340B

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

This course is intended for computing science, information technology or engineering graduates with or without networking experience who wish to learn or extend their knowledge of networking and networking technologies. As students come from a variety of backgrounds, there is a degree of subject choice in the program to meet individual needs.

The Internetworking program provides practical, hands-on learning experience using resources provided by Cisco Systems for internetworking including routing, switching, security, wireless and VoIP. Advanced electives in internetworking, in addition to CCNA and CCNP preparation subjects, are available. The program covers all aspects of the organisational use of networks: design, implementation, security management, end systems and applications.

Course aims

The program aims to:

- meet the needs of industry for networking specialists
- target a number of industry-based certifications: CCNA (Cisco Certified Network Associate) and CCNP (Cisco Certified Network Professional)
- retrain IT professionals wishing to move into networking and internetworking
- provide a thorough and practical grounding in networking, network design, and administration and management, and
- provide a solid foundation for the writing of networked applications using Unix, Java and WWW technologies.

Career options

Career options include applications developer, client server architect, data communications, network administrator, network architect, network designer, network integrator, network systems programmer, programmer analyst, security architect or system support analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications are preferred in computing science, information technology, computer engineering, telecommunications, or a related discipline.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Two years' experience in networking or in another position in the IT industry is desirable. Applicants without work experience are also considered.

Credit recognition

Exemptions are granted only for subjects at graduate certificate level. There are no exemptions granted for the networking subjects 32524 and 32521 without the successful completion of the challenge test for each of the above. A challenge test is required even for holders of a CCNA or CCNP certification and those who have passed the CCNA curriculum in TAFE Certificate IV and/or Diploma. These challenge tests are always held in the week prior to the commencement of classes.

Course duration and attendance

The course duration is one year of full-time or two years of parttime study.

Course structure

The course totals 48 credit points of study, made up of four core subjects comprising the graduate certificate (a total of 24 credit points), a research preparation subject (6 credit points), plus a further 18 credit points chosen from a prescribed list. In some circumstances it may be possible to choose one elective from outside the list, provided it is approved by the course coordinator.

Course completion requirements

CBK90465 Internetworking choice	18cp
CBK90476 Internetworking choice	6cp
STM90729 Core subjects	24cp
- · · · · · · · · · · · · · · · · · · ·	Total 48cp

Course program

Below is a typical example of a full-time program commencing in Autumn semester.

Students wishing to take 32521 WANs and VLANs can enrol in this subject as either a core or an elective. 32521 has a prerequisite of 32524 LANS and Routing and therefore cannot be taken during the first semester of study. 32521 can be undertaken in the second semester in conjunction with one of the CCNP subjects with the course coordinator's approval.

A student wishing to undertake subjects in order to sit the Cisco CCNA certification exam must speak to either the course coordinator or the course administrator about subject choices and subject load.

Note: Electives are only offered in a particular semester (or year) if there is sufficient demand and the necessary resources.

C07107v3 Graduate Diploma in Information Management

Award(s): Graduate Diploma in Information Management (GradDipInfM)

UAC code: 940517 (Autumn semester, Spring semester)

CRICOS code: 032347G

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Information Management is designed for people who wish to provide information services to others, or who need to manage and use information effectively within organisations. In this course, graduates gain an understanding of the relationship between individuals and information and knowledge practices.

Course aims

Graduates have:

- demonstrated sophisticated information-handling skills appropriate for professional practice in diverse environments
- an understanding of the relationship between individuals and public/private recorded information and knowledge practices, tacit/explicit knowledge and how these can be valued, captured, structured and shared for effective use
- an understanding of contemporary issues, trends, innovations and forces for change in information practice as well as the broader political, policy and technological contexts
- an understanding of ethical practice and the ability to operate with integrity, rigour, self-reliance and cooperation in professional contexts
- demonstrated creative, critical, reflective problem-solving capabilities in the context of their professional roles and a commitment to lifelong learning.

Career options

Career options include information architect, information consultant, information content developer, information designer, information manager, librarian, media researcher or research officer.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification may submit a personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a one-year, full-time or equivalent part-time basis.

Course structure

The course consists of four compulsory subjects plus two electives chosen from a specified list. Students can choose an elective subject beyond the specified list only with the approval of the graduate adviser.

Students should undertake 57087 Knowledge Management and the Organisation or 57089 Information Research and Data Analysis as their elective subject if they are planning to articulate to the Master of Arts in Information and Knowledge Management (C04203) (see page 388).

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points

C07112v3 Graduate Diploma in Operations and Supply Chain Management

Award(s): Graduate Diploma in Operations and Supply Chain Management (GradDipOSCM)

CRICOS code: 055275G

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Operations and Supply Chain Management extends the Graduate Certificate and provides the opportunity for some specialisation.

Course aims

The course seeks to enhance professionals' understanding of the nature and contribution of supply chain and operational management functions in the organisational context.

Career options

Career options include management-level positions in service industry and areas traditionally associated with business operations management.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience or satisfactory completion of a relevant graduate certificate from UTS or other recognised higher education institution.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of five subject exemptions, of which two core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course is offered on a one-year, full-time or two-year, part-time basis.

Course structure

The course totals 48 credit points and consists of a combination of core and elective subjects.

C07113v2 Graduate Diploma in Human Resource Management

Award(s): Graduate Diploma in Human Resource Management

(GradDipHRM) CRICOS code: 055276F

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Human Resource Management provides an opportunity to study, at a professional level, those factors contributing to the complexity of decision-making in Australian and international employment relations.

Course aims

The Graduate Diploma in Human Resource Management is designed to meet the career needs of professionals with some experience in an area related to employment relations.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience or satisfactory completion of a relevant graduate certificate from UTS or other recognised higher education institution.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students may be granted a maximum of five subject exemptions, of which two core subjects may be approved from prior undergraduate study.

Course duration and attendance

The course may be completed in one year of full-time or two years of part-time study.

Course structure

The course totals 48 credit points and consists of a combination of core and elective subjects.

Course completion requirements

STM90737 Core subjects (HRM)	48cp
,	Total 48cp

C07115v1 Graduate Diploma in Architecture

Award(s): Graduate Diploma in Architecture (GradDipArch) UAC code: 940115 (Autumn semester, Spring semester)

CRICOS code: 065844G

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

This course is a tailored bridging course that provides a pathway into the Master of Advanced Architecture (C04240) (see page 410). It provides new skills and knowledge for students who have obtained professional qualifications prior to the introduction of digital software for design and documentation in architectural education (prior to 2000).

This is a highly flexible course which enables specialisation in either urban design or design technologies. Each student has a tailored program of architectural design and architectural practice subjects, based on their needs and experience.

The course equips graduates with skills of entrepreneurship, marketing, business and management necessary for leadership in the profession.

It provides a more flexible entry point for international students into the Master of Advanced Architecture (C04240) (see page 410).

Course aims

This course provides an alternative pathway for students from outside UTS, or with previous qualifications obtained prior to the use of digital software for design generation, building performance analysis and documentation, to gain the skills, knowledge and academic experiences that make them eligible to continue into the Master of Advanced Architecture (C04240) (see page 410) in either urban design or design technologies.

Through the core architectural design studio subjects, graduates are equipped with strategic thinking, spatial organisation and visual design skills, and develop further their verbal and written communication abilities. Project-based studio subjects explore research, design concepts, implementation strategies and presentation techniques. Through the core professional practice subjects, students develop their knowledge of all aspects of industry and practice management, furthering their capacity for leadership in the profession, locally and internationally.

Career options

Career options are focused on leading design and technical innovation roles in architectural and urban design practice.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants require a professional entry degree of five-years, full-time or equivalent from an accredited program in architecture or a four-year, full-time or equivalent degree from an accredited program in landscape architecture. All applicants must submit a portfolio of work demonstrating their design skills for examination in addition to a statement of interest in the course.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is offered on a one-year, full-time basis.

Course structure

The course totals 48 credit points of selected Master of Architecture subjects made up of two 12-credit-point subjects in the architectural design stream, two 6-credit-point architectural practice subjects and two 6-credit-point electives.

Award(s): Graduate Diploma in Teaching English to Speakers of Other Languages (GradDipTESOL)

UAC code: 940228 (CSP) (Autumn semester), 940229 (PDFP) (Autumn semester, Spring semester), 940230 (qualified teachers only distance CSP) (Autumn semester), 940231 (qualified teachers only distance PDFP) (Autumn semester, Spring semester)

CRICOS code: 008684B

Commonwealth-supported place?: Yes

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

UTS is a leading provider of postgraduate language and literacy courses, with academics who are published authors and internationally recognised experts in the field. This course meets the professional development needs of a wide range of English language teachers and educators teaching children, teenagers or adults. It caters for those seeking an initial teaching qualification in teaching English to adult speakers of other languages. It is also well suited to applicants who already possess a teaching qualification and wish to gain a specialist degree in the field as they are eligible for credit recognition.

Students study subjects that equip them with skills and knowledge to teach English in a variety of contexts, both local and international. The course features flexible study options with classes held at times suitable for full-time workers. It is designed by a team of experienced

TESOL professionals who are familiar with the full range of English language teaching contexts. The graduate diploma explicitly meets the needs of students and educators in the following contexts:

- working with migrants and Indigenous students across all levels of education
- teachers wishing to change discipline areas
- teaching English in countries outside of Australia
- international students wishing to study TESOL with the possibility of extending into the master's of TESOL.

Course aims

The course aims to produce TESOL teachers who are knowledgeable, reflective and engaging in their practice, have well developed interpersonal skills, are keen to put current developments in learning and teaching into practice, and have a commitment to lifelong learning.

Career options

Career options include a teacher of English as a second language in Australia or a teacher of English in overseas contexts (applicants are advised to check with potential employing bodies regarding employment requirements).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Local students

Local applicants apply through the Universities Admissions Centre.

International students

International students apply through UTS International.

Credit recognition

Graduates of the Graduate Certificate in Teaching English to Speakers of Other Languages (C11223) (see page 515) or equivalent teaching qualification (such as a primary or secondary school teaching qualification or an adult education teaching qualification) are eligible for 24 credit points of credit recognition.

Course duration and attendance

The course is offered on a one-year, full-time or two-year, part-time basis

Students who receive 24 credit points of credit recognition may complete the course by distance, but only if relevant distance subjects are selected.

The subjects in STM90529 are run in standard weekly mode for TESOL students, except for 010071 Professional Practice 2 Language Literacy and Numeracy, which is run in block mode.

Course structure

The course comprises 48 credit points, made up of four compulsory core subjects (totalling 24 credit points) and four elective subjects (totalling 24 credit points). Not all electives are offered every semester.

Industrial training/professional practice

There is a practicum placement for subjects 010070 Professional Practice 1 Language Literacy and Numeracy and 010071 Professional Practice 2 Language Literacy and Numeracy.

Course completion requirements

Overview

Unique in Australia, the course is intellectually vibrant, socially engaging, visionary, practice focused and actively linked to industry. This course is centred around building a design community network.

The course has two main components: specialised master classes led by a studio leader and industry partners and theory and technology subjects taught across the program.

The program focuses on and integrates research, industry collaboration, internationalisation and a design culture through the delivery of specialist, core and trans-disciplinary subjects. It provides a postgraduate education that is flexible in both its practice orientation and research integration.

With a focus on design evolution, innovative integration of new technologies, practice and student experimentation, the course is delivered by experienced studio leaders who are acknowledged leaders in the specific industries and professions.

Course aims

Designed to produce a balance between high levels of specialisation and lateral thinking, the program enables students to examine design from a trans-disciplinary perspective.

It enables students to explore design issues under the supervision of a practice leader, to learn new strategies and the application of research and theory. It supports best practices in postgraduate design education through learning and research strategies that critically examine design practice.

Graduates of this course are leaders in design and related industries through their expertise in product and service development. They are able to utilise strategic processes, creative tools and research skills for innovation in design.

The program provides a suite of subjects for postgraduate designers in the areas of interaction, strategy and enterprise, lighting design, technotextiles, and text and image. Common subjects explore related conceptual challenges and questions of visual expression in the quest to develop useful, usable and resonant designs. These include understanding and articulating the importance of 'user experience', the role of design in humanising information, the aesthetic and conceptual dynamics of effective communication, strategic thinking, and aspects of design management, branding and communication.

Career options

Graduates' careers are enhanced by high-level professional knowledge and skills for the workplace, with possession of specialised knowledge in advanced textiles, space and materials, interaction, sustainable design and innovation.

Course duration and attendance

The course is offered on a one-year, full-time or two-year, part-time basis

Course structure

Students must complete 48 credit points of subjects.

C07120v1 Graduate Diploma in Media Arts and Production

Award(s): Graduate Diploma in Media Arts and Production (GradDipMAP)

UAC code: 940504 (Autumn semester, Spring semester)

CRICOS code: 032358E

Commonwealth-supported place?: No

Load credit points: 48 Course EFTSL: 1 Location: City campus

Overview

The Graduate Diploma in Media Arts and Production is part of an articulated program in media arts and production that includes moving image, sound, digital media and interaction, and the interplay among these media.

Course aims

This course aims to provide students with core skills in moving image, digital media or sound production; expertise in one area of media arts and production; a capacity to think creatively and critically about, and contribute to, developments within the media industries; an awareness of industry practices in media production; the capacity to develop and critically revise their own work; and project management skills in the context of a media project.

Career options

Career options include various roles in a creative team across multiple modes of production and post-production of moving image, sound, digital media and interaction. Graduates have skills to develop their own media projects.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students who successfully completed the graduate certificate in the articulated program are eligible for credit recognition for completed subjects.

Course duration and attendance

The course is offered on a one-year, full-time or one-and-a-half-year, part-time basis.

Course structure

Students complete 48 credit points of study made up of three core subjects and three elective subjects.

Full-time students are required to undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points

C11001v5 Graduate Certificate in Property and Planning

Award(s): Graduate Certificate in Property and Planning

(GradCertPropPlan)

UAC code: 940102 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

This course provides a unique environment for planners and property developers to develop a mutual understanding of how to balance private and public interests in urban development. It has a strong focus on sustainable urban development.

The Graduate Certificate in Property and Planning is a foundation course for students who go on to study the Master of Planning (C04007) (see page 353) or the Master of Property Development (C04008) (see page 354). Both disciplines require close cooperation and this course shows students how to achieve better urban outcomes through closer partnerships between those building cities with those planning them.

Course aims

The course gives property development students an introduction to the rationale of planning and its legal framework, an introduction to the principles and practice of sustainable urban development and experience in developing a plan for a real-world urban renewal site.

It gives planning students a greater understanding of key issues in property development, such as valuation and feasibility.

The course provides students with a combination of experiential learning experiences, team working, exposure to practical skills development, together with a thorough understanding of economic, environmental and other knowledge underpinning urban management and development.

Career options

Career options are in banking and property investment, finance, government departments and agencies, local government, major development companies, management and development, and private consulting firms.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Appropriate first degrees include a bachelor's degree in planning, architecture, geography, economics, property economics, commerce, law, engineering and building. Students can hold an advanced TAFE diploma in a property-related discipline. Other qualifications may be accepted if supported by extensive relevant work experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-semester, full-time or one-year, parttime basis. It is delivered in face-to-face mode.

C11005v5 Graduate Certificate in Project Management

Award(s): Graduate Certificate in Project Management (GradCertPM) UAC code: 940104 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

With close industry contact, the course is delivered through block workshops designed to emulate project environments, giving students the opportunity to directly develop their ability to manage real projects. The program is rigorous, and is globally recognised for its tradition of excellence. The UTS program was the first Australian program to be accredited by the Project Management Institute's (PMI) Global Accreditation Centre. The foundation subjects are compatible with the structures used by the PMI and Australian Institute of Project Management (AIPM) to certify practitioners.

This program provides practice-based knowledge, skills and tools for the delivery of different types and sizes of projects and programs across all industry sectors, underpinned by theory and research. At the forefront of industry trends, the UTS program incorporates project complexity, program management, governance, reflective practice and leadership.

Course aims

Successful graduates of the course can:

- select from and apply a broad range of tools and methods used to manage projects
- demonstrate an understanding of reflective practice
- exhibit an understanding of the application of ethical principles to project management practice in a variety of settings both in Australia and internationally
- demonstrate an understanding of communication in a variety of forms across culturally diverse project contexts
- understand appropriate information systems for application within a project management context
- understand principles involved in managing relationships between key project stakeholders

- understand the principles of project team leadership in culturally diverse teams
- apply foundation level skills to problem analysis and decisionmaking.
- apply critical thinking and creative problem solving skills to project management contexts
- understand and apply basic research skills
- demonstrate foundation-level knowledge of systems thinking as it applies to project management.

Career options

The course is highly regarded by industry as providing in-demand, 'professionally excellent' graduates. Its focus on leadership, program management and governance increases the employability of graduates at senior levels in many local and international industries, including banking and finance, construction and engineering, event management, government, health and IT.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Admission is at the discretion of the course director. Students require a recognised undergraduate degree plus six months industry experience, or five years industry experience, or a recognised professional qualification with six months relevant work experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-semester, full-time or one-year, parttime basis.

The course is delivered in face-to-face mode (on campus or offshore in conjunction with selected education partners).

Course structure

Students complete four compulsory subjects totalling 24 credit points.

Course completion requirements

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Marketing, the Graduate Diploma in Marketing (C07031) (see page 461), and the Master of Business in Marketing (C04067) (see page 361).

Other information

Further information is available from UTS: Business on:

Overview

This course is designed to provide an opportunity for practising professional engineers or technologists to extend their engineering knowledge and to update their knowledge and skills in line with

recent advances. It also allows graduates in related disciplines to undertake formal study in engineering, and may be of value to professionally qualified immigrant engineers seeking orientation to Australian conditions and practice.

This course is designed to provide an opportunity for practising professional engineers or technologists to extend their engineering knowledge and to update their knowledge and skills in line with recent advances. It also allows graduates in related disciplines to undertake formal study in engineering, and may be of value to professionally qualified immigrant engineers seeking orientation to Australian conditions and practice.

Career options

This course allows participants to enhance their ability to understand some principles of engineering either at a basic level or in the choice of their major.

This course is also popular among potential students who have been away from study for a while, and who want to gain current knowledge and understanding in their choice of major.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Candidates without a degree, but who have a TAFE diploma or equivalent and with suitable work experience, may also apply for this course. All applications are assessed individually.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University policy on credit recognition (www.gsu.uts.edu.au/policies/creditrecognition.html). The maximum amount of credit recognition granted is 6 credit points (without exception). Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

The course may be taken on a one-semester, full-time or one-year, part-time basis. Attendance in subjects is available in weekly, block and or distance modes.

Classes are usually held in the evenings, in block and/or in distance mode.

Course structure

Students complete 24 credit points of study. Program details vary with the major and are determined prior to enrolment, in consultation with, and with the approval of, an academic adviser designated by the Director, Postgraduate Coursework Programs, UTS: Engineering.

Some program majors may require students to complete prescribed subjects with or without an opportunity for electives. In these cases, the area of program major is recognised on the candidate's academic record.

Subject selection should be clearly related to a professional theme.

A major need not be selected, though a major is granted if three subjects (18 credit points) are completed within a particular postgraduate program major.

Course program

The tables below give details of each major: for each major there are three tables. The first lists the compulsory subjects and allowable option choices for the major. The next two tables show the subjects typically offered in Autumn and Spring semesters. Where an elective is specified, the subject is to be chosen from postgraduate subjects offered within the Faculty of Engineering and Information Technology, as listed in the elective option. Recommended programs take account of the semesters in which subjects are offered and the way the timetable is designed to avoid clashes. Some subjects are offered in weekly mode, others in block mode, and others in distance mode or a combination of modes.

Articulation with UTS courses

Study undertaken in this course may be credited in full towards a Master of Engineering (C04090) (see page 362) or Master of Engineering Studies (C04097) (see page 367) provided the entry requirements of the master's degrees are met. Completion of the course requirements does not guarantee admission to master's candidature. Eligibility for consideration may be subject to the attainment of a certain level of performance, typically a weighted average mark in completed subjects of at least 65 per cent over 18 credit points.

Overview

6ср

This course deals with the broad aspects of environmental management relevant to practising professionals in engineering science, planning, architecture, law, surveying, health and building. Engineers, scientists, town planners and other professionals working in this field have a compelling duty to ensure that the adverse effects of development on the total environment are minimised.

Environmental engineering and management is high on the political agenda. It also has a high professional priority. Students develop a background and competence in environmental management.

Course aims

The course aims to develop an awareness and understanding of the human impact on the environment with respect to waste minimisation and water quality management, and the professional skills required to work as part of an integrated team responsible for environmental planning and management.

Career options

This course is of relevance to practising professionals in architecture, building, engineering science, health, law, planning and surveying.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in engineering, science, design, architecture, building, surveying or planning. Provisional admission for graduates from other disciplines is available provided the education contained an adequate introduction to mathematics and physical sciences. Applicants without a degree, but who have a TAFE diploma or equivalent and with suitable work experience, may also apply for this course. All applications are assessed individually.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Credit recognition is considered in accordance with the University's policy on credit recognition (www.gsu.uts.edu.au/policies/credit-recognition.html). The maximum amount of credit recognition granted is 6 credit points (without exception). Further information is available at:

www.eng.uts.edu.au/courses/postgraduate/credit-recognition.html

Course duration and attendance

The normal attendance pattern, based on two subjects a semester, requires a minimum of one year to complete the course. This degree is also available to full-time, fee-paying international students who complete the degree in one semester.

The block attendance pattern of study currently consists of three sessions a semester, each session involving three full days of attendance. To complete two subjects in a semester, three full days of attendance are required at each session. To complete one subject in a semester, one-and-a-half days of attendance at each session are required. Subjects may also be taken in distance mode.

Students who want to undertake the course in distance mode may have to follow a restricted course structure as not all subjects are offered in distance mode.

Course structure

Students complete three subjects chosen from a core list of subjects (Group A) and one subject from an electives list (Group B), totalling 24 credit points of study.

Course completion requirements

CBK90360 Electives choice (Group B)	6ср
CBK90359 Core subject choice (Group A)	18cp

Articulation with UTS courses

Work undertaken in this course may be credited in full towards the Master of Environmental Engineering Management (C04098) (see page 374) provided the requirements of the master's degree are met, in terms of subject coverage and project weighting.

However, completion of the requirements for the graduate certificate does not guarantee admission to master's candidature.

C11053v5 Graduate Certificate in Local Government Management

Award(s): Graduate Certificate in Local Government Management (GradCertLGM)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: City campus

This is an exit-only course. There is no direct admission to it. Current UTS students may be able to transfer into this course. Check with your faculty.

This course is not offered to international students.

Overview

Today's local government manager must have a high level of professional expertise together with a broad range of managerial skills and a sound understanding of the special characteristics of local government. The Graduate Certificate in Local Government Management is tailored to the local government environment, allowing managers to meet their differing professional needs, while keeping up-to-date with the latest issues.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course completion requirements

15608	Corporate Management and Organisational		
	Change		6ср
15604	Local Government Management Principles a	nd	-
	Practice 1		6ср

Overview

Many working engineers and technologists do not have the time to commit to a master's course. However, the demand for management knowledge among engineers is increasing. The Graduate Certificate in Engineering Management is designed to provide management knowledge which can be tailored to fit students' needs.

The course is designed to provide practised engineers with extended knowledge beyond their first degree and to update knowledge and skills in recent advances in engineering, technology and business

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants without a degree, but who have a TAFE diploma or equivalent and with suitable work experience, may also apply for this course. All applications are assessed individually.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C11057v2 Graduate Certificate in Engineering Management

Award(s): Graduate Certificate in Engineering Management (GradCertEM)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: Hong Kong

Note(s)

This course is only offered offshore. It is available in Hong Kong. The language of tuition is Modern Standard Chinese.

It is the Chinese language version of the Graduate Certificate in Engineering Management (C11054) (see page 487). It is offered through the Hong Kong Management Association.

Overview

Many working engineers and technologists do not have the time to commit to a full master's course. However, the demand for management knowledge among engineers is increasing. The Graduate Certificate in Engineering Management is designed to provide management knowledge that can be tailored to fit students' needs.

The course is designed to provide practised engineers with extended knowledge beyond their first degree and to update knowledge and skills in recent advances in engineering, technology and business practice.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants without formal qualifications should produce evidence of general and professional qualifications sufficient to show the educational preparation and capacity to pursue graduate studies as well as have two years of relevant work experience.

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course can be completed in one year of part-time study. This time can be reduced if additional subjects are studied in the January to March semester. The program is structured for weekend and distance mode attendance.

Course structure

Students complete 24 credit points of study.

Course completion requirements

Select 24	credit points from the following options:	24cp
49001	Judgment and Decision Making	6ср
49002	Managing Projects	6ср

C11058v4 Graduate Certificate in Journalism

Award(s): Graduate Certificate in Journalism (GradCertJournalism)

UAC code: 940502 (Autumn semester, Spring semester)

CRICOS code: 017901A

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

The Graduate Certificate in Journalism is part of an articulated program of study for people who want to start a journalism career, and for experienced journalists wanting to broaden their skills and professional technological expertise and refresh the intellectual basis of their practice.

This is the only program of its kind in Sydney, where the Australian media is increasingly concentrating. The journalism staff at UTS has a record of excellence in professional practice reflected in media contacts. In addition, the course has close links with the Australian Centre for Independent Journalism, which provides a professional setting for student work.

Course aims

Graduates of the program:

- · have strong research and reporting skills
- · have a knowledge and critical understanding of the media
- are equipped with the necessary skills to either enter professional practice in the media or continue with additional skills and intellectual depth
- strive to promote the important role of professional and ethical journalism in the service of the public, and
- have an understanding of the role of the media in local, regional, national and global contexts.

Career options

Career options include reporter or editor in local, corporate, national or international print or broadcast media organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

Students complete a total of 24 credit points, comprising one 8-credit-point core subject, plus two 8-credit-point electives from the specified list of options.

The core subject must be undertaken in the first semester. Students may complete an elective in their first semester of study in addition to the core subject if they meet prerequisite requirements.

Part-time students should undertake 8 or 16 credit points a semester.

Course completion requirements

C11066v5 Graduate Certificate in Screenwriting

Award(s): Graduate Certificate in Screenwriting (GradCertScrWrt)

UAC code: 940507 (Autumn semester) Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

The Graduate Certificate in Screenwriting is part of an articulated program designed to meet a range of needs for people who want to start a career in writing, and for experienced writers wanting to further develop their theoretical knowledge and skills.

Course aims

Students in this course:

- · develop general and specific skills in screenwriting
- have the opportunity to develop their screenwriting skills intensively
- develop some critical knowledge of cultural and aesthetic debates
- advance an ability to develop and critically revise their own work, and
- develop an awareness of the place of writing within contemporary cultural formations.

Career options

Career options include scriptwriter for short- and long-form drama.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis. Students must commence in Autumn semester.

Course structure

The course totals 24 credit points of study, consisting of three core subjects. The core subject, 57142 Writing for the Screen, must be undertaken in the first semester of study.

Part-time students should undertake 8 or 16 credit points a semester.

C11106v3 Graduate Certificate in Mental Health Nursing

Award(s): Graduate Certificate in Mental Health Nursing (GradCertN) Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course is not offered in 2014.

This course is not offered to international students.

Overview

This course is designed to provide registered nurses with the knowledge, expertise and competencies for advanced practice in mental health nursing.

Registered nurses wanting to develop and extend their knowledge of mental health nursing practice find this course an effective means of professional and personal development.

Course aims

The course is designed to prepare mental health nurses who:

- have the knowledge, skills and understandings to practise safely and competently in a variety of mental health care settings
- demonstrate an understanding of the experience of the consumer and the ability to work in collaboration with consumers in their care
 - have the capacity to work effectively as members of a multidisciplinary team
- critically examine and appraise their own practice and develop and modify their approaches as necessary
- actively contribute to the professional development of others
- value research processes in their day-to-day practice
- are committed to the development of the discipline of mental health nursing.

Career options

Career options include positions in mental health nursing.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who successfully complete a university-approved mental health transition program are eligible to apply for exemption from 92869 Specialty Clinical Practice.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days and online learning. Part-time study is usually undertaken at a rate of two subjects a semester. The normal attendance is four or five days on campus spread over the semester.

Course structure

Students must complete a total of 24 credit points, comprising four specified subjects.

Course completion requirements

92604	Mental Health Assessment	6ср
92869	Specialty Clinical Practice	6ср
92876	Therapeutic Interventions in Mental Health Care	6ср

C11107v8 Graduate Certificate in Health Services Management

Award(s): Graduate Certificate in Health Services Management (GradCertHSM)

UAC code: 940820 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course offers a mid-year intake for local students. This course is not offered to international students.

Overview

This course is an introduction to health services management and aims to expand students' knowledge and future career opportunities. The program develops students' knowledge and skills, which leads to an enhanced capacity to manage health services.

Graduates of this course are exposed to academic and industry leaders who share their experience and knowledge to facilitate insight into the contemporary health service management environment.

Course aims

This course is designed to prepare new, aspiring and middle health managers for roles in health services management in a variety of settings.

Career options

Career options include positions in health authorities, hospitals, primary and community care, aged care services, and other healthcare facilities in the public, private, not-for-profit, government and non-government health sectors.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who do not have an undergraduate degree but who have extensive relevant work experience in a health or human services field may also be considered eligible.

Applicants must have at least a minimum of one year, full-time (or part-time equivalent) experience in a medium to large organisation. Health or human services experience is preferred. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with

TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study. Part-time students usually study two subjects a semester.

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course offers a mid-year intake for local students. This course is not offered to international students.

Overview

This course is designed for health professionals aspiring to management positions which involves the management of clinical services, as well as for those already holding such positions who wish to enhance their professional practice through formal study.

Course aims

The broad aims of the course are for students to develop capabilities in the management of clinical services so that they are able to:

- understand the Australian health care environment
- explore and analyse the effects of changes in health care on their work role and environment
- provide leadership to staff providing quality care
- enhance their interpersonal and organisational skills
- enhance interpersonal and organisational skills
- more effectively manage information and resources
- promote an effective organisational culture.

Career options

Career options include management positions in hospitals, aged care, rehabilitation and primary care. The enhanced interpersonal and organisational skills graduates acquire in this course enable graduates to effectively manage a unit or division providing direct clinical services and lead it to provide quality care.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

This evidence may include extensive relevant work experience in a health care profession.

Applicants must have at least one year's full-time equivalent experience in a medium to large organisation. Work experience undertaken in small work settings (e.g. private practice settings with a small number of professionals) or as part of intern requirements are not accepted.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C11115v4 Graduate Certificate in Diabetes Education and Management

Award(s): Graduate Certificate in Diabetes Education and Management (GradCertDiabEdM)

UAC code: 940845 (Autumn semester), 940890 (distance) (Autumn semester)

CRICOS code: 037128A

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: City campus (Sydney), Brisbane

Note(s)

This course is not offered to international students.

Overview

This course is offered in conjunction with UTS: Education. It develops appropriately qualified students for work as health professionals in the area of diabetes education and management.

Students have strong involvement with academics and clinicians from major teaching hospitals, diabetes centres and Diabetes Australia-NSW or Diabetes Australia-Queensland.

Career options

Career options include diabetes educators and managers in a variety of settings.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in a health-related field such as nursing, allied health or medicine.

Applicants must also have at least one year's full-time professional employment in their health-related discipline, part of which has been in a diabetes-related clinical area. It is assumed that applicants have a basic knowledge of the practice of diabetes education and management. Applicants must also have access to a relevant clinical setting in order to complete supervised clinical experience (applicants need to organise their own placement).

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Applications

This course is offered in block mode in Sydney and Brisbane. Note, for administrative purposes only, students attending in Brisbane need to enrol in the course as distance rather than block.

Course duration and attendance

The course is offered on a one-year, part-time basis. It is studied through four blended online subjects, which include two residential workshops. The workshops are offered in Sydney and Brisbane.

Course structure

Students must complete a total of 24 credit points of study, comprising three specified UTS: Health subjects and one specified UTS: Education subject.

Course completion requirements

92934	Clinical Management of Diabetes	6ср
92845	Primary Health Care	6cp
015356	Learning in Diabetes Education	6cp

C11116v5 Graduate Certificate in Perioperative Nursing

Award(s): Graduate Certificate in Perioperative Nursing (GradCertN)

UAC code: 940850 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course offers a mid-year intake for local students.

This course is not offered to international students.

Overview

This course prepares registered nurses to function as perioperative nurses in various health care settings.

Course aims

The course is designed to encourage the development of a perioperative nurse who is able to provide holistic, patient-centred care in a collaborative manner during anaesthesia, surgery and recovery. It promotes a deep understanding of complex perioperative issues as they relate to patient outcomes within a global context.

Career options

Career options include specialty perioperative nursing in day surgery settings, perioperative suites/units and endoscopy suites.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-todate on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days and online learning. Part-time study is usually undertaken at a rate of two subjects a semester. The normal attendance per subject is four full days spread over the semester.

Course structure

Students are required to complete a total of 24 credit points of study, comprising three specified nursing subjects and one nursing elective (92713 Health Breakdown elective is recommended as this subject can be used to articulate / progress into Graduate Diploma or Master of Nursing).

There are structured, work-based learning opportunities for employees of Northern Sydney Local Health District (NSLHD), Sydney Local Health District (SLHD) and North Shore Private Hospital. These students may undertake a Clinical Accreditation Program (CAP) with these organisations. This is at no cost to participants. Students who successfully complete a CAP are awarded exemption from Specialty Clinical Practice. If students change their sub-major they may need to redo a CAP related to the new sub-major or complete subject Specialty Practice.

C11117v5 Graduate Certificate in Anaesthetics and Recovery Room Nursing

Award(s): Graduate Certificate in Anaesthetics and Recovery Room Nursing (GradCertN)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

This course is available for new admissions every second year. The next intake is in 2015.

This course is not offered to international students.

This course prepares registered nurses to function in anaesthetic nurse sedationist and recovery room nursing roles in various health care settings.

Course aims

The course promotes a deep understanding of complex anaesthetics and postanaesthesia recovery room unit issues as they relate to patient outcomes. It is designed to encourage the development of an anaesthetics and postanaesthesia recovery room nurse who is able to provide holistic, patient-centred care during anaesthesia and recovery from surgical and procedural interventions, and in a range of traditional and non-traditional settings.

Career options

Career options include specialty anaesthetics and recovery room nursing, and nurse sedationist roles in perioperative settings, endoscopy and day surgery units and other interventional / procedural settings.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days (a three-day workshop each semester) and online learning. Part-time study is usually undertaken at a rate of two subjects a semester.

Course structure

Students must complete a total of 24 credit points, comprising three specified nursing subjects and one nursing elective (92713 Health Breakdown is recommended as this subject can be used to articulate/progress into the Graduate Diploma or Master of Nursing).

There are structured, work-based learning opportunities for employees of Northern Sydney Local Health District (NSLHD) and North Shore Private Hospital. These students may undertake a Clinical Accreditation Program (CAP) with these organisations. This is at no cost to participants. Students who successfully complete a CAP are awarded exemption from subject Specialty Clinical Practice. If students change their sub-major they may need to redo a CAP related to the new sub-major or do the subject Specialty Clinical Practice.

C11118v4 Graduate Certificate in Critical Care Nursing

Award(s): Graduate Certificate in Critical Care Nursing (GradCertN)

UAC code: 940855 (Autumn semester) Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course is not offered to international students.

Overview

This course prepares registered nurses to function as critical care nurses in various health care settings.

Students develop the specialised skills and knowledge to become critical care nurses and to recognise and support the unique characteristics of the critical care patient population.

Course aims

The course is designed to provide the necessary knowledge, skills and understanding to enable registered nurses to:

- practise safely and competently in the specialty of critical care nursing
- synthesise specialty knowledge, skills and expertise in order to enhance the quality of care for patients and their families
- make appropriate clinical judgments in relation to care of critically ill people
- critically evaluate their practice and incorporate research findings and technologies when appropriate
- develop the ability to actively contribute to the professional development of others
- appropriately counsel and support patients and their families as they deal with their health and lifestyle adjustments
- use research in order to make informed decisions about nursing practice.

Career options

Career options include specialty critical care nursing.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx Students should ensure that details of their registration are up-todate on this register. The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days and supported by online learning. Part-time study is usually undertaken at a rate of two subjects a semester. The normal attendance per subject is four full days on campus spread over the semester.

Course structure

Students must complete a total of 24 credit points of study, comprising four specified nursing subjects.

There are structured, work-based learning opportunities for students who are employees of Northern Sydney Local Health District (NSLHD - Royal North Shore Hospital, Ryde Hospital, Hornsby Kuring-gai Hospital, Manly Hospital, Mona Vale Hospital), Westmead Private Hospital or North Shore Private Hospital. These students may undertake a Clinical Accreditation Program (CAP) with these organisations. This is at no cost to participants. Students who successfully complete a CAP are awarded exemption from subject Specialty Clinical Practice. If students change their sub-major they may need to redo a CAP related to the new sub-major or do the subject Specialty Practice.

C11119v3 Graduate Certificate in Neuroscience Nursing

Award(s): Graduate Certificate in Neuroscience Nursing (GradCertN) Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course is not offered in 2014.

This course is not offered to international students.

Overview

This course prepares registered nurses to become neuroscience nurses in various health care settings.

Students develop specialised skills and knowledge needed to become neuroscience nurses and learn to recognise and support the unique characteristics of the neuroscience patient population.

Course aims

The course is designed to impart the necessary knowledge, skills and understanding to enable registered nurses to:

- practise safely and competently in the specialty of neuroscience nursing
- synthesise specialty knowledge, skills and expertise in order to enhance the quality of care for patients and their families
- make appropriate clinical judgments in relation to the care of people with neurological problems
- critically evaluate their practice to enhance professional practice
- develop the ability to actively contribute to the professional development of others
- appropriately counsel and support patients and their families as they deal with their health and lifestyle adjustments
- use research in order to make informed decisions about nursing practice.

Career options

Career options include specialty neuroscience nursing.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

C11125v4 Graduate Certificate in Dispute Resolution

Award(s): Graduate Certificate in Dispute Resolution (GradCertDispRes) UAC code: 940403 (Autumn semester, Spring semester)

CRICOS code: 032360M

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

The Graduate Certificate in Dispute Resolution, a first in Australia, focuses on the wide range of non-adversarial dispute resolution processes. A comprehensive range of subjects is available accommodating distinct streams such as commerce, family, community and court-annexed programs.

Dispute resolution at UTS focuses on experiential learning involving a fusion of critical and reflective thinking paradigms with the application of theory in practical, work-based contexts.

The mixture of experience-based learning and formal lectures by professional practitioners give students a hands-on understanding of the full range of dispute resolution processes from negotiation, through the consensual processes, to decisional theory.

Career options

Career options include arbitrator, managers, negotiator and professionals in a wide range of areas such as health and education, government and industrial relations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who provide evidence of equivalent work experience are also considered.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one semester of full-time or one year of part-time study. The core introductory subject is offered in intensive block mode over several days of attendance at the beginning of semester. The options are taught in intensive block mode over several full days of lectures, workshops and seminars.

Course structure

The course requires completion of a core introductory subject (6 credit points) plus a further three subjects (18 credit points).

Subjects are regularly timetabled but not all subjects listed are offered in any one semester. Timetabled subjects are offered subject to sufficient student interest. The current timetable can be found at: http://timetable.uts.edu.au

Course completion requirements

C11130v4 Graduate Certificate in Trade Mark Law and Practice

Award(s): Graduate Certificate in Trade Mark Law and Practice (GradCertTMLP)

UAC code: 940410 (distance) (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: distance

Overview

UTS has established expertise and a reputation for providing courses relevant to the needs of the patent and trade marks professions. This course reflects the range of topics required for registration as a trade marks attorney in Australia under the relevant regulations.

This course provides graduates with an understanding of the principles of the registered trade mark system, the protection of unregistered marks and related forms of protection against misleading or unfair trading conduct in Australia.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Career options

Graduates can seek registration as a trade marks attorney in Australia.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have not gained the requisite tertiary qualifications may be provisionally admitted into the program if they can provide evidence of equivalent work experience. Such applicants should also contact the Professional Standards Board to clarify the full requirements for registration as a trade marks attorney.

Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

UTS may grant successful applicants advanced standing or exemption from one or more subjects, but the Professional Standards Board for Patent and Trade Marks Attorneys (PSB) has no authority to recognise, for the purpose of registration as a patent attorney or trade marks attorney, such exemptions. Students intending to seek registration need to seek exemption from the PSB. Further information is available from:

The Secretary

 $Professional\ Standards\ Board\ for\ Patent\ and\ Trade\ Marks\ Attorneys$

PO Box 200

Woden ACT 2606

telephone +61 2 6283 2345

fax +61 2 6285 1048

email mail.psb@ipaustralia.gov.au

www.psb.gov.au

Exemptions are generally not granted for subjects not primarily directed to Australian law.

Course duration and attendance

The course can be completed in a minimum of one semester of fulltime or one year of part-time study (timetabling restrictions apply).

The subjects within this course are available online by distance learning and require no on-campus attendance. All lectures, tutorials, course materials and assessments are distributed by a combination of web-based technology and electronic media. Students conduct all communication with the lecturer by electronic means.

Course structure

The course requires completion of 24 credit points of core subjects. Subjects are timetabled annually, but not all subjects are offered every semester. The current timetable can be found at:

http://timetable.uts.edu.au

Course completion requirements

STM90743 Stream

Articulation with UTS courses

Graduate certificate candidates may apply to internally transfer to the Master of Intellectual Property (C04251) (see page 427). Successful candidates are not awarded the graduate certificate but subjects undertaken within the graduate certificate are applied towards the Master of Industrial Property.

Professional recognition

Subject to final board approval, the educational requirements for registration as a patent attorney and trade marks attorney in Australia with the Australian Government's Professional Standards Board for Patent and Trade Marks Attorneys can be fulfilled by completing this course.

Notels

This course is not offered to international students.

Overview

This course focuses on the role of technology in the strategic leadership of organisations. It provides a well-balanced selection of subjects, drawn from advanced information technology and business domains, in an integrated program that is relevant to the current and future demands of the IT industry and business organisations.

IT professionals who have aspirations to senior IT roles and/or business leadership positions in organisations benefit from this course. Graduates are able to contribute constructively to the effective utilisation of information technology with respect to the strategic leadership of an organisation. IT managers who already have significant levels of experience are challenged by this course and gain new perspectives on the effective leadership of organisations in the digital era.

Course aims

The course aims to develop:

- the professional skills necessary for successfully undertaking strategic leadership roles in a variety of organisational contexts, and
- a conceptual and analytical understanding of an organisation's needs in a dynamic and challenging global knowledge economy.

Career options

Graduates can be employed in the full range of organisations - private, public and community sector organisations. They can manage the IT function of such organisations and develop a career path that leads to a senior Π management role.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in information technology or commerce and applicants must have a minimum of five years' professional work experience in the IT industry, plus some supervisory experience.

Alternatively, applicants require evidence of general and professional qualifications, such as other post-secondary school qualifications that can establish the applicant's aptitude, knowledge and practical experience, which will satisfy the Faculty Board in Engineering and Information Technology that the applicant possesses the educational preparation and capacity to pursue postgraduate studies, and a minimum of five years' professional work experience in the IT industry, plus some supervisory experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

Students must complete 24 credit points of study, made up of three core subjects and one elective.

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

This course offers two separate streams: one for those who have little or no knowledge of IT and one for IT professionals.

Stream 1 provides an introduction to information technology for those uncertain of their capabilities in the discipline, or those who wish to gain only a very basic knowledge of the area.

Stream 2 enables those with an IT or related degree to undertake a specialised sequence of subjects in an area not covered in their previous studies.

This course allows IT professionals to update their knowledge and skills in an essential area of IT to assist in career development. This course also provides a basic foundation for those wanting to enter the IT industry and gain basic skills in IT.

Career options

Career options include database developer, junior programmer/analyst or business analyst.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course an equivalent degree can be from any discipline (as applicants for this program may apply as a non-IT graduate or an IT graduate).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

There are no exemptions granted in the Graduate Certificate in Information Technology.

Course duration and attendance

The course is offered on a one-semester, full-time or one-year, part-time basis.

Course structure

This course comprises 24 credit points of study.

- Stream 1: Students normally take four of the core subjects offered in the Graduate Diploma in Information Technology (C06058) (see page 443) but may, with the approval of the Director, Postgraduate Programs: IT, take up to two of the electives offered in the graduate diploma in place of core subjects.
- Stream 2: Subjects are normally taken from the list of elective subjects offered in the Graduate Diploma in Information Technology (C06058) (see page 443).

Overview

This course is designed for students from a wide variety of disciplines who may or may not already be working in areas of multimedia. It enables students to gain new areas of knowledge or broaden existing areas.

While this program is managed by the Faculty of Engineering and Information Technology, it is a joint program between the Faculty of Engineering and Information Technology, the Faculty of Arts and Social Sciences, and a number of other teaching faculties.

The program is designed to educate the innovators and future leaders of the various professions working in multimedia. Graduates acquire the fundamentals in multimedia, underpinning an up-to-date, flexible set of production skills in their own specialised area.

Course aims

A defining characteristic of multimedia education at UTS is the integration of theory and practice in all of the relevant disciplines and professions. The course aims to develop students' professional skills for direct application in the workplace, while providing a solid overview and understanding of the social, historical and industrial role of multimedia communication technologies. Graduates are prepared for a career in a rapidly growing and changing industry.

Career options

Career options include positions in digital media, the mobile web, information architecture, interaction design, new media, web design, web development and web project management. Various events are organised throughout the year to showcase student work and give students the opportunity to speak with industry professionals, including recruiters.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants without an undergraduate degree require a diploma and considerable relevant professional experience, or substantial senior professional experience.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Places in the course are limited and applicants should indicate an informed understanding of how their undergraduate qualifications or work experience fit with their proposed multimedia studies to open up future career directions.

Credit recognition

Given the interdisciplinary focus and teamwork emphasis of this course, credit recognition and subject exemptions are not normally granted for other postgraduate study or work experience.

Course duration and attendance

The course normally takes one semester of full-time or one year of part-time study.

Course structure

The course comprises 24 credit points of study made up of two core subjects and two elective subjects, which may include core subjects for students intending to exit the program at graduate certificate level.

Course completion requirements

	2 Electives (Interactive Multimedia)	12cp
Select 12	credit points from the following options:	12cp
95563	Digital Media Development Process	6ср
95564	Digital Media Technologies	6ср
95565	Digital Graphics and the Still Image	6ср
		Total 24cp

Course program

The following example shows a part-time program commencing in Autumn semester. Elective subjects may be chosen from across the University and must be approved by the multimedia program leader and then the relevant faculty.

Overview

This course is intended for computing science, information technology or engineering graduates with or without networking experience who wish to learn or extend their knowledge of networking and networking technologies. As students come from a variety of backgrounds, there is a degree of subject choice in the program to meet individual needs.

The Internetworking program provides practical, hands-on learning experience using resources provided by Cisco Systems. The program covers all aspects of the organisational use of networking.

Course aims

The program aims to:

- meet the needs of industry for networking specialists
- retrain IT professionals wishing to move into networking and internetworking

- provide a thorough and practical grounding in networking and in network design, administration and management, and
- provide a solid foundation for the writing of networked applications using Unix, Java and WWW technologies.

Career options

Career options include IT/network support, junior systems programmer or other positions in data communications.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications are preferred in computing science, information technology, computer engineering, telecommunications, or a related discipline.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Assumed knowledge

Two years' experience in networking or in another position in the IT industry is desirable. Applicants without work experience are also considered.

Credit recognition

Applicants may apply for exemptions if they have successfully completed studies of a comparable standard from a recognised university.

There are no exemptions granted for the networking subjects 32524 and 32521 without the successful completion of the challenge test for each of the above. A challenge test is required even for holders of a CCNA or CCNP certification and those who have passed the CCNA curriculum in TAFE Certificate IV and/or Diploma. These challenge tests are always held in the week prior to the commencement of classes.

Course duration and attendance

The course duration is one semester of full-time or one year of part-time study.

Course structure

The course totals 24 credit points of study, made up of four subjects.

Course completion requirements

CBK90747 Internetworking choice	6ср
STM90730 Core subjects	18cp
•	Total 24cp

Course program

Below is a typical example of a full-time program commencing in Autumn semester.

Students undertaking the graduate certificate full time and who wish to complete 32521 WANs and VLANs are unable to complete the course in one semester as this subject has a prerequisite of 32524 LANS and Routing.

Year 1

Autumn semester

Notels

This course is not offered to international students.

Overview

This course is designed for those who want to develop a broader understanding of the strategic value of technology for business organisations.

Students gain a 'big picture' view of the global knowledge economy and the need for a strong understanding of the role of technology in effective business leadership. The course focuses specifically on the strategic value of technology and on the leadership implications thereof for the creative management of intangible assets such as morale, social, knowledge and human capital. On completion of the course, graduates are recognised as having broad technology frames of reference with respect to business leadership in a dynamic global knowledge economy.

Course aims

This course aims to provide graduates with broad strategic leadership frames of reference and knowledge bases. It also alerts business leaders (with or without an IT background) to the increasingly important role that technology plays in business success and its potential for disrupting conventional business models and practices.

Career options

Career options include senior management roles.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in information technology or commerce and applicants must have a minimum of five years' professional work experience, plus some supervisory experience.

Alternatively, applicants require evidence of general and professional qualifications, such as other post-secondary school qualifications that can establish the applicant's aptitude, knowledge and practical experience, which will satisfy the Faculty Board in Engineering and Information Technology that the applicant possesses the educational preparation and capacity to pursue postgraduate studies, and a minimum of five years' professional work experience, plus some supervisory experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with

TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Exemption from subjects in the program is not normally given on the basis of previous study or work experience.

Course duration and attendance

The course is completed in one year on a part-time basis only.

Course structure

The course comprises 24 credit points of study, made up of four core subjects that can be taken in any order subject to timetable availability.

Course completion requirements

42990 Organisational Design for the Knowledge Era 6	ср
32005 Strategic Leadership for Innovation 66	сp

Award(s): Graduate Certificate in Information Technology Project Management (GradCertITPM)

UAC code: 940631 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

This course provides advanced professional studies in IT project management.

Students gain an understanding of the business context and develop conceptual and analytical approaches to IT project management. Graduates of this course are well placed to move into a project management role.

Course aims

The course aims to:

- explain the business context and technical developments shaping contemporary IT project management
- develop knowledge and skills in IT project management processes
- develop conceptual and analytical approaches to IT project management, and
- develop theoretical and practical competencies in technical and people management.

Career options

Career options include positions in project management.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications should normally be in computing/information technology or a related field. If the previous qualification is not in a relevant field, applicants also require a graduate diploma in computing/information technology (or related discipline) from a recognised Australian university and/or relevant work experience.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

Students complete 24 credit points of study consisting of two core subjects and two elective options from CBK90770.

Course completion requirements

C11194v1 Graduate Certificate in Children's Nursing

Award(s): Graduate Certificate in Children's Nursing (GradCertN) UAC code: 940870 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24

Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course offers a mid-year intake for local students.

This course is not offered to international students.

Overview

The course has been designed to provide registered nurses with the skills and knowledge required for a specialist role in children's nursing. It develops and extends students' knowledge of children's nursing practice and management. It is also an effective means of professional and personal development.

Course aims

The course aims to develop the knowledge, skills and understanding required to practise safely and competently in a variety of children's nursing settings. Students develop this understanding through hospital and community paediatric care settings.

Career options

Graduates are well equipped to work as part of a multidisciplinary team, and are able to appraise and develop their own practice and contribute to the professional development of others.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days and online learning. Part-time study is usually undertaken at a rate of two subjects a semester. The normal attendance per subject is four full days spread over the semester.

Course structure

Students must complete a total of 24 credit points, comprising four specified nursing subjects.

There are structured, work-based learning opportunities for students who are employees of the Sydney Children's Hospital Network (Randwick and Westmead campuses). These students may undertake a Clinical Accreditation Program (CAP) with these organisations. This is at no cost to participants. Students who successfully complete a CAP are awarded exemption from subject Specialty Clinical Practice. If students change their sub-major they may need to redo a CAP related to the new sub-major or do the subject Specialty Practice.

Course completion requirements

92713	Health Breakdown	6ср

Note(s)

Overview

This course offers a mid-year intake for local students. This course is not offered to international students.

The course is not offered to interna

This course is designed to provide registered nurses and midwives with the skills to meet the increased demands to deliver quality teaching in clinical settings. Nurses and midwives engage in clinical teaching at many different levels: with students and new graduates, in orientation programs, and with communities through health promotion activities. Notwithstanding this diversity, the principles of adult learning apply to all.

Students have the opportunity to plan, develop, implement and evaluate a program of clinical education within their own practice area. This course provides a portable qualification and highly soughtafter skills.

Course aims

This course aims to ensure that graduates are able to plan effective programs in diverse clinical settings for a variety of learners.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse or midwife in Australia. Registered nurses or midwives who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must have one year of post-registration clinical experience. Students' current nursing/midwifery registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

C11198v2 Graduate Certificate in Human Resource Management

Award(s): Graduate Certificate in Human Resource Management

(GradCertHRM)

CRICOS code: 055278D

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

The Graduate Certificate in Human Resource Management introduces participants to knowledge and experiences in the areas of industrial relations and human resource management.

The course acknowledges that while the personnel and industrial functions are sometimes separately exercised within organisations, each has a pervasive effect on the other.

Course aims

The Graduate Certificate in Human Resource Management provides participants with the opportunity to study at a professional level, to improve the quality of their strategic management skills.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

If the previous qualification is not in a related field, applicants require a minimum of two years' relevant work experience. Applicants without a degree require eight years' full-time relevant work experience and evidence of a general capacity to undertake tertiary education.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Overview

This course is offered as a joint initiative between UTS: Health and Tresillian Family Care Centres.

Child and family health nurses work in partnership with parents as they learn the skills of parenting and caring for the infant and growing child. The primary health care role of the child and family health nurse includes health teaching with parents, health promotion in the community, group work and counselling for parents and care givers, and health surveillance of infants and children.

Applicants do not need to be employees of Tresillian, nor do they need to be concurrently employed in child and family health services.

The course prepares registered nurses for beginning practice in the clinical nursing specialty of child and family health.

Course aims

The program of study is designed to build on nursing knowledge and skills to develop capacity to work in a primary health care setting with young children and their families. The comprehensive study program focuses on infant care and child health, and the promotion of maternal and family health and wellbeing. The accompanying clinical experience program provides placements in community child and family health services as well as Tresillian Family Care Centres.

Career options

Career options include positions in primary health care services, such as early childhood health or community health centres, secondary level services in family care centres or breastfeeding clinics for mothers and babies, and tertiary services such as those offered by Tresillian or Karitane.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but who have recent relevant work experience may also be eligible to apply. Such applicants must present evidence of the capacity to undertake tertiary study.

Applicants must have one year of post-registration clinical experience. Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-to-date on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

Students must complete a total of 24 credit points, comprising four specified nursing subjects.

The course is offered as a mix of face-to-face teaching sessions and web-based learning through UTSOnline. There are nine days of face-to-face teaching over the duration of the year requiring attendance on campus. These are presented as four workshops of two or three days each.

Dates for 2014 are:

- 17-19 February
- 5–6 May
- 21–22 July
- 27–28 October

The remainder of the learning is in web-supported distance mode.

Industrial training/professional practice

Students are required to undertake a clinical practicum to consolidate their learning and introduce them to child and family health nursing practice. The clinical program offers up to 120 hours of experience:

- 80 hours in a child and family health service clinical facility (compulsory)
- 40 hours as fieldwork undertaken independently (compulsory).

Where possible, students are placed in child and family health services in their own locality.

Dates for 2014 are:

Autumn semester: 12 May – 6 June

• Spring semester: 1–19 September

Course completion requirements

92613	Principles of Child and Family Health Nursin	ig 6cp
92614	Child and Family Health Nursing 1	6ср
92615	Child and Family Health Nursing 2	6ср
92620	Family and Community Health Practice	6ср

C11201v1 Graduate Certificate in Acute Care Nursing

Award(s): Graduate Certificate in Acute Care Nursing (GradCertN) UAC code: 940885 (Autumn semester, Spring semester)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: Kuring-gai campus

Note(s)

This course offers a mid-year intake for local students. This course is not offered to international students.

Overview

This course provides registered nurses with the knowledge and skills for a specialist role as an advanced acute care nurse. The course helps students to critically evaluate their practice and incorporate research findings and technologies as appropriate. Students study topics that reflect health phenomena that are common across acute care illnesses requiring medical and / or surgical intervention, as well as the principles of managing patients who become acutely ill and unstable.

Students learn to recognise and support the unique characteristics of the acute care patient population and are able to practise safely and competently as acute care nurses. The knowledge, skills and expertise gained enable students to enhance the quality of care for patients and their families. Students also develop skills to actively contribute to the professional development of others and use research in order to make informed decisions about nursing practice.

Career options

Career options include specialty acute care nursing in a wide range of clinical settings.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must hold current registration as a nurse in Australia. Registered nurses who do not have an undergraduate diploma or degree but do have recent relevant work experience and can demonstrate the capacity to undertake tertiary study may also be considered eligible.

Applicants must have concurrent employment in, or access to, the area of study and one year of post-registration clinical experience.

Students' current nursing registration will be confirmed via the National Register of Practitioners at:

www.ahpra.gov.au/Registration/Registers-of-Practitioners.aspx

Students should ensure that details of their registration are up-todate on this register.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Subjects are offered via on-campus study days, workshops in a highfidelity simulation laboratory and online learning. Part-time study is usually undertaken at the rate of two subjects a semester. The normal attendance per subject is four full days on campus spread over the semester.

Course structure

Students are required to complete a total of 24 credit points of study, comprising four specified nursing subjects.

There are structured, work-based learning opportunities for students who are employees of Northern Sydney Local Health District (NSLHD) or Concord Hospital. These students may undertake a Clinical Accreditation Program (CAP) with these organisations. This is at no cost to participants. Students who successfully complete a CAP are awarded exemption from subject Specialty Clinical Practice. If students change their sub-major they may need to redo a CAP related to the new sub-major or do the subject Specialty Practice.

C11204v1 Graduate Certificate in Development Assessment

Award(s): Graduate Certificate in Development Assessment

(GradCertDevAssmnt)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

This course is not offered to international students.

Overview

Development assessment has become one of local government's most important activities. People from a wide range of professional and technical backgrounds are working in development assessment, but many lack specialist training in the field. To meet differing individual needs, the UTS Centre for Local Government has introduced a unique Graduate Certificate in Development Assessment that incorporates specialised professional development and technical subjects.

The cornerstone of this course is its flexibility. It allows participants to prepare a personal study plan that matches the specific requirements of their work, career and other commitments. Most subjects can be studied through intensive block mode and, in some cases, by distance or workplace learning. Students may apply for credit for relevant professional development courses undertaken at UTS or with another institution.

Course aims

The course aims to provide students with:

- a sound understanding of principles and practice of development
- an appreciation of the wider context of planning and assessment systems in local government
- knowledge and skills in dealing with different types of applications for development and building approvals, including the ability to identify key factors to be taken into account and broader strategic issues
- enhanced knowledge and skills in selected areas of development assessment, and
- the capacity to undertake further study and professional development.

Career options

The course is designed to provide skills and knowledge necessary to enable students to carry out assessment of building and development proposals with a high level of expertise, to facilitate subsequent accreditation as Certifiers and Principal Certifying Authorities under NSW legislation and to enhance learning and study skills for ongoing education and professional development.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications must be in architecture, building or planning. If the previous qualification is not in one of these fields, applicants require a TAFE Certificate IV in Planning or the Statement of Attainment in Building Assessment. In some cases, applicants should have two years' work experience in architecture, building, planning or local government.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who have completed relevant previous studies may apply to the course coordinator for credit recognition.

Course duration and attendance

The course may be completed on a two-year, part-time basis, with students undertaking one subject a semester, or on a one-year, part-time basis, with students undertaking two subjects a semester.

Course structure

The course totals 24 credit points, made up of four subjects.

Course completion requirements

CBK90560 Development Assessment core choice	12cp
CBK90561 Development Assessment elective choice	12cp
1	Total 24cp

Further study at UTS

Graduates may apply for admission to the Graduate Diploma in Local Government Management (C06033) (see page 440) and request credit recognition for relevant subjects studied in this course.

C11206v3 Graduate Certificate in Professional Accounting

Award(s): Graduate Certificate in Professional Accounting

(GradCertProfAcc)

CRICOS code: 061284M

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

The Graduate Certificate in Professional Accounting is a four-subject introductory course designed to provide a general understanding of accounting and related areas of business study. It provides foundation knowledge in the areas of accounting, finance, economics and law.

This course is designed for students who:

- do not have an undergraduate background in accounting and who wish to further their business knowledge, or
- have extensive business experience but lack the formal qualifications for direct entry to the master's programs in professional accounting, or
- want to complete an introductory course in accounting and related fields and want to prove their ability to undertake postgraduate study and attain postgraduate qualifications.

As this course articulates into the master's programs in professional accounting, this enables students who do not possess formal undergraduate qualifications, including TAFE diplomats, to acquire the relevant academic qualification for membership of CPA Australia, the Institute of Chartered Accountants in Australia (ICAA) and the Institute of Public Accountants (IPA).

Course aims

The course comprises a mix of accounting, finance and related subjects which collectively provide a range of essential business skills and knowledge that are necessary for managerial level employment in today's dynamic business environment.

Career options

Career options include management-level positions in industry or government, as well as not-for-profit organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants without a degree require eight years' full-time relevant work experience and evidence of a general capacity to undertake tertiary education.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course may be completed in one semester of full-time or one year of part-time study.

Classes are offered over three teaching periods each year (namely Autumn and Spring semesters, and Summer session). Not all subjects are available in Summer session.

In most cases, subjects are offered on the basis of one three-hour lecture per week over a 13-week period, however, certain subjects may be delivered in intensive mode and completed over a shorter time period.

Course structure

The course totals 24 credit points, made up of four core subjects.

Course completion requirements

22747	Accounting for Managerial Decisions	6ср
25742	Financial Management	6ср
79708	Contemporary Business Law	6ср
23706	Economics for Management	6cp

C11208v1 Graduate Certificate in Executive Business Administration

Award(s): Graduate Certificate in Executive Business Administration (GradCertExecBusAdmin)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is under review. The next intake is for a revised program in Spring semester 2014.

This course is not offered to international students.

Overview

The Graduate Certificate in Executive Business Administration provides foundation skills used in the general management of a business unit or enterprise for non-graduates who have at least eight years of relevant business experience.

Course aims

General management skills are developed to provide a knowledge base in the areas of leadership, strategic thinking, business planning, decision-making tools, organisational and group dynamics, effective communication and accounting.

Career options

Career options include management-level positions in industry or government.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants also require five years' relevant work experience. Applicants without a degree require eight years' full-time relevant work experience and an ability to be able to successfully undertake postgraduate business studies as determined by the MBA director. Applicants may be required to attend an interview as part of the admission process.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course can be completed in one semester, on a full-time basis.

Course structure

The course comprises 24 credit points of study made up of three subjects chosen from a group of four.

Course completion requirements

Select 24	credit points from the following options:	24cp
27800	Applied Leadership and Strategy	8cp
25841	Decision Making Tools	8cp

C11210v1 Graduate Certificate in Mathematics

Award(s): Graduate Certificate in Mathematics (GradCertMath) UAC code: 940743 (Autumn semester, Spring semester)

CRICOS code: 065345D

 ${\tt Commonwealth-supported\ place?:\ No}$

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

The Graduate Certificate in Mathematics is a four-subject course comprising undergraduate and / or honours-level subjects. The flexible course structure allows study programs designed to suit different university graduates; from mathematicians who need to refresh or deepen their knowledge in a certain mathematical discipline, to holders of business, engineering or science bachelor's degrees who need a mathematical foundation for further studies.

The course is recommended for those with insufficient mathematics in their bachelor's degree who wish to meet the admission requirements of the Graduate Diploma in Mathematics and Statistics for Business and Finance (C06097) (see page 446).

Course aims

The course aims to provide university graduates with access to training and retraining in mathematics and statistics with the aim to allow students to focus on particular mathematical topics rather than on broader areas of mathematics.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

No exemptions are granted as credit recognition.

Course duration and attendance

An applicant may enrol in this course either on a full-time or part-time basis. As a guide, minimum full-time attendance is one semester of study and part-time attendance is one year of study. The possibility of full-time study and the duration of the course depend on the subjects chosen and their availability. Applicants should be aware that subjects may require attendance at daytime classes. The current timetable is available at:

http://timetable.uts.edu.au

Course structure

Students are required to complete 24 credit points, comprising four subjects offered by the Department of Mathematical Sciences. The subjects are to be chosen from the list of subjects (options) below offered by the department.

The availability of the subjects in this program is shown with the subject descriptions in this handbook. Many subjects offered by the Department of Mathematical Sciences have prerequisites. It is the student's responsibility to check that they have the required knowledge specified by these prerequisites. Students are strongly advised not to enrol in any subject if they do not have knowledge equivalent to the subject's prerequisites.

Transfer between UTS courses

Students enrolled in this program are eligible to apply to transfer to the Graduate Diploma in Mathematics and Statistics for Business and Finance (C06097) (see page 446) provided they satisfy the admission criteria of the graduate diploma program. This allows students who do not have the mathematical knowledge required for admission to the graduate diploma to complete the necessary subjects as a part of the graduate certificate program and then to transfer to the Graduate Diploma in Mathematics and Statistics for Business and Finance (C06097) (see page 446).

Further study at UTS

Student who complete this course can enrol in the Graduate Diploma in Mathematics and Statistics for Business and Finance (C06097) (see page 446) with exemption from up to two core subjects of the graduate diploma program provided these subjects were completed as a part of the graduate certificate.

Other information

Further information is available from the UTS Student Centre on: telephone 1300 ask UTS (1300 275 887)

Note(s)

This course is not appropriate for applicants who are already admitted to practise as a lawyer in NSW.

Overview

The Graduate Certificate in Australian Law is designed to permit appropriately qualified lawyers from common law jurisdictions outside Australia to satisfy the academic requirements for admission as a lawyer of the Supreme Court of NSW.

The course allows lawyers from common law jurisdictions to meet the academic requirements to practise in Australia.

Career options

Career options include lawyer in NSW within a government or corporate department, private law firm or community law centre, providing students also undertake a course in practical legal training such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants' bachelor's degree in law must be from outside Australia or they must be admitted to practise as a legal practitioner in a common law jurisdiction outside Australia.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Before lodging an application, applicants must contact the Legal Profession Admission Board of the NSW Supreme Court (LPAB) to determine the subjects they are required to complete to be eligible for admission to practise in NSW. Further details about admission is available at:

www.lawlink.nsw.gov.au/lpab

Notification from the LPAB, listing the subjects required, must accompany the application for admission into the course.

Assumed knowledge

Appropriately qualified knowledge of the common law legal system.

Course duration and attendance

Full-time students can complete the course in a minimum of one semester. Part-time students can complete the course in a minimum of one year. International students are unable to undertake part-time study.

Course structure

The course requires completion of 30 credit points of specified subjects. However, in some cases and subject to approval, students may substitute one subject.

Industrial training/professional practice

Applicants should note that in order to gain admission as a lawyer of the Supreme Court of NSW they may also be required to undertake a course in practical legal training, such as the Graduate Certificate in Professional Legal Practice (C11232) (see page 519).

Course completion requirements

STM90841 Core subjects

30cp Total 30cp

Professional recognition

This course may satisfy the requirements for admission to the Supreme Court of NSW. The Legal Profession Admission Board may recognise subjects attempted within this course. Applicants are advised to obtain written confirmation of the LPAB in recognition of subjects attempted within this course prior to enrolling.

C11212v1 Graduate Certificate in Architecture

Award(s): Graduate Certificate in Architecture (GradCertArch) UAC code: 940116 (Autumn semester, Spring semester)

CRICOS code: 065843G

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

This course is a tailored bridging course that provides a pathway into the Master of Advanced Architecture (C04240) (see page 410). It provides new skills and knowledge for students who have obtained professional qualifications prior to the introduction of digital software for design and documentation in architectural education (prior to 2000).

This is a highly flexible course that enables specialisation in either urban design or design technologies. Each student has a tailored program of architectural design and architectural practice subjects, based on their needs and experience. The course equips graduates with skills of entrepreneurship, marketing, business and management necessary for leadership in the profession.

Course aims

Through the core architectural design studio subjects, graduates are equipped with strategic thinking, spatial organisation and visual design skills, and develop further their verbal and written communication abilities. Project-based studio subjects explore research, design concepts, implementation strategies and presentation techniques. Through the core professional practice subjects, students develop their knowledge of all aspects of industry and practice management, furthering their capacity for leadership in the profession, locally and internationally.

Career options

Career options are focused on leading design and technical innovation roles in architectural and urban design practice.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants require a professional entry degree of five-years, full-time or equivalent from an accredited program in architecture or a four-year, full-time or equivalent degree from an accredited program in landscape architecture.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Applicants must submit a portfolio of work demonstrating their design skills for examination in addition to a statement of interest in the course.

Course duration and attendance

The course is offered on a one-semester, full-time or part-time equivalent basis.

Course structure

The course totals 24 credit points of selected Master of Architecture subjects comprising one 12-credit-point architectural design subject, one 6-credit-point architectural practice subject and one 6-credit-point elective.

Course completion requirements

C11215v2 Graduate Certificate in Local Government Leadership

Award(s): Graduate Certificate in Local Government Leadership (GradCertLGLead)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Location: City campus

Notels

This course is not offered to international students.

Overview

Aspiring local government leaders must have a high level of professional expertise together with a broad range of leadership skills and a sound understanding of the special characteristics of local government.

The course is tailored to the local government environment and allows aspiring leaders to develop understanding and capabilities necessary for leadership in the public sector. There is a particular focus on the need for local government leaders to understand and demonstrate commitment to the production of 'public value' (Moore 1995); outcomes that are truly valued in the community.

The course offers the opportunity to undertake an education program that responds to individual needs as well those in the workplace and the broader community. Subjects involve intensive block mode workshops, workplace action learning, self-directed study, scenario-based challenges and a real-life community leadership project.

Course aims

The course aims to provide students with knowledge, skills and capabilities and practices of local government leadership, with particular reference to their own organisation and community. Students also develop the learning skills that allow them to continue their own professional development through short courses or further academic study.

Career options

Career options include local government manager in councils.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

Students who have completed relevant previous studies may apply to the course coordinator for credit recognition.

Course duration and attendance

The course may be completed on a two-year, part-time basis, with students undertaking one subject a semester, or on a one-year, part-time basis, with students undertaking two subjects a semester.

Course structure

The course totals 24 credit points, made up of four subjects.

Overview

The Graduate Certificate in Science is designed to provide an opportunity for working scientists to gain generic professional knowledge and skills as well as to extend and update their knowledge in line with recent advances in science.

The course enhances career prospects by providing opportunities to extend knowledge beyond a first degree.

Career options

The course provides a backbone of skills important to a professional scientist; be they engaged in research, science business, industries or government organisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

No exemptions are granted for this course.

Course duration and attendance

The course is offered on a one-semester, full-time or one-year, part-time basis.

Course structure

The course requires 24 credit points of study, with 12 credit points chosen from the professional stream subjects and 12 credit points from a choice of specified science subjects.

Course completion requirements

C11217v1 Graduate Certificate in Communications Law

Award(s): Graduate Certificate in Communications Law

(GradCertCommLaw)

UAC code: 940432 (Autumn semester, Spring semester)

CRICOS code: 071752E

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

Emerging as a critical media and legal specialisation, communications law at UTS offers an opportunity for non-law as well as law graduates to develop an understanding and demonstrate their expertise as media professionals and commentators, policy makers and lawyers, managers and researchers in this important area.

Students are exposed to key issues within the field such as: the roll-out of the national broadband network; cyber-security; legal perspectives on the internet; the role of law and regulation in communications, media and entertainment; and the relationship of intellectual property and technology.

Career options

Career options exist for non-law professionals to enhance prospects as communications policy advisors, editorial and management positions, online/social media consultants, lobbyists, researchers for public interest groups and industry commentators. Practising lawyers can expand their legal specialisations in areas including communications law, intellectual property, media and entertainment law, telecommunications law, technology law and corporate law.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course can be completed in a minimum of one semester of fulltime or one year of part-time study.

Course structure

Two streams are available within the course.

- Students who hold an undergraduate legal qualification must complete three option subjects (24 credit points).
- Students who hold an undergraduate degree in a discipline other than law must complete one core introductory subject (8 credit points) followed by an additional two subjects (16 credit points).

Students who have completed an undergraduate legal qualification should contact the UTS Student Centre during enrolment if their study plan includes the Non-law graduate entrant stream (STM90545).

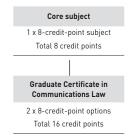

Course completion requirements

Select one of the following: 24cp
STM90545 Non-law graduate entrant stream 24cp
STM90544 Law graduate entrant stream 24cp
Total 24cp

Course diagram Law graduate entrants

Graduate Certificate in Communications Law 3 x 8-credit-point options Total 24 credit points

Non-law graduate entrants

Articulation with UTS courses

Students enrolled in the graduate certificate may apply to transfer to the Master of Communications Law (C04242) (see page 416). Successful candidates are not awarded the graduate certificate but subjects undertaken within the graduate certificate are recognised and applied towards the master's.

Note(s)

This course is not offered to international students.

Overview

UTS is a leading provider of postgraduate language and literacy courses with the longest tradition of adult basic education (ABE) teacher training of any university in NSW. This course is for people who wish to gain an initial specialist qualification in teaching numeracy to adults. It provides graduates with a specialist teaching qualification that enables them to work in the field of adult numeracy education in both the public and private sectors and registered training organisations.

The course includes two practicums that integrate relevant theoretical perspectives on adult basic education with practical teaching and learning applications.

513

Course aims

Graduates of this course are expected to be able to:

- demonstrate a critically reflective approach to planning and facilitating learning of adult numeracy learners
- show confidence and exercise effective strategies for developing the numeracy knowledge and skills needed as teachers of adult numeracy, and
- engage professionally in the education of adults.

Career options

Career options include adult basic education practitioner in community colleges, corrective services, AMES, TAFE and public and private adult education institutions that design and deliver programs for adults to learn and build on basic numeracy skills, or provide integrated learner support in VET programs, or design and deliver workplace numeracy programs.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

The course comprises 24 credit points, made up of four compulsory core subjects.

Note(s)

This course is not offered to international students.

Overview

UTS is a leading provider of postgraduate programs in adult education in Australia and enjoys a reputation as being one of the leading providers in the world. This course introduces new practitioners, or practitioners without prior formal study in the field, to adult education and learning literature, theories and practices of program development.

Many adult education staff at UTS are recognised leaders in the field and their expertise and close connection with professional and community networks provides students with up-to-date learning opportunities and access to guest lecturers and diverse organisations. It also provides a practice-based subject to further develop teaching and training skills.

Course aims

The course aims to:

- develop students' expertise in adult teaching
- provide foundation knowledge in adult learning
- provide teaching experience.

Career options

Graduates of this course are positioned to work in a diverse range of adult learning and training settings, ranging from private and public sector organisations to community organisations, non-government organisations, as well as in formal and non-formal education institutions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Applications

Local students

Local applicants apply through the Universities Admissions Centre.

Course duration and attendance

The course is offered on a one-year, part-time basis.

Course structure

The course comprises 24 credit points, made up of three compulsory core subjects (totalling 18 credit points) and one elective subject (totalling 6 credit points). Not all electives are offered every semester.

C11223v1 Graduate Certificate in Teaching English to Speakers of Other Languages

Award(s): Graduate Certificate in Teaching English to Speakers of Other Languages (GradCertTESOL)

UAC code: 940238 (CSP) (Autumn semester), 940239 (PDFP) (Autumn

semester, Spring semester) CRICOS code: 071628J

Commonwealth-supported place?: Yes

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

UTS is a leading provider of postgraduate language and literacy courses, with academics who are published authors and internationally recognised experts in the field. This course is an initial teaching qualification in teaching English to speakers of other languages (TESOL). It specifically focuses on the teaching of adult students. Students study subjects that equip them with skills and knowledge to teach English in a range of contexts, both local and international.

This course is suitable for people who wish to obtain an initial adult teaching qualification in TESOL. The course includes professional practice placements in TESOL and offers flexible study options with classes held at times suitable for full-time workers.

Course aims

The course aims to produce TESOL teachers who are knowledgeable, reflective and engaging in their practice, have well developed interpersonal skills, are keen to put current developments in learning and teaching into practice and have a commitment to lifelong learning.

Career options

Career options include a teacher of English as a second language (ESL) in Australia or a teacher of English as a foreign language (EFL) in overseas contexts (applicants are advised to check with potential employing bodies regarding employment requirements).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Local students

Local applicants apply through the Universities Admissions Centre.

International students

International students apply through UTS International.

Course duration and attendance

The course is offered on a one-semester, full-time or two-semester, part-time basis.

The subjects in STM90529 are run in standard weekly mode for TESOL students, except for 010071 Professional Practice 2 Language Literacy and Numeracy, which is run in block mode.

Course structure

Students must complete 24 credit points, comprising four core subjects.

Industrial training/professional practice

There is a practicum placement for subjects 010070 Professional Practice 1 Language Literacy and Numeracy and 010071 Professional Practice 2 Language Literacy and Numeracy.

Note(s)

This is an exit-only course. There is no direct admission to it. Current UTS students may be able to transfer into this course. Check with your faculty.

Overview

Unique in Australia, this course is intellectually vibrant, socially engaging, visionary, practice focused and actively linked to industry. The course is centred around building a design community network.

The course has two main components: specialised master classes led by a studio leader and industry partners and theory and technology subjects taught across the program.

The program focuses on and integrates research, industry collaboration, internationalisation and a design culture through the delivery of specialist, core and trans-disciplinary subjects. It provides a postgraduate education that is flexible in both its practice orientation and research integration.

With a focus on design evolution, innovative integration of new technologies, practice and student experimentation, the course is delivered by experienced studio leaders who are acknowledged leaders in the specific industries and professions.

Course aims

Designed to produce a balance between high levels of specialisation and lateral thinking, the program enables students to examine design from a trans-disciplinary perspective.

It enables students to explore design issues under the supervision of a practice leader, to learn new strategies and the application of research and theory. It supports best practices in postgraduate design education through learning and research strategies that critically examine design practice.

Graduates of this course are leaders in design and related industries through their expertise in product and service development. They are able to utilise strategic processes, creative tools and research skills for innovation in design.

The program provides a suite of subjects for postgraduate designers in the areas of interaction, strategy and enterprise, lighting design, technotextiles, and text and image. Common subjects explore related conceptual challenges and questions of visual expression in the quest to develop useful, usable and resonant designs. These include understanding and articulating the importance of 'user experience', the role of design in humanising information, the aesthetic and conceptual dynamics of effective communication, strategic thinking, and aspects of design management, branding and communication.

Career options

Graduates' careers are enhanced by high-level professional knowledge and skills for the workplace, with possession of specialised knowledge in advanced textiles, space and materials, interaction, sustainable design and innovation.

Course duration and attendance

The course is offered on a one-semester, full-time or one-year, part-time basis.

C11227v1 Graduate Certificate in Media Arts and Production

Award(s): Graduate Certificate in Media Arts and Production

[GradCertMAP]

UAC code: 940505 (Autumn semester, Spring semester)

CRICOS code: 071749M

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Overview

The Graduate Certificate in Media Arts and Production is part of an articulated program in media arts and production that includes moving image, sound, digital media and interaction, and the interplay among these medias. It offers an entry-level introduction to the media arts.

Course aims

Students completing this course develop core skills and knowledge in moving image, digital media and sound production. The subjects allow students to develop key media production skills and knowledge that can be continued into the graduate diploma or master's degree.

Career options

The course prepares students for advanced study and orientates them to the media industries, particularly those involving moving image, sound, digital media and interaction.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants who have completed a bachelor's, graduate diploma or master's in any field of study or a graduate certificate in a related field of study can apply. Applicants who do not possess the relevant qualification must submit a CV and personal statement outlining their educational and professional achievements.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The course is completed on a one-semester, full-time or one-year, part-time basis.

Course structure

The course totals 24 credit points of study, consisting of three 8-creditpoint core subjects.

Full-time students undertake 24 credit points a semester. Part-time students should undertake 8 or 16 credit points a semester.

Course completion requirements

Articulation with UTS courses

This course is part of an articulated program comprising the Graduate Certificate in Media Arts and Production, the Graduate Diploma in Media Arts and Production (C07120) (see page 473) and the Master of Media Arts and Production (C04248) (see page 423). Students who successfully complete this course and who are admitted to the graduate diploma or master's course are eligible for credit recognition for completed subjects.

C11228v1 Graduate Certificate in Higher Education Teaching and Learning

Award(s): Graduate Certificate in Higher Education Teaching and Learning (GradCertHEd)

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5

Note(s)

This course is not offered to international students.

Overview

This course is offered by the Institute for Interactive Media and Learning (IML) through UTS: Education. The course helps students to reflect critically on their teaching in ways which are underpinned by their own experiences and those of their students and colleagues, and by the research on learning and teaching in higher education.

The course is designed for current university academics or part-time university teachers interested in an academic career.

Course aims

The course aims to encourage students to develop:

- an understanding of different ways of thinking about university teaching, and the consequences for student learning, to enable them to make informed decisions about their approaches to teaching, subject design and assessment in a variety of contexts and with a diversity of students (relates to professional and intellectual attributes)
- an ability to reflect critically on and evaluate their own teaching and subjects and make changes aimed at improving their students' learning (relates to professional and intellectual attributes)
- a commitment to scholarship in teaching and to self-directed continuing teaching development (relates to professional and personal attributes), and
- a broader awareness of the higher education, university and academic career contexts in which they work, to assist them to develop their academic potential more effectively (relates to professional and personal attributes).

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Applicants must be full-time or fractional higher education academics, or casual higher education teachers who can provide evidence of ongoing teaching during course enrolment. UTS full-time or fractional-time staff are exempt from paying course fees through sponsorship by the University.

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The course can be completed over one year, but students may also choose to complete it over a longer period of time.

The course is a part-time program, equivalent to eight weeks of full-time study. Subjects vary in their modes of offering, but typically involve face-to-face interactive workshops and online interaction.

Course structure

The course consists of 24 credit points of study, comprising four subjects which must be completed to be eligible for the award.

Course completion requirements

Commonwealth-supported place?: No

Load credit points: 24 Course EFTSL: 0.5 Location: City campus

Note(s)

This course is not offered to international students.

Overview

UTS has established expertise and a reputation for providing courses relevant to the needs of the patent and trade mark professions. The UTS Intellectual Property program is the first at an Australian university that fulfils the entire educational requirements for registration as a trade marks attorney and patent attorney in Australia under the relevant regulations.

The unique feature of this course is that it may be undertaken entirely online, removing the need for students to attend face-to-face classes.

Course aims

This course provides graduates with an understanding of the principles of the registered trade marks system, the protection of unregistered marks and related forms of protection against misleading or unfair trading conduct in Australia. In addition, graduates understand the content and implication of a patent specification, enabling them to advise upon possible questions of infringement, validity and compliance.

Career options

Depending on the subjects taken, graduates may seek registration as a trade marks attorney and/or patent attorney in Australia. Arts administrators or media professionals may enhance career options through building expertise in the commercialisation or management of intellectual property assets. Other career options include: patent and trade marks attorney, IP lawyer, IP portfolio manager, policy maker and government regulator.

This course enables overseas registered attorneys to undertake the necessary subjects that the Professional Standards Board requires for Australian registration.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

Previous qualifications can be in any discipline. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

Credit recognition

UTS may grant successful applicants advanced standing or exemption from one or more subjects but the Professional Standards Board for Patent and Trade Marks Attorneys (PSB) has no authority to recognise, for the purpose of registration as a patent attorney or trade marks attorney, such exemptions. Students intending to seek registration need to seek exemption from the PSB. Further information is available from:

The Secretary

Professional Standards Board for Patent and Trade Marks Attorneys PO Box 200

Woden ACT 2606

telephone +61 2 6283 2345

fax +61 2 6285 1048

email mail.psb@ipaustralia.gov.au

www.psb.gov.au

Exemptions are generally not granted for subjects not primarily directed to Australian law.

Course duration and attendance

The course can be completed in a minimum of one semester of full-time or one year of part-time study (timetabling restrictions apply). Most subjects within this course can be studied by distance online and require no on-campus attendance. All lectures, tutorials, course materials and assessments are distributed by a combination of web-based technology and electronic media. Students conduct all communication with the lecturer by electronic means. A number of subjects are concurrently offered in traditional face-to-face, on campus format.

Course structure

The course requires completion of 24 credit points of subjects. Subjects are timetabled annually, but not all subjects are offered every semester. The current timetable can be found at:

http://timetable.uts.edu.au

Course completion requirements

CBK90712 Choice

24cp Total 24cp

Transfer between UTS courses

Subjects undertaken within the Graduate Certificate in Trade Mark Law and Practice (C11130) (see page 497) are recognised within the Graduate Certificate in Intellectual Property (C11229) (see page 518). Students enrolled in C11130 may apply to internally transfer to this course. Candidates are not awarded the Graduate Certificate in Trade Mark Law and Practice but subjects undertaken are applied towards this graduate certificate.

Professional recognition

Subject to final board approval, where applicants have a requisite tertiary qualification as stipulated by the Professional Standards Board for Patent and Trade Marks Attorneys, this course satisfies the educational requirements necessary for registration as a trade marks attorney in Australia.

Overview

The Graduate Certificate in Professional Legal Practice allows students to complete the practical legal training (PLT) requirements necessary for admission by the Supreme Court of NSW to practise as a lawyer. The UTS PLT program is accredited by the Legal Profession Admission Board (LPAB) of the Supreme Court of NSW and offers students a university-standard level of teaching, involving interactive exercises such as practice courts, simulated practice transactions and skills training.

Career options

Career options include lawyer, provided graduates have fulfilled all other academic requirements.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate studies.

For this course the equivalent qualification required is a bachelor's degree in law, the Juris Doctor, LPAB Diploma in Law, or a law qualification from an overseas jurisdiction. Lawyers with overseas law qualifications should consult with the LPAB for admission purposes in order to practise law in NSW. Admission is at the discretion of the associate dean (teaching and learning).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Credit recognition

Students studying this course are given credit recognition for CBK90399 Law Options. This means students need to complete STM90792 Core subjects (18cps), including 75411 Practical Experience subject (0cp), in order to fulfil the course requirements.

Credit is not given where students enter the course on completion of the LPAB Diploma in Law.

Course duration and attendance

The course can be completed in one semester of full-time or one year of part-time study, plus 16 weeks of full-time (or equivalent part-time) approved practical experience.

Further information regarding completion requirements is available from the practical experience guidelines and rules at:

www.law.uts.edu.au/practical/experience/rules

Students who elect to study by distance should refer to the individual subjects with regard to any requirement to attend on-campus intensive block classes.

Course structure

Students complete 24 credit points of subjects, plus 16 weeks of full-time (or equivalent part-time) practical experience.

Industrial training/professional practice

A practical experience work placement is a compulsory and integral component of the course. Practical experience requires students to complete 16 weeks of full-time (or equivalent part-time) practical experience work placement. Students must complete their practical experience work placement within two-and-a-half years of enrolling in 75411 Practical Experience. Further information about the practical experience component of the course can be found at:

www.law.uts.edu.au/practical

Commonwealth-supported place?: Yes Load credit points: 144 Course EFTSL: 3 Location: Kuring-gai campus

Note(s)

This is a graduate-entry degree only.

Overview

This graduate-entry teacher education preparation course provides students with a qualification to teach in secondary schools. Students who have both the required undergraduate degree and specialisation subjects can complete the course in one year of full-time intensive study. The course is offered in a range of specialist areas.

The course consists of three components of study. The professional studies component is available in each of the specialisation areas and aims to develop the professional knowledge, skills and values needed by an effective educator in students' key learning areas. The education studies component provides research-based studies of educational theory and practice as a basis for professional decisionmaking in the school context. These subjects draw upon the foundation education disciplines of psychology, sociology and philosophy, as well as addressing the education of students with special needs. The professional experience component includes both campus-based and field-based experiences.

This course is a secondary school teaching preparation course. It is suitable for students about to graduate with a bachelor's degree and for mature-aged graduates who are changing careers and want a teaching qualification. It includes an intensive professional experience program where students spend up to 10 weeks in practical experience teaching and offers extensive, structured and closely supported experiences of secondary school teaching in different settings. The course has the flexibility to enable students who have most but not all the required undergraduate specialisation subjects to undertake the additional required subjects as part of the degree.

Course aims

The course aims to produce students who:

- are able to teach in a secondary school setting
- are reflective in their practice
- are able to adapt to the changing nature of teaching
- have well-developed interpersonal skills
- are keen to put current developments in learning and teaching into practice, and
- have a commitment to lifelong learning.

Career options

Career options include secondary school teaching in the chosen specialisations.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree in a relevant discipline at an appropriate level.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.5 overall, with a minimum of 8.0 in both the speaking and listening modules, and a reading and writing score of 7.0; or TOEFL: paper based: 610-633 overall with TWE of 5.0, internet based: 102-109 overall with a writing score of 24; or PTE: 73-78; or CAE: 74-79. The English language requirements for the LOTE major are: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Applications

Local students

Local students apply through the Universities Admissions Centre.

International students

International students apply through UTS International.

Credit recognition

Previous study is assessed at the time of application to determine whether completed study satisfies the subject specialisation requirement. Students who have both the required undergraduate degree and specialisation subjects receive 72 credit points in credit recognition. Students who receive less than the maximum 72 credit points in credit recognition are required to complete additional subjects in the specialisation areas. UTS assesses this after an application has been submitted.

Applicants can view the subject requirements for teacher accreditation set by the NSW Institute of Teachers (NSWIT) for each teaching area at: www.nswteachers.nsw.edu.au/Teaching-in-NSW.html

Course duration and attendance

The course can be completed in one year of full-time intensive or part-time equivalent study. Students attend in weekly and/or block mode. Some subjects begin in the week before the start of semester.

Course structure

The total course requirement is 144 credit points comprising a maximum 72 credit points in credit recognition and 72 credit points made up of 14 core subjects, including two practicum-based subjects.

POSTGRADUATE RESEARCH COURSES

C02001v2 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 032316D Course EFTSL: 4

Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact a UTS Student Centre or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

Course structure

Candidates are required to complete a thesis, under the supervision of appropriate members of academic staff. A formal course of study or other work may also be prescribed.

Candidates are required to submit, in consultation with their supervisor(s), a progress report at the end of each semester, and to complete a doctoral assessment and seminar.

Candidates are also invited to participate in other research activities.

Course completion requirements

Select one of the following:

13907 PhD Thesis: Architecture17900 PhD Thesis: Built Environment

81000 PhD Thesis: Design

Other information

Further information is available from the Building 6 Student Centre on: telephone 1300 ask UTS (1300 275 887)

C02018v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 036570B Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Engineering or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

The faculty's policy is one of close interaction with industry and the profession, and of seeking to contribute directly to the advancement of Australian engineering practice. Applied research programs and studies involving a direct relationship with industry are strongly encouraged. The majority of research conducted by faculty staff is supported by industry sources.

Career options

Career options include positions in universities and other institutions undertaking research or other academic work including teaching. Opportunities involving research and development also exist with national and international firms.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

The work may be carried out either on University premises or at a site external to the University, or some combination of both. Candidates may commence their studies from January or July in any given year.

Course structure

Candidates are required to complete a thesis, under the supervision of appropriate members of academic staff. A formal course of study or other work may also be prescribed.

There are three specific stages to the doctoral program to frame and support the progress of the candidate and their study.

The doctoral program includes the formalisation and / or introduction of a number of introductory and advanced modules, including subjects covering research preparation and research methods, to support the research and professional development of the student.

Research student progress is supported and reviewed through a doctoral study plan (DSP). Students design their own DSP in consultation with their supervisor(s). In the first stage, the DSP is based on the student's academic and professional background and his or her goals. The second and third stages are based on the progress

of his or her study. Candidates are assessed prior to advancing to the next stage of their candidature and submit, in consultation with their supervisor(s), a review of progress at the end of each semester.

Course completion requirements

49986 PhD Thesis: Engineering

Transfer between UTS courses

Transfer from a research master's degree program may be offered on application.

Other information

Further information is available from the Faculty of Engineering and Information Technology Research and Development Office on:

C02019v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 014627E Course EFTSL: 4 Location: City campus

Note(s

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Communication or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

Career options

The research degrees offered by UTS: Communication are especially valuable for those wishing to pursue an academic career, a career in research or an advanced level of professional practice.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Selection criteria also include the quality of the research proposal, the faculty's ability to offer appropriate supervision in the applicant's chosen field, and, where necessary, demonstration of generic technical skills

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Course structure

This research degree is undertaken wholly by thesis. A PhD thesis is normally a work of 80,000-100,000 words. Coursework subjects may be prescribed according to individual student requirements. While the doctoral thesis is normally written in dissertation style, candidates may, if they wish, illustrate their argument by also submitting film,

video, sound/audio, photography or other formats. Applicants should contact the research degrees administrator for further information about non-traditional formats for thesis presentation.

The Doctor of Philosophy is structured in three phases. Phase 1 involves the development of a number of advanced research skills and capabilities. At the beginning of the program, each student negotiates a doctoral study plan with their supervisor. This plan makes explicit the kinds of support each student requires. A formal doctoral assessment is undertaken at the end of Phase 1 in which the candidates present a full proposal for assessment, which is a prerequisite for entering Phase 2.

In Phase 2, students develop their individual program of research, culminating in Phase 3 in the preparation and submission of a major thesis which makes a sustained contribution to knowledge in their field of inquiry.

Research and development activities are provided throughout the three phases to assist students to develop the capabilities of a successful doctoral graduate.

Course completion requirements

51991 PhD Thesis: Humanities and Social Sciences

Other information

Further information is available from the research degrees administrator:

email Juleigh.Slater@uts.edu.au

C02020v2 Doctor of Creative Arts

Award(s): Doctor of Creative Arts (DCA) CRICOS code: 014625G Course EFTSL: 4 Location: City campus

Note(s

Research degrees are offered on a sponsored, scholarship, faculty partsponsored or full-fee-paying basis. Contact UTS: Communication or the UTS: Graduate Research School for further details.

While UTS: Communication may be in a position to provide access to media production facilities for DCA candidates, it provides neither training in the use of those facilities nor the cost of materials.

Overview

The Doctor of Creative Arts (DCA) is for graduates who have a significant record of achievement in the media and the creative arts and who want to undertake substantial research in the areas of media and creative production.

Career options

The research degrees offered by UTS: Communication are especially valuable for those wishing to pursue an academic career, a career in research or an advanced level of professional practice.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Selection criteria also include the quality of the applicant's portfolio of published, screened, exhibited or broadcast creative work, the quality of the research proposal, the faculty's ability to offer appropriate supervision in the applicant's chosen field, and, where necessary, demonstration of generic technical skills.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Course structure

The work produced for this degree is of equivalent intellectual scope and level to a PhD, but is presented in non-traditional formats. Coursework subjects may be prescribed according to individual student requirements. The substantial creative work should be the equivalent of a 50,000-70,000-word written work, accompanied by a 30,000-word dissertation.

The doctoral program is structured in three phases. Phase 1 involves the development of a number of advanced research skills and capabilities. At the beginning of the program, each student negotiates a doctoral study plan with their supervisor. This plan makes explicit the kinds of support each student requires. A formal doctoral assessment is undertaken at the end of Phase 1 in which the candidates present a full proposal for assessment, which is a prerequisite for entering Phase 2. In Phase 2, students develop their individual program of research,

culminating in Phase 3 in the preparation and submission of a dissertation which makes a sustained contribution to knowledge in their field of inquiry.

Research and development activities are provided throughout

Research and development activities are provided throughout the three phases to assist students to develop the capabilities of a successful doctoral graduate.

Course completion requirements

51992 Doctoral Project

C02024v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 032320G

Course EFTSL: 4
Location: City campus

Note(s)

Research degrees are offered on a research training scheme, scholarship or full-fee-paying basis (international). Contact UTS: Health or the UTS Graduate Research School for further details.

Overview

The Doctor of Philosophy is a research degree requiring an original and significant contribution to knowledge in a defined field of study. It is the traditional path for those wishing to assume leadership positions in research.

This course assists students to complete original research that contributes to knowledge in their field within an international context. A student may construct their thesis by way of a series of related prospective publications during the course of their candidacy. Research at UTS takes place in a dynamic and outcomes-oriented environment. The University attracts students who want to develop their knowledge and expertise within a professional and stimulating framework. When students enrol, they become part of a lively and vigorous research culture, working closely with academic staff and health industry partners.

Career options

This degree prepares nurses, midwives and health service professionals for leadership positions in teaching, management and research. Opportunities are not limited to Australia and there is the possibility of developing a career on an international level.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants are also required to submit a research proposal and have the agreement of a suitable supervisor at the time of application. The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

All research students are expected to attend the twice-yearly Research Student Symposia and are required to present a seminar during these weeks, twice a year for full-time students and once a year for part-time students.

Course structure

Students undertake a research project that may be in a professional or clinical area of the student's choice, or may be of a theoretical nature, addressing gaps in knowledge related to policy or practice. Students choose from a variety of research methodologies with the research approach being determined by the nature of the research undertaken. The research culminates in the production of a thesis for examination. Students are required to undertake a candidature assessment at the end of the first two semesters for full-time students, and at the end of the first three semesters for part-time students. Students work closely with a principal supervisor and a supervisory panel and are required to report on their progress each semester.

Course completion requirements

Select one of the following:

92984 PhD Thesis: Nursing 93000 PhD Thesis: Midwifery 93001 PhD Thesis: Health

93007 PhD Thesis: Sport and Exercise

C02028v6 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 008681E Course EFTSL: 4 Location: City campus

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The PhD is awarded to candidates who make an original and distinct contribution to knowledge in their field of specialisation.

This degree is particularly valuable for students wishing to pursue a career in research or academia.

Career options

Career options include positions in universities, undertaking research, contributions to public policy, or other academic work including teaching, interest groups and legal publishing.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Support for the project, availability of supervision, availability of places, evidence of research capacity in a relevant discipline and the applicant's overall abilities and experience are all taken into account.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

The faculty operates a pre-assessment process prior to the formal application process. This enables the faculty to give advice about whether:

- · a student is likely to meet the academic eligibility requirements
- the faculty is able to offer supervision in a chosen research area
- a student appears to have a viable research topic.

The informal pre-assessment process provides students with an indication about whether they are likely to be recommended for admission if a formal application is submitted. Successful completion of the pre-assessment does not guarantee acceptance into the program. The faculty may request one or more drafts of a research proposal during pre-assessment. Prospective candidates are advised that research proposals may be reviewed by anti-plagiarism software. Contact the faculty research officer for further information about the pre-assessment process.

Formal applicants must submit a research proposal at the point of application. Once final approval is obtained for a research proposal, the topic cannot be changed except with the approval of the University. Detailed information about the application process can be found at: www.research.uts.edu.au/future-students

International students

International students must apply through UTS: International.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

The work may be carried out either on University premises or at a site external to the University, or some combination of both. Candidates are required to make contact with their supervisor(s) at least once a month to discuss the progress of their research.

Course structure

Candidates are required to submit a dissertation of approximately 100,000 words. As part of this course, students must also complete the subject 77697 Higher Degree Research Seminar.

The candidate is required to undertake all assessments as part of the Faculty's Doctoral Framework three-stage program. In the first stage candidates must complete a formal candidature assessment, and in the second stage a progress confirmation assessment, to ensure their progress is consistent with completion of the research program in the prescribed time and demonstrates potential to complete the work to standard. Doctoral candidates are required to make an oral presentation of their dissertation six months prior to submission of their dissertation for examination.

Information regarding UTS: Law's key research areas and strengths, and the research interests of staff members, is available at postgraduate research degrees (see page 103).

Course completion requirements

77696 PhD Thesis: Law

77697 Higher Degree Research Seminar

C02029v4 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 009469A

Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Information Technology or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

The course enables students to advance themselves in their career in computing and information technology. It offers flexibility in the choice of topic of research so it may be closely aligned with students' professional careers.

Career options

Career options include positions in universities and other institutions undertaking research or other academic work including teaching. Opportunities involving research and development also exist with national and international firms.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants' previous qualifications must have a major computing component. Before submitting a formal application for admission to this course, applicants should first seek the approval of a potential supervisor for their proposed research work.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

UTS: Information Technology has a strong preference for research work that proceeds at a full-time pace. However, this preference should not be seen as a deterrent to those students who wish to remain in employment. Students who are working full time are encouraged to select a topic for their research which is closely aligned with their professional work.

Course structure

There are three specific stages to the doctoral program to frame and support the progress of the candidate and their study.

The doctoral program includes the formalisation and / or introduction of a number of introductory and advanced modules, including subjects covering research preparation and research methods, to support the research and professional development of the student.

Research student progress is supported and reviewed through a doctoral study plan (DSP). Students design their own DSP in consultation with their supervisor(s). In the first stage the DSP is based on the student's academic and professional background and his or her goals. The second and third stages are based on the progress of his or her study. Candidates are assessed prior to advancing to the next stage of their candidature and submit, in consultation with their supervisor(s), a review of progress at the end of each semester.

Candidates are required to submit a thesis for examination under the supervision of their supervisor(s).

Course completion requirements

Select one of the following:

32986 PhD Thesis: Information Systems 33874 PhD Thesis: Software Engineering

32903 PhD Thesis: Analytics 32144 Technology Research Preparation 6cp 32931 Technology Research Methods 6cp

C02030v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 009463G Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Science or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree that involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

The PhD provides an opportunity for graduates to acquire high-level research skills and substantially deepen their knowledge in an area of science.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Selection criteria for admission also include the quality of the research project proposal, the faculty's ability to offer appropriate supervision in the applicant's chosen field and, where necessary, demonstration of necessary technical skills.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Course structure

Candidates are required to complete a thesis, under the supervision of appropriate members of academic staff. A formal course of study or other work may also be prescribed.

Candidates are required to submit, in consultation with their supervisor(s), a progress report at the end of each semester, and to complete a doctoral assessment and seminar.

Course completion requirements

34980 PhD Thesis: Mathematics

C02037v4 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 032334B Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact the Institute for Sustainable Futures or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation. It is offered to both local and international students.

Graduates from the PhD have consistently achieved excellent examiners' reports from international leaders in their fields. Many have been eligible for the UTS Chancellor's Award, and several have been placed on the Chancellor's List.

Course aims

The institute aims to support students taking a trans-disciplinary or interdisciplinary approach to research while building on their existing expertise.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applications to the Institute for Sustainable Futures are assessed based on the following four criteria:

- professional experience strength and relevance to the candidate's opportunities (impact)
- research output (quality and impact)
- research proposal (quality)
- academic merit (quality).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying

on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Course structure

This research degree is undertaken wholly by thesis.

C02039v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 043350M Course EFTSL: 4

Location: City campus and China

Note(s

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact UTS: International Studies or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

The Faculty of Arts and Social Sciences has strong expertise in China studies. University rules allow for the submission of a thesis in a language other than English providing that specific conditions have been met.

Career options

The research degrees offered by UTS: International Studies are especially valuable for those wishing to pursue an academic career or a career in research.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Each applicant should, prior to application, discuss their proposed thesis topic with the UTS: International Studies research coordinator to determine whether supervision is possible.

In addition to completing the University's application form, PhD applicants must provide the following:

- evidence of their ability to undertake advanced original research, appropriate to the proposed doctoral program. This may include previous research at honours and/or master's level, experience as a research team member, or professional practice involving systematic inquiry or advanced scholarship. Applicants should include a list of their published work, if appropriate
- project proposal: the proposal should be about 2000 words in length and include a statement of the problem, research question or area of investigation; a discussion of the relevant literature; an outline of the methodological approach; and a justification of the importance of the research. It should also indicate how the research aligns with one of the Faculty's research strengths.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Students are required to enrol in person and meet doctoral assessment requirements.

Contact your potential supervisor to discuss your application.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

This course is available in onshore and offshore mode. Activities are run by the faculty to support students in their research degrees. All onshore students are expected to attend these activities and students based offshore are expected to access these activities through our online forum. As well, students who study offshore must ensure they have regular communication with their supervisor.

Course structure

The research degree is undertaken wholly by thesis. A doctoral thesis is normally a work of 80,000-100,000 words and is examined by three appropriate examiners, external to UTS.

UTS: International Studies has the capacity to supervise theses in the fields of cultural diversity, social change, contemporary culture, politics, and modern history in China, Japan, Europe and the Americas

The degree is structured in three phases. Phase 1 involves the development of a number of advanced research skills and capabilities. At the beginning of the program, each student negotiates a doctoral study plan with their supervisor. This plan makes explicit the kinds of support each student requires. A formal doctoral assessment is undertaken at the end of Phase 1 in which the candidates present a full proposal for assessment, which is a prerequisite for entering Phase 2.

In Phase 2, students develop their individual program of research, culminating in Phase 3 in the preparation and submission of a major thesis which makes a sustained contribution to knowledge in their field of inquiry.

Research and development activities are provided throughout the three phases to assist students to develop the capabilities of a successful doctoral graduate.

C02041v4 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD) CRICOS code: 015943G Course EFTSL: 4

Location: City or Kuring-gai campuses

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Education or the UTS: Graduate Research School for further details.

Overview

The Doctor of Philosophy is designed to meet the needs of those who wish to pursue a career in research or academic life. In this program, candidates embark on high-level research in one of the areas of research strength within UTS: Education.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in education or a related discipline. Applicants are required to provide UTS: Education with a copy of a previously completed thesis, piece of substantial academic writing or research report as part of their evidence of academic record. The research topic must be aligned with a research area of the faculty. The applicant must also provide an outline and background to the intended area of research, making a case for its significance and importance, and explaining its connection to a research area of the Faculty of Arts and Social Sciences.

Selection criteria includes the quality of the research proposal and the faculty's ability to offer appropriate supervision in the applicant's chosen field.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete in less than the maximum time.

For all courses involving a major thesis there is provision for early submission of the thesis on application. A candidate who wishes to extend candidature must seek permission from the UTS: Graduate Research School Board.

Course structure

The course is structured in three phases. Phase 1 involves the development of a number of advanced research skills and capabilities. At the beginning of the program, each student negotiates a doctoral study plan with their supervisor. This plan makes explicit the kinds of support each student requires. A formal doctoral assessment is undertaken at the end of Phase 1 in which the candidate presents a full proposal for assessment, which is a prerequisite for entering Phase 2.

In Phase 2, students develop their individual program of research, culminating in Phase 3 in the preparation and submission of a major thesis which makes a sustained contribution to knowledge in their field of inquiry.

Research and development activities are provided throughout the three phases to assist students to develop the capabilities of a successful doctoral graduate in education.

C02047v1 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 058666A Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Information Technology or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree which involves an intense period of supervised study and research, culminating in the submission of a thesis. The degree is awarded to candidates who, through original investigation, make a distinct and significant contribution to knowledge in their field of specialisation.

The course enables students to advance themselves in their career in computing and information technology. It offers flexibility in the choice of topic of research so it may be closely aligned with students' professional careers.

Career options

Career options include positions in universities and other institutions undertaking research or other academic work including teaching. Opportunities involving research and development also exist with national and international firms.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must have a major computing component. Applicants should first seek the approval of a potential supervisor for their proposed research work.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

UTS: Information Technology has a strong preference for research work that proceeds at a full-time pace. However, this preference should not be seen as a deterrent to those students who wish to remain in employment. Students who are working full time are encouraged to select a topic for their research which is closely aligned with their professional work.

Course structure

There are three specific stages to the doctoral program to frame and support the progress of the candidate and their study.

The doctoral program includes the formalisation and/or introduction of a number of introductory and advanced modules, including subjects covering research preparation and research methods, to support the research and professional development of the student.

Research student progress is supported and reviewed through a doctoral study plan (DSP). Students design their own DSP in consultation with their supervisor(s). In the first stage the DSP is based on the student's academic and professional background and his or her goals. The second and third stages are based on the progress of his or her study. Candidates are assessed prior to advancing to the next stage of their candidature and submit, in consultation with their supervisor(s), a review of progress at the end of each semester.

Candidates are required to submit a thesis for examination under the supervision of their supervisor(s).

C02048v3 Doctor of Philosophy

Award(s): Doctor of Philosophy (PhD)

CRICOS code: 058221G Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact UTS: Business or the UTS: Graduate Research School for further details.

Overview

The PhD is a University-wide degree that involves an intense period of supervised study and research. The degree of Doctor of Philosophy is awarded to successful candidates who have made a distinct contribution to knowledge, whether by original investigation, review or criticism.

With accreditation from the Association to Advance Collegiate Schools of Business (AACSB) International, UTS Business School is one of a select few elite business schools worldwide. Many UTS Business School staff are leaders in their fields both academically and in industry, working as senior staff or consultants, or with strong links to major corporations.

The UTS Business School PhD program recognises that certain core skills are critical to the successful completion of world-class research. The PhD program provides the opportunity for candidates to receive training in advanced disciplinary and cross-disciplinary methods which provide the basis on which candidates are able to build research capability. PhD students are supervised by a committee of three, with a chairperson normally located in the discipline most fundamental to the candidate's doctoral research. Interdisciplinary research is encouraged, and PhD committees can include researchers from cognate or other disciplines beyond where the candidate is located.

Career options

Career options include management-level positions in industry or government, and academic positions.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in business or a related discipline. Each applicant is required, prior to application, to discuss a potential thesis area with the relevant school research coordinator who then advises whether appropriate supervisors and resources are available. Applicants are also required to submit a brief thesis proposal or statement of research interest with their application.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Course structure

Candidates are required to complete a thesis of approximately 50,000-70,000 words. Candidates may also be required to undertake some coursework in research methods and/or theoretical knowledge in the core fields of study. During their candidature, students' progress is monitored via assessments and regular progress reports.

Course completion requirements

Select one of the following:

21982 PhD Thesis: Management
22982 PhD Thesis: Accounting
24982 PhD Thesis: Marketing
23926 PhD Thesis: Economics
25927 PhD Thesis: Finance

C02050v1 Doctor of Education

Award(s): Doctor of Education (EdD) CRICOS code: 066824C

Course EFTSL: 4 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact the faculty or the UTS: Graduate Research School for further details.

Overview

The Doctor of Education is designed to meet the needs of practitioners who wish to research some aspect of their field of practice. Candidates embark on high-level, practice-based research into one of the areas of research strength in UTS: Education.

The course caters not only for students committed to an academic path, but for senior practitioners from public and private sectors who wish to study and undertake research at the highest level.

Course aims

The purpose of the course is to enhance the practitioner's capacity to question, analyse, critique and develop their profession and its practices. It is a research degree whose purpose is to assist professionals to develop a relationship between research and their professional activities, in areas such as policy development and appraisal, innovation and administration.

Career options

Career options include leadership roles in the education field as a principal, manager, planner, policy adviser, teacher or trainer, in a government, industrial, commercial or community setting.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in education or a related discipline. Applicants are required to provide UTS: Education with a copy of a previously completed thesis, piece of substantial academic writing or research report as part of their evidence of academic record. Applicants must also develop a brief research proposal that indicates a scope and standard appropriate to an educational doctoral degree.

Selection criteria also includes the faculty's ability to offer appropriate supervision in the applicant's chosen field.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

This course is normally completed on a part-time basis, taking between three and four-and-a-half years. Students continue their professional work while they study. There is provision for early submission of the thesis on application.

Course structure

The course is structured into three phases. Phase 1 (the first two semesters) involves a structured foundation of research development workshops, in which participants work collaboratively with their supervisors, other academics and fellow students to develop their research proposals. Students can enter the course having professional experience as well as having demonstrated potential to do research. There are specific skills and capabilities required of doctoral level research and study, which are systematically developed through these workshops, with a particular focus on researching practice and on the development of a portfolio. A formal doctoral assessment is undertaken at the end of Phase 1 in which candidates present a full proposal for assessment, which is a prerequisite for entering Phase 2.

In Phase 2, candidates develop their individual program of research which culminates in Phase 3 in a sustained contribution to some aspect of professional practice and which is presented in a portfolio of outcomes. Each portfolio is developed according to a negotiated process with supervisors, and is accompanied by a statement establishing the scale and standard of work. Candidates participate in a range of research and development activities throughout this phase to assist them in developing the capabilities of a successful doctoral graduate in education.

C02051v1 Doctor of Project Management

Award(s): Doctor of Project Management (DPM)

CRICOS code: 045835G Course EFTSL: 3 Location: City campus

Overview

This course combines coursework subjects and original research culminating in a doctoral dissertation. Candidates develop their doctoral topic through the coursework component. The dissertation must have a project, program or portfolio management focus and analysis representing an original investigation, criticism or review of a project, program and portfolio management of a standard suitable for publication.

The research can be undertaken in a variety of industries and applications such as product development, information and communication systems, innovation and technology, defense, construction, health, planning, property development, architecture

and design and organisational change. Research related to finding solutions for problems at a workplace informed by rigorous research is encouraged.

This program is one of the few professional doctorates in project management in Australia. It counters the isolation experienced by many PhD doctoral candidates by providing a combination of postgraduate coursework subjects and a dissertation, and allows candidates to benefit from contact with coursework students and UTS: Design Architecture and Building.

Career options

Career options include project management consultancy, senior management positions in project management and consultancy organisations, positions in universities, undertaking research, or other academic work, including teaching and research supervision.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

At least five years of industry experience in project management or senior management positions is expected, as the research requires a good understanding of organisational issues. Support for the project, availability of supervision, availability of places, availability of facilities at UTS, the applicant's overall abilities and experience and report of the academic referees submitted with the application are all taken into account.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

Applicants must submit a research proposal at the point of application. Once final approval is obtained for a research proposal, the topic cannot be changed except with the approval of the University. A research proposal should be submitted along with the application as detailed at:

www.uts.edu.au/research-and-teaching/future-researchers

Local students

Information about the application process can be found at: www.uts.edu.au/research-and-teaching/future-researchers/research-degrees-uts/applying-research-degree-and-scholarship

International students

International students can find details on how to apply for study at UTS at:

www.uts.edu.au/future-students/international

The international postgraduate student application form is available to download at:

 $www.uts.edu.au/future-students/international/\\essential-information/applying-study-uts$

Credit recognition

Suitably qualified applicants may be given up to 36 credit points of exemptions for coursework subjects.

Further details are available at:

www.uts.edu.au/future-students/design-architecture-and-building/essential-information/credit-recognition

Course duration and attendance

The standard course duration is three years of full-time (six semesters) or six years of part-time (12 semesters) study (the maximum course duration is four years of full-time or eight years of part-time study).

Each coursework subject involves block attendance on campus of nominally five days duration. Prior to this period, there are preparatory tasks supported by online resources and participation, and following this period students are required to complete individual assessment tasks, again using online support from teaching staff. The research methodology subjects are taught online.

The research component comprises regular meetings with the allocated supervisor, face-to-face for local students on campus, and using communication and collaboration technologies for students doing this research from an approved overseas location. Students located overseas are required to come to UTS for their first assessment and will have a local supervisor allocated to them accessible for face-to-face meetings where they are located.

Course structure

The course comprises one-third coursework subjects and two-thirds research thesis.

From Autumn 2010, this course requires completion of two compulsory 6-credit-point research methodology subjects, six 6-credit-point Master of Project Management (C04006) (see page 352) postgraduate coursework subjects chosen from CBK90605, and a dissertation of approximately 50,000 to 75,000 words.

With prior approval from the allocated supervisor and the course director, up to a maximum of two of the postgraduate coursework subjects can be substituted with subjects from other UTS faculties, provided these subjects help the candidate formulate and conduct their research.

While the DPM thesis may be shorter than a PhD thesis, taking account of the coursework component, it is expected to exhibit the same level of originality, criticism and intellectual rigour normally associated with a PhD thesis. Being a professional doctorate, the research is also expected to contribute to professional practice.

Both the candidate and the candidate's principal supervisor are required to submit progress reports at the end of each semester following commencement of the dissertation. Within the first year of commencement for full-time students, or one-and-a-half years for part-time students, candidates must complete a formal doctoral assessment to ensure they are gaining the prerequisite knowledge and skills to allow successful and timely completion of the proposed research program; that their progress is consistent with completion of the research program in the prescribed time; and that they demonstrate the potential to complete the work to standard.

C02052v1 Doctor of Nursing

Award(s): Doctor of Nursing (DN) CRICOS code: 032319A Course EFTSL: 4 Location: City campus

Note(s) This source is not available for now admissions in

This course is not available for new admissions in 2014. For further information contact the research administrator in UTS: Health.

Overview

UTS: Health's research degrees are highly regarded, both nationally and internationally. Candidates for the Doctor of Nursing have the opportunity to integrate a research focus within a framework of policy development, leadership and international practice. Graduates from a Doctor of Nursing can lead in the development of practice and take their place in disciplinary research projects.

This course assists students to complete original research that contributes to knowledge in their field within an international context. Research at UTS takes place in a dynamic and outcomes-oriented environment. The University attracts students who want to develop their knowledge and expertise within a professional and stimulating framework. When students enrol, they become part of a lively and vigorous research culture, working closely with academic staff and health industry partners.

Career options

The Doctor of Nursing prepares nurses for leadership positions within the profession. Opportunities are not limited to Australia and there is the possibility of developing a career on an international level.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants are required to have authorisation to practise as a registered nurse and substantial professional/administrative experience as evidenced by their professional portfolio. Applicants are also required to submit a research proposal and have the agreement of a suitable supervisor at the time of application.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study.

Subjects are run in intensive mode, with an additional online component. All research students are expected to attend the twice-yearly Research Student Symposia and are required to present a seminar during these weeks, twice a year for full-time students and once a year for part-time students.

Course structure

This degree is a structured program of study and research related to the development and extension of professional practice, culminating in the presentation of a research portfolio for examination. It includes an emphasis on the extension and leadership development of both practice and practitioners in local, national and international contexts. Students are required to undertake a candidature assessment at the end of the first two semesters for full-time students, and at the end of the first three semesters for part-time students. During candidature students complete research preparation subjects and subjects examining the program themes, as well as their selected

research projects. Students work closely with a principal supervisor and a supervisory panel and are required to report on their progress each semester.

C02055v1 Doctor of Education

Award(s): Doctor of Education (EdD) Course EFTSL: 4 Location: Hong Kong

Note(s)

This course is only offered offshore. It is available in Hong Kong. The language of tuition is English.

This is the offshore version of the Doctor of Education (C02050) (see page 532).

Overview

The Doctor of Education is designed to meet the needs of practitioners who wish to research some aspect of their field of practice. Candidates embark on high-level, practice-based research into one of the areas of research strength in UTS: Education.

The course caters not only for students committed to an academic path, but for senior practitioners from public and private sectors who wish to study and undertake research at the highest level.

Course aims

The purpose of the course is to enhance the practitioner's capacity to question, analyse, critique and develop their profession and its practices. It is a research degree whose purpose is to assist professionals to develop a relationship between research and their professional activities, in areas such as policy development and appraisal, innovation and administration.

Career options

Career options include leadership roles in the education field as a principal, manager, planner, policy adviser, teacher or trainer, in a government, industrial, commercial or community setting.

Admission requirements

Applicants must have completed a UTS recognised master's by research or bachelor's degree with first or second class honours (division 1), or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in education or a related discipline. Applicants are required to provide UTS: Education with a copy of a previously completed thesis, piece of substantial academic writing or research report as part of their evidence of academic record. Applicant must also develop of a brief research proposal that indicates a scope and standard appropriate to an educational doctoral degree.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

Course duration and attendance

The maximum course duration is four years of full-time or eight years of part-time study. Students can complete the course in less than the maximum time.

This course is normally completed on a part-time basis, taking between three and four-and-a-half years. Students continue their professional work while they study. There is provision for early submission of the thesis on application.

Course structure

6ср

The course is structured into three phases. Phase 1 involves a structured foundation of research development workshops, in which participants work collaboratively with their supervisors, other academics and fellow students to develop their research proposals. Students can enter the course having professional experience as well as having demonstrated potential to do research. There are specific skills and capabilities required of doctoral level research and study, which are systematically developed through these workshops, with a particular focus on researching practice and on the development of a portfolio. A formal doctoral presentation is undertaken at the end of Phase 1 in which candidates present a full proposal for evaluation, which is a prerequisite for entering Phase 2.

In Phase 2, candidates develop their individual program of research which culminates in Phase 3 in a sustained contribution to some aspect of professional practice and which is presented in a portfolio of outcomes. Each portfolio is developed according to a negotiated process with supervisors, and is accompanied by a statement establishing the scale and standard of work. Candidates participate in a range of research and development activities throughout this phase to assist them in developing the capabilities of a successful doctoral graduate in education.

Course completion requirements

EdD Thesis: Education 019950

Professional recognition

This course is accredited by the Hong Kong Education Board.

C03001v3 Master of Architecture (Research)

Award(s): Master of Architecture (MArch)

CRICOS code: 008672F Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact a UTS Student Centre or the UTS: Graduate Research School for further details.

Overview

A limited number of places are offered each year to suitably qualified students to follow a program of study leading to this award. This degree is for graduates seeking to extend and deepen their knowledge by undertaking an appropriate research investigation under professional supervision by UTS: Design, Architecture and Building academic staff.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

The requirement of this degree is the preparation of a thesis which is judged by its examiners to be a distinct contribution to the knowledge of the subject. The format of the body of work and the length of the written dissertation are determined after discussion with UTS: Design, Architecture and Building staff and must be approved by the Graduate Studies Committee. Candidates may be required to first undertake coursework subjects in research methodology to gain experience with research methods and skills. Candidates are required to present papers, which form part of the preparation of their thesis, at UTS: Design, Architecture and Building postgraduate seminars.

C03012v3 Master of Design (Research)

Award(s): Master of Design (MDesign) CRICOS code: 030867M

Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored basis for permanent residents or on a full-fee-paying basis for international students. Contact a UTS Student Centre or the UTS: Graduate Research School for further details.

Overview

This degree is for graduates who want to deepen their understanding and hands-on skills in both research-for-design and research-by-design as a way to define the future of the design profession.

Design challenges are becoming more and more complex: digitisation, globalisation, the growing importance of services and the shift towards culturally and socially intelligent design means that the profile and role of the designer are changing. Research for design and researching through design experiments are becoming part of new design practice. In this course, students are challenged to develop a deep understanding of what this means for them as practising designers. They are trained in the insights and hands-on skills to do the various types of research that are becoming all-important in modern design practice.

Career options

Graduates are the new guard of academically trained designers who have deepened their insight into where design is going, and can offer employers the combination of design and research skills that they need for their long-term prosperity. There is also a clear path from this degree towards a more research-focused career, either in industry or in academia.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

The requirement of this degree is the preparation of a thesis which is judged by its examiners to be a distinct contribution to the knowledge of the subject. The format of the body of work and the length of the written dissertation are determined after discussion with UTS: Design, Architecture and Building staff and must be approved by the Graduate Studies Committee.

Candidates may be required first to undertake coursework subjects in research methodology to gain experience with research methods and skills. Candidates are also required to present papers, which form part of the preparation of their thesis, at the UTS: Design, Architecture and Building postgraduate seminars.

Specialisations are generally available within the areas of fashion and textile, industrial, interior and visual communication design, subject to supervisor availability.

Course completion requirements

81821 Thesis (Design)

C03017v2 Master of Engineering (Research)

Award(s): Master of Engineering (ME) CRICOS code: 009468B Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Engineering or the UTS: Graduate Research School for further details.

Overview

This degree may be awarded to candidates who have completed an individual program of supervised work and submitted a thesis embodying the results. Topics which involve close cooperation with industry are strongly encouraged, and a majority of current candidates are engaged in topics which are actively supported by their employers.

This degree provides practising engineers with an opportunity to pursue, in depth, the solution of an engineering problem which requires individual effort beyond the scope of a bachelor's degree. In keeping with the faculty's overall policies, the accent is on applied research and development work, although basic research proposals are also welcomed and supported.

Career options

Career options include positions in universities and other institutions undertaking research or other academic work including teaching. Opportunities involving research and development also exist with national and international firms.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional discurrences.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Candidates may commence their studies from January or July in any given year and the work may be carried out either using faculty facilities or in an industrial location. Candidates who are specially qualified in the relevant discipline may be allowed to complete the program in less than the maximum time.

Course structure

The Master of Engineering is undertaken by candidates who complete a thesis on a topic of their choice, which has been approved by the University. The thesis must make a distinct contribution to knowledge in the area covered. Its contents may report the results of an original investigation or review, or criticise some aspect of engineering knowledge, or present an engineering design or solution involving the application of new or known techniques to an engineering problem of significance. There are no coursework subjects in this course. There is a formal assessment of progress at the end of the first two semesters for both full-time and part-time candidates, in accordance with University Rule 11.13.

Course completion requirements

49776 Master of Engineering Thesis

Other information

Further information is available from the Faculty of Engineering and Information Technology Research and Development Office on:

C03018v2 Master of Arts in Humanities and Social Sciences (Research)

Award(s): Master of Arts (MA) CRICOS code: 014624G Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Communication or the UTS: Graduate Research School for further details.

Overview

The Master of Arts in Humanities and Social Sciences (Research) provides an opportunity for graduates to develop their research skills, to deepen their knowledge in an area of the social sciences or humanities, and to undertake some original research.

Career options

The research degrees offered by UTS: Communication are especially valuable for those wishing to pursue an academic career, a career in research or an advanced level of professional practice.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Selection criteria include the quality of the research proposal, UTS: Communication's ability to offer appropriate supervision in the applicant's chosen field of study, and, where necessary, possession of generic technical skills.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

This research degree is undertaken wholly or mainly by thesis. A master's thesis is normally a work of 30,000-40,000 words. Coursework subjects may be prescribed, according to individual student requirements.

While the usual master's thesis is written in dissertation style, candidates may, if they wish, illustrate their argument by submitting film, video, sound/audio, photography or other formats together with a written dissertation of shorter length. Applicants should contact the research degrees administrator for further information on non-traditional formats for thesis presentation.

Course completion requirements

51984 Master of Arts Thesis

C03024v6 Master of Laws (Research)

Award(s): Master of Laws (LLM) CRICOS code: 006407F Course EFTSL: 2 Location: City campus

Overview

The Master of Laws (Research) provides an opportunity for graduates to develop their research skills, deepen their knowledge in some area of the law and undertake original research. The degree is awarded to candidates who demonstrate competence in research, an understanding of research methods and an ability to make an original contribution to knowledge.

This course is suitable for students who have completed a coursework degree and wish to deepen their knowledge in a particular legal area by means of research. Students develop critical and analytical skills and advanced research skills to enable in-depth exploration of their chosen area. This degree is valuable for those wishing to pursue a career in research.

Career options

Career options include positions in universities, undertaking research, contributions to public policy, or other academic work including teaching, interest groups and legal publishing.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in a relevant discipline, usually with honours or a distinction average.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Applications

The faculty operates a pre-assessment process prior to the formal application process. This enables the faculty to give advice about whether:

- a student is likely to meet the academic eligibility requirements
- the faculty is able to offer supervision in a chosen research area
- a student appears to have a viable research topic.

The informal pre-assessment process provides students with an indication about whether they are likely to be recommended for admission if a formal application is submitted. Successful completion of the informal assessment does not guarantee acceptance into the program. The faculty may request one or more drafts of a research proposal during pre-assessment. Prospective candidates are advised that research proposals may be reviewed by anti-plagiarism software. Contact the research officer for further information about the pre-assessment process.

Formal applicants must submit a research proposal at the point of application. Once final approval is obtained for a research proposal, the topic cannot be changed except with the approval of the University.

Detailed information about the application process can be found at: www.research.uts.edu.au/future-students

International students

International students must apply through UTS: International.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study. Students can complete the course in less than the maximum time.

The work may be carried out either on University premises or at a site external to the University, or some combination of both. Candidates are required to make contact with their supervisor(s) at least once a month to discuss the progress of the research being undertaken.

Course structure

Students are required to submit a thesis of approximately 40,000-60,000 words. As part of this course, students must also complete the subject 77697 Higher Degree Research Seminar.

The candidate is required to undertake all assessments as part of the Faculty's Doctoral Framework three-stage program. In the first stage candidates must complete a formal candidature assessment, and in the second candidates must complete a progress confirmation, to ensure their progress is consistent with completion of the research program in the prescribed time and that they demonstrate potential to complete the work to standard.

Information regarding UTS: Law's key research areas and strengths, and the research interests of staff members, is available at postgraduate research degrees (see page 103).

Course completion requirements

77698 Thesis (Law)

77697 Higher Degree Research Seminar

Transfer between UTS courses

Candidates in the Master of Laws (Research) who wish to transfer to the PhD but do not meet the PhD admission requirements can apply to transfer. Transfer applicants must have completed a minimum of one year's study and have reached a standard equivalent to that of a bachelor's degree with first or second class honours (division 1). Candidates applying to transfer must also demonstrate, with the support of their supervisor(s), that their topic has doctoral scope.

Other information

Further information is available from the faculty research officer:

telephone +61 2 9514 3753

fax +61 2 9514 3400

email law.research@uts.edu.au

Applicants are encouraged to visit the UTS: Graduate Research School website at:

www.gradschool.uts.edu.au

C03025v3 Master of Science in Computing Sciences (Research)

Award(s): Master of Science (MSc) CRICOS code: 001121E Course EFTSL: 2

Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Information Technology or the UTS: Graduate Research School for further details.

Overview

This course enables graduates to extend and deepen their knowledge in a specialised area of computing by undertaking research under the supervision of a member of academic staff.

The course enables students to advance themselves in their career in computing and information technology, and offers flexibility in the choice of research topic so it may be closely aligned with students' professional careers.

Career options

This course enables graduates to extend and deepen their knowledge of a specialised area of computing by undertaking research. The course enables students to advance themselves in their career in computing and information technology, and offers flexibility in the choice of research topic so it may be closely aligned with students' professional careers. Career options include positions in universities and other institutions undertaking research or other academic work including teaching. Opportunities involving research and development also exist with national and international firms.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must have a major computing component. Before submitting a formal application for admission to this degree course, applicants should first seek the approval of a potential supervisor for their proposed research work.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

UTS: Information Technology has a strong preference for research work that proceeds at a full-time pace. However, this preference should not be seen as a deterrent to those students who wish to remain in employment. Students who are working full time are encouraged to select a topic for their research which is closely aligned with their professional work.

Course structure

Candidates are required to complete two subjects covering technology research preparation and technology research methods respectively (some candidates may be exempt from completing these subjects).

The degree is examined through presentation of a thesis.

All thesis students are required to submit, in consultation with their supervisor(s), a progress report at the end of each semester. The UTS: Graduate Research School contacts each student and their supervisor(s) to initiate this process.

Course completion requirements

C03026v5 Master of Science in Mathematical Sciences (Research)

Award(s): Master of Science (MSc) CRICOS code: 032335A Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Science or the UTS: Graduate Research School for further details.

Overview

This course provides an opportunity to acquire research skills and to deepen knowledge in one of the areas of mathematics. The aim of the program is the professional development of candidates through mastery of a substantial body of mathematical literature together with original research work under the guidance of a supervisor.

Career options

Skills in research and the ability to think mathematically are in growing demand in industry, finance and various government organisations. As a consequence, graduates of this course significantly broaden their career choices, and the research topic may be chosen to further facilitate their career paths, for example, in senior levels of market research, quantitative management and quantitative finance.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

Course structure

Students work under the guidance of a supervisor who is a member of the full-time academic staff of the University. The degree is examined through the presentation of a thesis. Students are also required to present seminars during the time of their enrolment and at the completion of their program. Students may be required to take one or several subjects deemed necessary by their principal supervisor or the Faculty Research Committee.

Course completion requirements

34776 Thesis (Mathematics)

C03029v3 Master of Science (Research)

Award(s): Master of Science (MSc) CRICOS code: 030869J Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Science or the UTS: Graduate Research School for further details.

Overview

This course provides an opportunity for graduates to acquire research skills and deepen their knowledge in an area of science.

Course aims

The aim of the program is the professional development of the candidate, providing experience in problem definition, hypothesis formulation and testing, data acquisition, analysis and interpretation, and project presentation.

Career options

Career options include environmental consultant, medical scientist, researcher, resource manager, scientist or technologist.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

Students work under the guidance of a supervisor who is a member of the full-time academic staff of the University. The degree is examined through presentation of a thesis. Students may be required to take a prescribed subject in research methodology or any other subject deemed necessary by their principal supervisor or the Faculty Research Committee.

C03032v4 Master of Sustainable Futures (Research)

Award(s): Master of Sustainable Futures (Research) (MSF(Res)) CRICOS code: 028886D Course FFTSI: 2

Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact the Institute for Sustainable Futures or the UTS: Graduate Research School for further details.

Overview

This degree involves a period of supervised study and research, culminating in the submission of a thesis. It is offered to both local and international students.

Graduates from the master's have consistently achieved excellent examiners' reports from international leaders in their fields. Many have been eligible for the UTS Chancellor's Award, and several have been placed on the Chancellor's List.

Course aims

The institute aims to support students taking a trans-disciplinary or interdisciplinary approach to research while building on their existing expertise.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must be in a relevant field.

Applications to the Institute for Sustainable Futures are assessed based on the following four criteria:

- professional experience strength and relevance to the candidate's opportunities (impact)
- research output (quality and impact)
- research proposal (quality)
- academic merit (quality).

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

This research degree is undertaken wholly by thesis.

Course completion requirements

95583 Master of Sustainable Futures Thesis

C03034v2 Master of Arts in International Studies (Research)

 $Award(s): Master \ of \ Arts \ in \ International \ Studies \ (MA)$

CRICOS code: 043338G

Course EFTSL: 2

Location: City campus and China

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact UTS: International Studies or the UTS: Graduate Research School for further details.

Overview

This degree provides an opportunity for graduates to develop their research skills, to deepen their knowledge in some area of international study and to undertake some original, independent research.

The Faculty of Arts and Social Sciences has strong expertise in China studies. University rules allow for the submission of a thesis in a language other than English providing that specific conditions have been met.

Career options

The research degrees offered by UTS: International Studies are especially valuable for those wishing to pursue an academic career or a career in research.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Each applicant should, prior to application, discuss their proposed thesis topic with UTS: International Studies' research coordinator to determine whether supervision is possible.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances

Applications

Students are required to enrol in person and meet candidature assessment requirements. Students should also contact a potential supervisor and seek consent.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study. Students can complete the course in less than the maximum time.

This course is available in onshore and offshore mode. Students are, in general, not required to attend classes, however, regular contact is maintained with the candidate's supervisor(s) throughout enrolment.

Course structure

This degree is undertaken wholly by thesis. A Master of Arts thesis is normally a work of around 40,000 words and is examined by two appropriate examiners.

Theses can be supervised in the fields of cultural diversity, social change, contemporary culture, politics and modern history in China, Japan, Europe and the Americas.

Course completion requirements

979110 Thesis (International Studies)

C03044v2 Master of Creative Arts (Research)

Award(s): Master of Creative Arts (Research) (MCA (Res)) CRICOS code: 066173M Course EFTSL: 2 Location: City campus

Note(s)

The Master of Creative Arts (Research) is offered primarily on a full-fee-paying basis, however some scholarship places may be available. Contact UTS: Communication or the UTS: Graduate Research School for further details.

Overview

The Master of Creative Arts (Research) is generally intended for people with industry experience in the media and creative arts who want to undertake creative research involving the preparation and presentation of a major creative work and a thesis of about 10,000-15,000 words. Candidates may also participate in classroom or online seminars on thesis preparation in the first semester of enrolment.

The course provides an opportunity for those seeking to develop specific knowledge, research and creative skills relevant to the creative industries that are emerging locally and internationally.

Career options

Career options include positions in the creative industries.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Selection criteria for admission include professional and creative experience in a creative arts field, the quality of the research proposal, the quality of the applicant's portfolio of creative work, UTS: Communication's ability to offer appropriate supervision in the applicant's chosen field of study, and, where necessary, demonstration of generic technical skills.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

This research degree is undertaken through the production of a major creative work and a supporting 10,000-15,000-word thesis. Coursework subjects may be prescribed according to individual student requirements. Examples of the creative research component include an exhibition in a traditional gallery venue or relevant digital format, such as CD-ROM, a website, video, DVD or piece of journalism.

Course completion requirements

51985 Master of Creative Arts Thesis

C03046v2 Master of Business (Research)

Award(s): Master of Business (MBus)

CRICOS code: 069858B Course EFTSL: 2

Location: City and/or Kuring-gai campuses

Note(s)

This is an exit-only course. There is no direct admission to it. Current UTS students may be able to transfer into this course. Check with your faculty.

Overview

The Master of Business (Research) is for students who may be required to transfer from a Doctor of Philosophy. Students extend and deepen their knowledge through an appropriate research investigation under supervision by UTS: Business academic staff.

This program is suitable for students who may be required to transfer from a Doctor of Philosophy. Students develop critical and analytical skills and advanced research skills to enable in-depth exploration of their chosen area.

Career options

Career options include management-level positions in industry or government, and academic positions.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

The main requirement of the degree is the preparation of a thesis of 40,000-50,000 words, which presents the results of original research of a theoretical or applied nature.

Students may also be required to undertake some coursework in research methods and/or theoretical knowledge in the core fields of study. During their candidature, students' progress is monitored by assessments and regular progress reports. For further details, refer to UTS: Business's postgraduate course information (see page 53).

Course completion requirements

Select one of the following:

21990 Master of Business Thesis (Management)
22990 Master of Business Thesis (Accounting)
24990 Master of Business Thesis (Marketing)
25990 Master of Business Thesis (Finance)
23990 Master of Business Thesis (Economics)

C03047v1 Master of Education (Research)

 ${\sf Award(s): Master\ of\ Education\ (Research)\ (MEd(Res))}$

CRICOS code: 040690D Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship, faculty part-sponsored or full-fee-paying basis. Contact UTS: Education or the UTS: Graduate Research School for further details.

Overview

The Master of Education (Research) is intended for those who wish to pursue advanced research in one of the areas of faculty expertise.

Career options

Career options include management-level positions in industry or government, and academic positions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Entry is by direct admission or through a research pathway from the Master of Education (by coursework) (C04232) (see page 400).

Direct admission requires evidence of potential to conduct research. Entry from the Master of Education (by coursework) is based on demonstrated research potential and academic prowess.

The research topic needs to be aligned with one of the faculty research areas, and a potential supervisor must be available.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study. Students can complete the course in less than the maximum time.

Course structure

The program comprises research coursework, participation in faculty research seminars and a thesis of 50,000 words.

The coursework component consists of the two 6-credit-point research subjects currently offered in the Master of Education.

The thesis work of candidates is generally closely related to the research interests of supervising members of staff in UTS: Education's areas of research strength.

C03048v2 Master of Nursing (Research)

Award(s): Master of Nursing (Research) (MN(Res))

CRICOS code: 052679M Course EFTSL: 2 Location: City campus

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact UTS: Health or the UTS Graduate Research School for further details.

This degree is designed for registered nurses wanting to develop research skills that have practical application for innovations in the health care industry and scholarly understanding of nursing practice. It enables informed participation in research endeavours and clinical practice innovation and improvement. In this degree, students extend and deepen their knowledge of a specialised area in nursing through a program of supervised research.

This course assists students to complete original research that contributes to knowledge in their field within an international context. Research at UTS takes place in a dynamic and outcomes-oriented environment. The University attracts students who want to develop their knowledge and expertise within a professional and stimulating framework. Students are part of a lively and vigorous research culture, working closely with academic staff and health industry partners.

Career options

This degree offers solid research training to registered nurses who are required to undertake research in their current employment or who aspire to such positions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants are required to have authorisation to practise as a registered nurse. Applicants are also required to submit a research proposal and have the agreement of a suitable supervisor at the time of application.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard fulltime duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Subjects are run in intensive mode, with an additional online component. All research students are expected to attend the twiceyearly Research Student Symposia and are required to present a seminar during these weeks, twice a year for full-time students and once a year for part-time students.

Course structure

This course is a structured program of study incorporating research preparation subjects undertaken in the first year and the production of a research thesis for examination.

Students are required to undertake a candidature assessment at the end of the first two semesters for full-time students, and at the end of the first three semesters for part-time students. Students work closely with a principal supervisor and a supervisory panel, and are required to report on their progress each semester.

Course completion requirements

92975	Master of Nursing (Honours) Thesis	
92972	Health Care Research Methodology	6ср
92973	Developing Health Care Theory	6ср
92974	Investigating Health Care Change	6ср

C03051v1 Master of Analytics (Research)

Award(s): Master of Analytics (Research) (MAnalytics(Res))

CRICOS code: 075277F Course EFTSL: 2 Location: City campus

Overview

UTS is at the forefront of analytics education in Australia with its focus on practice-based, interdisciplinary analytics and decision-making research. Big data in the internet age is very complex and growing exponentially, posing greater challenges for organisations.

In this course, students can focus on real-world business problems in their own organisations and develop solutions as part of their research. This course enables graduates to extend and deepen their knowledge in a specialised area of analytics by undertaking research under the supervision of a member of academic staff.

The core program is supplemented by short courses, seminars and projects. These courses provide academic rigour while using cutting-edge technologies.

The course offers flexibility in the choice of research topics so that the research is closely aligned with the student's professional requirements. Students can undertake research in analytics to solve the problems that directly impact their organisations: research with a purpose.

Advanced analytics techniques and solutions are increasingly being used by industry to drive productivity, transform business and increase competitiveness. The demand for skilled analytics professionals with the ability to work in both traditional and emerging industries continues to grow. With high-level analytics skills graduates are able to make a significant contribution to their organisation. Students also benefit from being able to work with world-leading researchers in this area.

Career options

There is a skills shortage of professionals with work-ready skills in analytics. The demand for skilled professionals in analytics crosses a range of industries from banking, e-commerce, education, finance, government, health, insurance, marketing, taxation, telecommunications and transport. In a knowledge economy there is significant demand for graduates in this area.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Previous qualifications must have a major in analytics, computing, applied statistics or applied mathematics. Before submitting a formal application for admission to this degree, applicants should first seek the approval of a potential supervisor for their proposed research work.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.0 overall with a writing score of 6.0; or TOEFL: paper based: 500-549 overall with TWE of 4.5, internet based: 60-78 overall with a writing score of 21; or AE5: Pass; or PTE: 50-57; or CAE: 52-57

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

The maximum course duration is two years of full-time or four years of part-time study.

Course structure

Candidates are required to complete two subjects covering technology research preparation and technology research methods respectively (some candidates may be exempt from completing these subjects), and selected learning modules, seminars, projects and practice.

The degree is examined through presentation of a thesis.

All thesis students are required to submit, in consultation with their supervisor(s), a progress report at the end of each semester. The UTS: Graduate Research School contacts each student and their supervisor(s) to initiate this process.

C03052v1 Master of Sport and Exercise (Research)

Award(s): Master of Sport and Exercise (Research) (MSportEx(Res)) CRICOS code: 032336M Course EFTSL: 2

Note(s)

Research degrees are offered on a sponsored, scholarship or full-feepaying basis. Contact the UTS: Health or the UTS Graduate Research School for further details.

Overview

The Master of Sport and Exercise (Research) program is for graduates who wish to enhance their knowledge of an area, address policy or management issues, or pursue a research/academic career.

This program is suitable for students who have completed a coursework degree and wish to develop in a more focused way by means of research. Students develop critical and analytical skills and advanced research skills to enable in-depth exploration of their chosen area.

Career options

Career options include management-level positions in industry or government, and academic positions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

The bachelor's degree must be in a related field of study.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 6.5 overall with a writing score of 6.0; or TOEFL: paper based: 550-583 overall with TWE of 4.5, internet based: 79-93 overall with a writing score of 21; or AE5: Pass; or PTE: 58-64; or CAE: 58-66

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

Course duration and attendance

Course structure

The main requirement of the degree is the preparation of a thesis of 40,000-50,000 words, which presents the results of original research of a theoretical or applied nature.

Students are also required to complete the two-subject sequence relevant to their thesis topic. The first is an advanced research methods subject that also covers statistical analysis. The second involves reading and formal seminar presentations on current topics in the chosen area of study. In addition to these subjects, candidates may be required to enrol in subjects specified by their supervisors. During their candidature, students' progress is monitored by a master's assessment and regular progress reports.

Course completion requirements

92052 Master of Sport and Exercise Thesis

92054 Research and Statistics for Sport and Exercise 6cp

C03053v1 Master of Pharmacy (Research)

Award(s): Master of Pharmacy (Research) (MPharm(Res)) CRICOS code: 076138J Course EFTSL: 2 Location: City campus

Note(s)

If you are considering this degree, submit an expression of interest in the first instance. The school provides you with further information and assists you with the application process.

Overview

This course is intended for registered pharmacists, or students who have completed a registrable pharmacy degree, who wish to pursue a career in pharmacy research or gain a competitive advantage in their career by completing an additional postgraduate qualification. Students gain research skills and expertise in their area of research interest, and demonstrate their outstanding academic ability and commitment to pharmacy through the completion of the degree.

The Master of Pharmacy (Research) gives students the opportunity to work with leading national and international researchers in their area of interest to develop and complete an original research project, which contributes to knowledge. Students gain research training and skills, as well as developing extensive knowledge and expertise in an area of research. Students are supported by a strong and vibrant research culture, both within the School and the University and have access to other researchers, a wide variety of workshops, the University library and research facilities.

Career options

The Master of Pharmacy (Research) is excellent preparation for those students who wish to pursue doctoral research study, a career in research or higher level pharmacy positions. Career options include academic appointments, expanded practice roles, advisory positions and industry roles.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants need to have completed a prior degree that would make them eligible for registration as a pharmacist.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

All applicants are required to contact UTS: Pharmacy prior to applying to establish eligibility and supervisory arrangements.

Course duration and attendance

Students are also required to attend on-campus meetings with supervisors, research training sessions and other forums as required.

Course structure

This course consists of one thesis subject which is undertaken for the duration of the degree.

Students are required to undertake a candidature assessment at the end of the first two semesters for full-time students, and at the end of the first three semesters for part-time students. Students work closely with a principal supervisor and a supervisory panel, and are required to report on their progress each semester.

Course completion requirements

95590 Master of Pharmacy Thesis

Other information

For further information, contact UTS: Pharmacy: email pharmacyresearch@uts.edu.au www.pharmacy.uts.edu.au www.gradschool.uts.edu.au

C03054v1 Master of Pharmaceutical Sciences (Research)

Award(s): Master of Pharmaceutical Sciences (Research) [MPharmSc(Res]) CRICOS code: 076139G Course EFTSL: 2

Note(s)

If you are considering this degree, submit an expression of interest in the first instance. The school provides you with further information and assists you with the application process.

Overview

The Master of Pharmaceutical Sciences (Research) is intended for students who have completed a relevant degree in science, who wish to pursue a career in pharmaceutical sciences research or gain a competitive advantage in their career by completing an additional postgraduate qualification. Students in this course gain research skills, technical skills and expertise in their area of research interest and demonstrate their outstanding academic ability and commitment to pharmaceutical science through the completion of the degree.

The course gives students the opportunity to work with leading national and international researchers in their area of interest to develop and complete an original research project, which contributes to knowledge. Students gain research training and skills, as well as developing extensive knowledge and expertise in an area of research. Students are supported by a strong and vibrant research culture, both within the School and the University and have access to other researchers, a wide variety of workshops, the University library and research facilities.

Career options

The Master of Pharmaceutical Sciences (Research) is excellent preparation for those students who wish to pursue doctoral research study, a career in research or higher level pharmaceutical science positions. Career options include academic appointments, industry roles and advisory positions.

Admission requirements

Applicants must have completed a UTS recognised bachelor's degree, or an equivalent or higher qualification, or submitted other evidence of general and professional qualifications that demonstrates potential to pursue graduate research studies.

Applicants need to have completed a relevant bachelor's degree in science.

The English proficiency requirement for international students or local applicants with international qualifications is: Academic IELTS: 7.0 overall with a writing score of 7.0; or TOEFL: paper based: 584-609 overall with TWE of 5.0, internet based: 94-101 overall with a writing score of 23; or PTE: 65-72; or CAE: 67-73

Eligibility for admission does not guarantee offer of a place.

International students

Visa requirement: To obtain a student visa to study in Australia, international students must enrol full time and on campus. Australian student visa regulations also require international students studying on student visas to complete the course within the standard full-time duration. Students can extend their courses only in exceptional circumstances.

All applicants are required to contact UTS: Pharmacy prior to applying to establish eligibility and supervisory arrangements.

Course duration and attendance

The maximum course duration is two years full time or four years part time.

Students are also required to attend on-campus meetings with supervisors, research training sessions and other forums as required.

Course structure

This course consists of one thesis subject which is undertaken for the duration of the degree.

Students are required to undertake a candidature assessment at the end of the first two semesters for full-time students, and at the end of the first three semesters for part-time students. Students work closely with a principal supervisor and a supervisory panel, and are required to report on their progress each semester.
